SEMINOLE REST CONSTRUCTION

Shoreline Construction is tentatively scheduled to begin installing pilings by the Seminole Rest Caretaker House on 09/14/09. Park staff will remove a section of the walkway by the Caretaker House for contractor equipment access. The contractor will also be installing some orange safety fencing around the work site (dock area). There will be some trail use inconveniences to visitors, although the trails will not be closed entirely. After the piling installation is complete, there will be additional dock work which will require the temporary placement of a floating dry dock. Construction and cleanup work may periodically restrict visitor access to areas of Seminole Rest. The estimated project completion date is November 30, 2009.
