~~and explored~~ for about 20 minute but
found nothing so ~~we~~ returned to the rem-
ainder of the party. We tried the compass
and found the crevice ~~to~~ extended East and
West. We then tried the passage that
led from the upper part of the room &
had ~~more~~ better success. After climbing up we
turned to the North West and found a
chamber about 15 × 20 feet and about 8 feet
high. in this room A. A. Stabler and I
placed the following inscription.

From this room Elmer found a passage
leading to the right and he soon came
on a string that was partly decayed
with age. I found the string to be
