GGNRA Draft GMP WASO Review
Land Resources Division Comments
Prepared by Paul Batlan, November 18, 2010

Comment 1 - Volume 1:vi, Planning Area, Line 13-14

GM states: "The total area of land and water addressed in this plan is approximately 75,000 acres."

MIS/MDL identifies a current total of 80,041.4 Gross Area Acres and approximately 3,400 hundred acres of water/offshore holdings in the park. GGNRA Website shows Gross Area Acres for FY 2008 at 75,500. The difference is RcDT acreage which is being acquired in fee in January 2011.

LRD recommends updating the Gross Area Acres in the GMP to the current MIS/MDL totals for the park for both land and water/offshore areas.

Comment 2 - Volume 1:ix, Key Elements, Boundary Adjustments, Lines 10-16

GMP identifies approximate acreage of 4 undeveloped parcels to be added to park boundary at 900 acres.

LRD recommends adding approximate gross total acreage of water/off shore areas proposed for addition to the park's legislative boundaries (including Bolinas Lagoon and San Mateo County).

Also, Bolinas Lagoon is misspelled "Bloinas" on line 14.

Comment 3 - Volume 1:26, Tidelands and Submerged Lands, Lease, Lines 38-42

GMP states, "Golden Gate National Recreation Area leases tidelands and submerged lands from the California State Lands Commission."

LRD recommends adding the County location and popular name(s) of the leasehold areas.

Comment 4 - Volume 1:64, Boundaries, Goals, Lines 19-30

Just a general comment to say this section is great. It makes clear the park's goals and criteria for evaluating and justifying boundary adjustments and land acquisitions. Glad this made it into the GMP.

Note on Line 34 that the term "multiple strategies" is in a smaller type size than the rest of the line.

Comment 5 - Volume 1:65, Proposed Boundary Adjustments, Lines 17-21

LRD recommends adding a bullet stating: "Determined that the areas meet the criteria for a legislative boundary change or minor boundary adjustment."

Comment 6 - Volume 1:65, Offshore Ocean Environment SM County, Description, Lines 10-16

LRD recommends adding approximate total acreage for SM County water/off shore area(s) proposed for addition to the parks' legislative boundaries. Clarify if a legislative boundary change or minor boundary adjustment is anticipated.

Comment 7 - Volume 1:67, Gregerson SM County, Description, Lines 2-8

LRD recommends clarifying whether a legislative boundary change or minor boundary adjustment is anticipated. May exceed size and value limitations for a minor boundary adjustment.

Comment 8 - Volume 1:68, Cattle Hill, Pacifica, Description, Lines 3-12

LRD recommends clarifying whether a legislative boundary change or minor boundary adjustment is anticipated. A minor boundary adjustment may be applicable.

Comment 9 - Volume 1:69, McNee Ranch, SM County, Description, Lines 2-9

LRD recommends clarifying whether a legislative boundary change or minor boundary adjustment is anticipated. May exceed size and value limitations for a minor boundary adjustment.

Comment 10 - Volume 1:70, Bolinas Lagoon, Marin County, Description, Lines 9-18

LRD recommends adding approximate total acreage for Bolinas Lagoon proposed for addition to the parks' legislative boundaries. Clarify if a legislative boundary change or minor boundary adjustment is anticipated.
