Tuesday May 19th 1891

Father went to Town with Mr West this morning. Mr J. P. Davis went east today but will probably be back sometime sooner or later. I took the Hanging Gardens to Mrs West, this forenoon. I worked on the Lost Cabin lode today & the mineral seems to get better as I go in. We had about 1½ hours of rain this afternoon. Mr West was surprised when he saw the hanging gardens this evening

Wednesday May 20th 1891

I took about 1½ tons of mineral from the Lost Cabin lode today making 6 or 7 tons in all of the lower dump. I expected A. M. Willard over today but he did not come as he was busy at something

Thursday May 21st 1891

I got up early this morning but did not get breakfast until late. I went over to Martins Valley with Mr West this forenoon to look at the country. I saw Montgomery breaking prairie while there (in the Valley) I took a specimen from the Chamber of Frost over to Mrs West this afternoon Mary went over with me, I drilled the first hole ever drilled in the Lost Cabin lode today (single handed) Elmer is over to Cumo today & will not be back until tomorrow night.
