Talks
Meet at the flagpole of the Foothills visitor Center for a 20 minute chat.

Critter Chat
Bears, deer, and other wildlife abound in the Oak Woodlands of the Sequoia Foothills. Get to know some of the creatures that live in the most diverse ecosystem in California.

Evenings at Potwisha
Meet at the Potwisha Campfire Circle. 1 hour.

Friday: Meet Your National Parks
America's national parks protect our most valuable historic sites, sensitive ecosystems, and beautiful landscapes. Join Ranger Tim Holzem and learn about the different types of national parks and what they have to offer.

Saturday: Night Hike
The dark can be scary for some. Many Sequoia animals have special senses to guide them through the night. Join Ranger Tim Lutterman for a walk in the dark to discover how other critters live at night, and what we can do to navigate the Sequoia Foothills if we venture out after sunset.

1hour, ½ mile, easy walk. Bring a flashlight.

Be on the Lookout For

Each year, as summer transitions to fall, visitors report seeing these gentle 8 legged creatures roaming throughout the foothills. In their search for mates, male tarantulas may have to cross the road. Be on the lookout and allow them safe passage.
