Stewardship

The following centennial proposal is certified as eligible for Centennial Challenge funding consideration in fiscal year 2008. Funding for the Centennial Challenge requires legislation.

Restoration of Old State House

Location: Old State House, Boston, MA
Partner(s): Bostonian Society
Partner Website: bostonhistory.org
Total Cost: \$1,500,000
Proposal # 137634

Summary: This project would complete critically needed restoration of the wooden cupola section of the building that is currently leaking badly during rain storms. There is also a problem with humidity in the building due to an outdated HVAC system that needs to be redesigned and replaced. The project would also allow for handicap access to the building.
