Superintendent's Compendium
Of Designations, Closures, Permit Requirements and Other Restrictions Imposed Under Discretionary Authority.

Approved:

Date: 8/15/2014
Tammy Ann Duchesne, Superintendent

In accordance with regulations and the delegated authority provided in Title 36, Code of Federal Regulations ("36 CFR"), Chapter 1, Parts 1-7, authorized by Title 16 United States Code, Section 3, the following provisions apply to all lands and waters administered by the National Park Service, within the boundaries of Pu'uhonua o Hōnaunau National Historical Park. Unless otherwise stated, these regulatory provisions apply in addition to the requirements contained in 36 CFR, Chapter 1, Parts 1-7.

Written determinations, which explain the reasoning behind the Superintendent's use of discretionary authority, as required by Section 1.5(c), appear in this document identified by italicized print.

I. 36 CFR §1.5 – VISITING HOURS, PUBLIC USE LIMITS, CLOSURES, AND AREA DESIGNATIONS FOR SPECIFIC USE OR ACTIVITIES

(a)(1) The following visiting hours and public use limits are established for all or for the listed portions of the park, and the following closures are established for all or a portion of the park to all public use or to a certain use or activity:

Visiting Hours:

The parks hours are from 7:00 am to sunset daily unless otherwise posted.

Determination: It is necessary to establish hours that the public may enter an area in order to protect the natural and cultural resources from resource damage, theft, vandalism and inappropriate group activities. It is also necessary for visitor safety.

Public Use Limits:

Picnics, weddings and/or gathering of more than 20 persons (maximum of 50 people in any park area) require a permit.

Determination: This is necessary to prevent visitor use conflicts, and for protection of the natural and cultural resource from vandalism, theft and inappropriate use.

Overnight parking is prohibited

Determination: Since overnight use and camping is prohibited in the park, and both areas are closed by gates, there is no reason for a vehicle to remain in the park overnight.

Closures:

- Keone'ele Cove is closed picnicking, nudity, beach chairs, mats, towels, beach umbrellas, coolers, smoking, beach access and pets.

Determination: This is necessary to protect sensitive cultural Integrity and natural resources from damage and vandalism. This closure also protects the Endangered Green Sea Turtles and the Endangered Hawaiian monk Seal from human disturbances while they are resting or foraging. This closure will also protect the integrity and these activities detract from the cultural values and history of the park and the area.

- Pu'uhonua is closed to commercial filming, nudity, beach chairs, towels, mats, beach umbrellas, coolers, picnicking, pets, wedding ceremonies and photography, paints and easels, , smoking and recreational activity, such as, Frisbee throwing, football tossing, kite flying.

Determination: This is necessary to protect sensitive cultural resources from damage and vandalism. This closure will also protect the integrity and these activities detract from the cultural values and history of the park and the area.

- Amphitheater is closed to pets and smoking.

Determination: These activities detract from the cultural values and history of the surrounding area.

- Royal Grounds are closed to smoking, nudity, beach chairs, mats, towels, beach umbrellas, coolers, picnicking, wedding ceremonies, wedding photography, paints and easels, and pets.

Determination: This closure will protect the cultural values, integrity and history of the park and the area.

- Trails and unpaved roads may be closed at any time to assure public safety and resource protection

Determination: This is necessary to protect sensitive cultural resources from damage and vandalism. Archeological sites and features in the park are comprised of dry-stack stone work, loose stone work, pits, soft-lava trails, or loose midden material that may be difficult for the untrained eye to see and which are easily disturbed or damaged by off-trail pedestrian use.

- Bicycles are prohibited on the 1871 trail, to include pushing and carrying them.

Determination: Bicycle use on park trails is prohibited by 36 CFR. Prohibiting bicycles from being on park trails ensures compliance with the regulation. Bicycles leaned against trees or left unattended interfere with the public's access to and enjoyment of the area. Bicycle racks are available at the Visitor Center.

- Access into Hale o Keawe is prohibited unless approved by Superintendent.

Determination: This is necessary to protect sensitive cultural resources from damage and vandalism. These areas are considered sacred and those activities are traditionally and culturally unacceptable.

- All caves, burial sites and lava tubes are closed to the public.

Determination: This is necessary to protect sensitive cultural and natural resources from damage and vandalism theft and inappropriate use.

- Service Road from the picnic area to the Royal Grounds is closed to public vehicular traffic.

Determination: This road is unsuitable for public vehicle travel as it poses a threat to visitor safety and resource protection.

