Thursday May 28th

I stuck carbonate ore in the Lost Cabin drift this afternoon. Elmer & Mary went over to West with me this morning & Elmer helped me drill a two foot hole in the drift this forenoon. the shot tore out about 2 tons of rock.

Friday May 29th

120 in cans (Crystal Route ..... 1 trip)

at 7:00 o'clock this morning I started in the cove & returned at 8:20 o'clock. I went to the new crystal pocket between the second & third division of Crystal Palace & brought out a can full of the specimens from the pocket. Capt. A. M. Willard came over this morning & was here yet when I started to Hot Springs for the mail. I got to the Springs at about noon & started back about 3:00 o'clock Father & I went over to Wm. Willards this evening & found W. W. Oles there. We had to start back soon on account of threatening rain. It is now raining outside ~~right~~

Saturday May 30th

I slept the most of the forenoon away & got up about 12 o'clock. I started out in the country for a walk at 12:15 P. M. & went on the top of the four mountains (the North West one of the 4) North of here about 2 miles. I came back past J. C. West's place & cut two of one set of mine timbers for the Lost Cabin Drift. Mary was over to West's this evening
