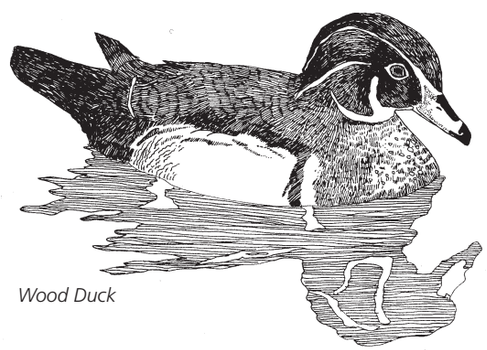
Footnotes:
1. Upper St. Croix and Namekagon only
2. Southern half of Riverway only
3. Upper St. Croix and Namekagon in summer
4. Southern half of Riverway in summer
5. Upper St. Croix and Namekagon in winter
6. Southern half of Riverway in winter
7. Neotropical Migrant



Wood Duck

This list is a work in progress. Information on some of these species is limited, especially those listed with a question mark and many of the shorebirds. Please report any new species, or those listed as occasional, rare, or accidental. Accidental species or those with just one or two observations are not included in this list.

Reports can be sent to:
St. Croix National Scenic Riverway
Attn: Resource Management
401 N. Hamilton Street
St. Croix Falls, WI 54024

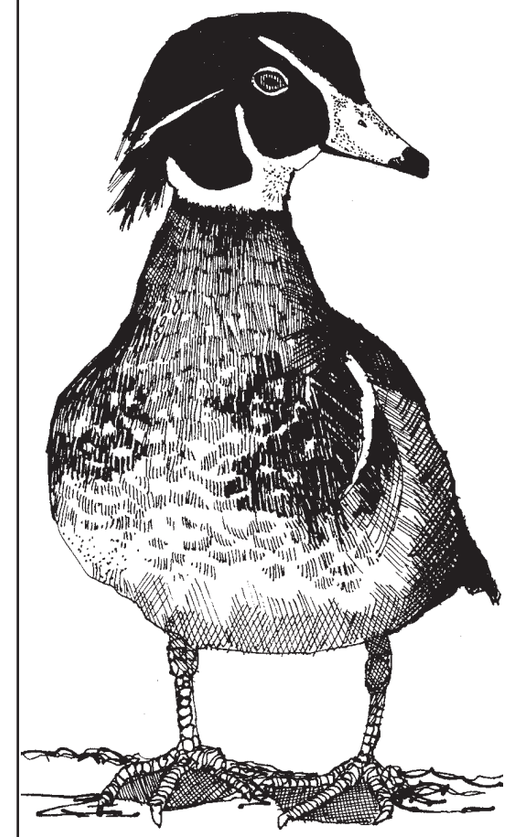
St. Croix National Scenic Riverway

Bird Checklist



There are 243 species of birds including 176 neotropical migrants. Of these, 160 species are known to nest here. The Riverway crosses the division between the coniferous forest, the mixed hardwood forest, and the prairies, resulting in a diverse variety of habitats for birds.
