Soundscapes
Backcountry - Natural sounds are undisturbed the greater part of every hour over the entire area, but depending on the season, weather, and proximity to travel corridors there may be frequent intrusions of human noise from snowmachines, aircraft, or other sources, some of which may be loud.
Primitive - Natural sounds are undisturbed the greater part of every hour over the entire area, but depending on the season, weather, and proximity to travel corridors there may be infrequent intrusions of human noise from snowmachines, aircraft, or other sources, a few of which may be loud.
Natural - Natural sounds are almost never interrupted by human noise; intrusions are limited to the rare airplane, snowmachine, or other park visitor passing through.
Old Park - Natural sounds are almost never interrupted over most of this area; intrusions are limited to the rare airplane or other park visitor passing through. Depending on the season, weather, and proximity to travel corridors there may be faint, sometimes frequent intrusions of human noise from vehicles on roads, aircraft, dog teams, or hikers,although natural sounds are still undisturbed the greater part of every hour.
