what John f kennedy means to me
by Dorin aitzi

John Fitzgerald kennedy was a very brave human. He was the youngest president of usa and the first catholic president too. He was the 35th president.

In world war II, John F. kennedy commanded a boat called the PT-109. The ship got cut in half by a Japanese destroyer. Two men died, 11 stayed alive. John swam with an injured crew member for 5 hours. I think that was very brave. They finally got to the shore and met 2 natives. He carved words into a coconut, something like we need help. when he got back he was awarded a medal for his courage and bravery.

Maybe today he is dead.
But his spirit and things he
looked up to still remain.