- Unmanned Aircraft: Launching, landing or operating an unmanned aircraft from or on lands and waters administered by the National Park Service within the boundaries of Pu'uhonua o Hōnaunau National Historical Park is prohibited except as approved in writing by the superintendent.

Definition: The term "unmanned aircraft" means a device that is used or intended to be used for flight in the air without the possibility of direct human intervention from within or on the device and the associated operational elements and components that are required for the pilot or system operator in command to operate or control the device (such as cameras, sensors, communication links). This term includes all types of devices that meet this definition (e.g. model airplanes, quad-copters, drones) that are used for any purpose, including for recreation or commerce).

Unmanned aircraft may cause disturbance of endangered species including the Hawaiian Pueo and I'o and also disturb migratory waterfowl. The use of unmanned aircraft may adversely impact visitor experiences by disturbing the enjoyment of the natural and cultural landscape and soundscape. The use of unmanned aircraft presents unacceptable risks to visitors (collisions between unmanned aircraft and visitors, the uncontrolled fall of unmanned aircraft, contact with spinning propellers or rotors of unmanned aircraft).

<u>Fishing 2.3 (c)</u>
Fishing is prohibited in all anchialine pools.

Determination: Fishing is prohibited in anchialine pools to prevent disturbance and contamination of these fragile ecosystems.

Items left in the park for 24 hours will be considered abandoned

(a)(2) The following areas have been designated for a specific use or activity, under the conditions and/or restrictions as noted:

<u>Weddings</u>
Wedding ceremonies, parties of 50 or less persons are allowed south of the Great Wall to the end of the picnic parking lot and makai (within the picnic area only), with a permit. Wedding photography is **not** allowed in the Royal Grounds or within the Pu'uhonua.

Determination: This is necessary to limit visitor use conflicts, for visitor safety and the protection of the natural and cultural resource from vandalism, theft and inappropriate use.

<u>Picnics/barbecue</u>

- Allowed in designated picnic area only.
- Groups between 20-50 persons require a permit.
- Recreational activities such as but not limited, football, Frisbee, horseshoes, washers (Portuguese horseshoes), volleyball, kite flying, etc...are prohibited.
- No bonfires or open fires allowed.

Determination: This is necessary for visitor safety and the protection of the natural and cultural resource from vandalism, theft and inappropriate use.

Camping 2.10
Camping is prohibited within the park.

Camping is defined as the erecting of a tent or shelter of natural or synthetic material, preparing a sleeping bag or other bedding material for use, parking of a motor vehicle, motor home or trailer, or mooring of a vessel for the apparent purpose of overnight occupancy.

Determination: This area is designated as day use only. These conditions are established to protect the resource and maintain the integrity of the area, as well as staffing limitations after hours. There are many other public lands nearby which offer camping opportunities.

Bicycles and Motor Bikes

Bicycles and motorized bikes (scooters, mopeds) are not allowed on park trails, service roads or beaches or at the Visitor Center even if they are being pushed and not ridden. Bicycles must be parked at a designated bicycle rack at the Visitor Center.

Determination: Bicycle use on park trails is prohibited by 36 CFR. Prohibiting bicycles from park trails ensures compliance with the regulation. Bicycles leaned against trees or left unattended interfere with the public's access to and enjoyment of the area. Bicycle racks are available Only at the Visitor Center.

Hiking 2.1(b) Hiking or other pedestrian use is restricted to the designated and maintained trails listed below. Off-trail pedestrian use is prohibited except that pedestrian use along the park shoreline is permitted.

- 1871 trail
- Picnic Area Access road
- Within the Royal Grounds
- Trail system within the Pu'uhonua.
- Coastal Trail.

Determination: Archeological sites and features in the park are comprised of dry-stack (no mortar) stone work, loose stone work, pits, soft-lava trails, or loose midden material that may be difficult for the untrained eye to see and which are easily disturbed or damaged by off-trail pedestrian use. Due to the arid environment many native plants within the Park are small and have thin, shallow root material that is easily damaged and/or dislodged when tread upon.

Swimming Beaches/Areas:

- Swimming within tidal pools along the coast fronting the picnic area is allowed.
- Cliff jumping is prohibited.
- Launching and landing of kayaks, rubber rafts or other motorized or non-motorized vessels are prohibited.

Determination: These conditions are established to protect the lives of swimmers and kayakers and are the minimum restrictions necessary to achieve such protection. Ocean currents, waves, and the shoreline access are difficult to traverse. Entering and exiting the ocean is a safety and resource concern.

