8. Properties: Is the Property/Object/Site/Structure listed on the National Register of Historic Place or listed as a National Historic Landmark? If applicable, check either criterion A or B.

a) ☒ **Designated as a National Historic Landmark** or located within and contributing to a historic district that is designated as a National Historic Landmark District.

b) ☐ **Listed in the National Register of Historic Places** for *national significance* or located within and contributing to a historic district that is listed in the National Register for its national significance. The level of significance can be found in Section 3 – State/Federal Agency Certification of the property's approved National Register nomination. Contact your State Historic Preservation Office if you have questions about the level of significance or do not have a copy of the approved nomination. Contact information can be found at http://www.ncshpo.org/find/index.htm.

9. Project Summary

This proposed project address the significant deterioration of Homewood's identity-defining south portico. All building systems, brick and stone masonry, wood and composition components, and the wrought-iron railings are in perilous condition. The project is structural and cosmetic in nature, and there is great risk to much original fabric of the building. Receipt of this grant would make possible the comprehensive and coordinated repair of all of the inter-related elements. While the house has other restoration needs, the portico is the focus of this application. Previous applications for a Save America's Treasures grant have addressed broader overall issues but this is our most critical project. While we have raised and allocated funds to tackle interim projects such as window restoration, and woodwork repairs to the north portico, the breadth of this project and its' expense make it impossible for us to tackle it all at once without major grant support.
