Medical Statement

Archaeological fieldwork is a strenuous physical activity. Please indicate if there is any past or present medical issue that might prevent you from participating in the field school or that might be a health and safety issue that the program should know about. Possible issues might include heart problems, chest pain/pressure, frequent shortness of breath, frequent dizziness, frequent fainting, high blood pressure, significantly overweight, currently pregnant, asthma/ respiratory problems, diabetes/blood sugar problems, musculo-skeletal problems (including back problems), and major hospitalization/surgery within the last year. If there are issues, please consult with the Field Director and your physician to make sure that you are physically capable of taking the course. Please submit a note from your physician showing that he/she has cleared you for the field school.

List any Allergies/Anaphylaxis (include medications, foods, bites and stings):

Are you color blind? ☐

(NOTE: colorblindness will not be factored into considerations for acceptance into the program).
