What J.F.K Means to Me

Ana Obermeier
May 18, 2016

J.F.K. was a leader who always wanted to help. J.F.K. felt it was very important to help one another. He wanted other people to care and think about those in need. J.F.K. encouraged people to be thoutful to others around the globe.

J.F.K. created the Peace Corps because helping other people was important to him. The Peace Corps would send people across the globe to help. For example it would send someone to Ecuador to build a school or maybe go to India to build some houses. He wanted a would where people arond the globe were at their best.

He wanted to help because it made him feel amazing inside. J.F.K wanted to make a difference so he sacrificed to help others

J.F.K created the Peace Corps to attempt to help every one. He tried to help things get better. He created Peace Corps to try to make every one happy even if people did it live in the U.S. J.F.K. thought that other people could be happy if others showed they cared. J.F.K. set an example. J.F.K took chances and made ideas to help others He wanted a world of peace happiness and people helping other people.

J.F.K. and I are alike because we love helping others for example I am doing a fundraiser and the money will go to schools in Conda, Ecuador.

Also every year I donate my old clothes and toys to kids who need it more than I do.

J.F.K. taught me that helping other is an amazing thing to do.
