Thursday March 12th 91

3:25 in cove — (Sampson's Palace Route ..... 1 trip
4:00 in cove — (Cataract route — 1 trip

At 11:00 A.M. M.A. Moore & I started in the cove after frost work and we went the Cataract Route. I found a passage leading South West of the farther chamber of popcorn work that need exploring. We got out at 3:00 P.M. & found Mr & Mrs J.L. West here from brower valley on a visit.
At 8:00 P.M. M.A. Moore & I started in the cove with the intention of getting some box work. We went to the side rooms to the left of the Sampson's Palace Route & near Sampson's Palace we got out at 11:25 P.M.

Friday March 13th 1891

3:05 in cove — (Sampson's Palace Route — 1 trip

At 10:40 A.M. M.A. Moore, Elmer & I started in the cove to get some box-work & went the Sampson's Palace Route, at the left of the second room on the other side of Sampson's Palace we crawled through a small hole and came into a room filled with box, lattice & bracket work of beautiful design. We got a load of specimens apiece & M.A. Moore & Elmer left me & started for the entrance but I caught up with them at the Church Steeple. M.A. Moore & Elmer made another trip after box work & put a shot in the narrow passage just this side of the B side Chamber this after noon. I got out at 1:45 P.M. Father worked this end of Red Hill this after
