Saturday March 14th

8:25 in cave — Sampson's Palace Route --- 2 trips
1:55 in cave — Monument Hall Route --- 1 trip

At 8:05 A.M. M.A. Moore & I started in the cave to get a load of boxwork on the Sampson's Palace Route. Just this side of the Brides Chamber we stopped to clean out the shot that Him and Elmer put in last night. It did not take us long to clean the shot out, for it did not bring down more than 250 lbs of rock, we got our box work in the side room near Sampson's Palace. We arrived at the entrance at 11:55 A.M. Elmer went to that Spring a 8:30 this morning

At 1:35 I started in the cave to put a shot in the narrow passage just this side of the brides chamber. The shot brought down about 1200 lbs of rock & I got out of the cave at 2:30 after cleaning up the loose rock

At 7:05 P.M. J. F. Moore, M.A. Moore, Father & I started in the cave after a load of specimens. We got our load near Crystal Spring & the dining room & got out of the cave at 11:40 P.M.

Sunday March 15th 8/9

Monument Hall --- 1 trip
8:45 in cave — Sampson's Palace Route --- 1 trip

O. B. Chesley a reporter of the Minnekota Herald Hot Springs came about noon, after getting our dinner & discussing scientific facts about Wind Cave we got started in the cave at 2:45 P.M. & Father went to Monument hall with us & after turning in the Sampson's Palace Route He went as far as Crystal Spring & then turned back towards the entrance leaving O. B. Chesley & I to go the rest of the way alone. We got as far as the Chamber of Bells & got out of the cave at 11:30 P.M.
