

# Social Studies, Science, and Careers in Conservation

*August 3–5, 2009*

*Schoodic Point, Winter Harbor, Maine*

- Enjoy a three-day, two-night program at the fully furnished accommodations at the Schoodic Education and Research Center in Winter Harbor, Maine.
- Meals, on-site transportation, books, and materials are provided.
- Credit for two CEUs are possible through the University of Maine.
- The institute is open to all grade K–9 teachers.
- Interact with scientists studying Maine’s unique environment.
- Explore the wide range of National Park Service resources available to teachers.
- Visit an offshore island and learn how early artists, Native Americans, and coastal environments can intersect in your classroom.
- Develop multidisciplinary activities to take back to your classroom.
- Qualify for Acadia National Park’s 4–8 grade residential program.