- Keone'ele Cove is closed to the operation of all motorized and non-motorized vessels unless approved by Superintendent.

Determination: Keone'ele Cove is an archeological site and is used by threatened green sea turtles for resting, basking and foraging. Vessels including kayaks and rafts disturb green sea turtles' use of the Area. Due to the small size of the cove, vessels interfere with the traditional Native Hawaiian cultural values for which the park was established

Segway Use

Segways and gas or electric motorized scooters, as defined under Section 1.4 are motor vehicles. The park imposes an *interim* restriction on the use of Segways and motorized scooters in all areas within the park including park roads, trails, and sidewalks. **However,** any park visitor with a documented disability is permitted to use Segways and electric motorized scooters in the park, including all appropriate structures, facilities, park roads, sidewalks, trails, and other surfaces when such devices are used for the sole purpose of mobility assistance. Finally, use of a mobility assistive device, as outlined above, must also adhere to the following:

- A person shall operate any mobility assistive device in a safe and responsible manner; maximum speed will not exceed more than 8 M.P.H. ("Segway sidewalk/Intermediate" key), so as not to endanger one's self or other visitors.
- A person riding a mobility assistive device upon and along a sidewalk, while crossing a roadway in a crosswalk or any other surface shall have all the rights and duties applicable to a pedestrian under the same circumstances, except that the mobility assistive device operator must always yield to pedestrians.

Determination: This provides for the use of mobility assistive devices within the park for persons with disabilities and the protection of park resources from recreational activities inconsistent with park management.

The following restrictions and/or conditions are in effect for the specific uses or activities noted:

Digging /Ground Disturbance

Digging and/or disturbance of sand and soil is not allowed within park boundaries.

Determination: Cultural and historic deposits are known to exist throughout the park. Digging or ground disturbance is prohibited to protect cultural and archeological features. Archeological sites and features in the park are comprised of dry-stack (no mortar) stone work, loose stone work, pits, soft-lava trails, or loose midden material that may be difficult for the untrained eye to see; therefore, these features may be inadvertently damaged by digging or ground disturbance.

Hammocks are not allowed in the park

Determination: Because shade trees are an attractive place to gather and hammocks take up a large space, to minimize visitor conflicts and afford adequate access to shade for all park visitors, hammocks are not allowed to be suspended from trees. Cords and straps used to suspend hammocks cause damage to trees.

Kites or any motorized flying plane or toy may not be flown in the park.

Determination: Kites or any motorized flying plane or toy may cause disturbance of endangered species, migratory waterfowl as well as park visitors.

Balloons are prohibited in the park.

Determination: Balloons may disturb endangered species. Broken or deflated balloons will disperse in the ocean and land environment and are harmful to birds and marine mammals that may ingest them.

Tiki torches and candles are prohibited in the park.

Determination: To protect park resources (trees, grasses, thatched structures) from accidental ignition, use of tiki torches or other types of portable open flames or candles is prohibited.

Beach umbrellas, shade tents, canopies, free-standing tents are prohibited.

Determination: The use of these items detracts from the cultural landscape of the area and detracts from the traditional Native Hawaiian cultural values for which the park was established. Digging or disturbing soil to secure structures is not allowed due to the presence of cultural resources in the substrate. Moving rocks to support freestanding tents and umbrellas often disturbs cultural resources; use of rocks from cultural sites is prohibited by 36 CFR 2.1. There are numerous trees along the beach which provide shade.

Recreational game playing is not permitted within Pu'uhonua o Hōnaunau NHP, exception below.
Only traditional Hawaiian games provided by the NPS are permitted within the Royal Grounds.

Determination: The picnic area has limited space for visitors to enjoy and recreational games may disturb park visitors. Recreational game playing such as football or volleyball detracts from the traditional Hawaiian scene and interferes with the appreciation of the sacred site.

Passenger Carrying Busses:
Engines must be shut down when not underway.

Determination: The idling of bus engines adds unnecessary exhaust fumes to the air, creates noise and diminishes the enjoyment by visitors of the peace and tranquility of the park.

Refuse Collecting
No one may take refuse from a dumpster, refuse bin, recycling bin or trash receptacle.

Determination: This is necessary to reduce competition for collecting recyclable refuse.

Public Water Use
No one may take water from a non-pay park public water dispenser for domestic or other purposes outside the park.

Determination: Water supplied to the public is for the benefit and use of park visitors.

II. 36 CFR §1.6 – ACTIVITIES THAT REQUIRE A PERMIT

(f) The following is a compilation of those activities for which a permit from the superintendent is required:
