COPYRIGHT AND RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials. The various state privacy acts govern the use of materials that document private individuals, groups, and corporations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a reproduction if the document does not infringe the privacy rights of an individual, group, or corporation. These specified conditions of authorized use include:

- non-commercial and non-profit study, scholarship, or research, or teaching
- criticism, commentary, or news reporting
- as a NPS preservation or security copy
- as a research copy for deposit in another institution

If a user later uses a copy or reproduction for purposes in excess of "fair use," the user may be personally liable for copyright, privacy, or publicity infringement. This institution's permission to obtain a photographic, xerographic, digital, or other copy of a document doesn't indicate permission to publish, exhibit, perform, reproduce, sell, distribute, or prepare derivative works from this document without first obtaining permission from the copyright holder and from any private individual, group, or corporation shown or otherwise recorded.

Permission to publish, exhibit, perform, reproduce, prepare derivative works from, sell, or otherwise distribute the item must be obtained by the user separately in writing from the holder of the original copyright (or if the creator is dead from his/her heirs) as well as from any individual(s), groups, or corporations whose name, image, recorded words, or private information (e.g., employment information) may be reproduced in the source material. The holder of the original copyright isn't necessarily the National Park Service. The National Park Service is not legally liable for copyright, privacy, or publicity infringement when materials are wrongfully used after being provided to researchers for "fair use."

This institution reserves the right to refuse to accept a copying order if fulfillment of the order is judged in violation of copyright or federal or state privacy or publicity law.

HISTORY

Between 1980-1984, various testing, excavation, and mitigation projects were undertaken by the park in association with re-routing and widening the Interpretive Loop Road in the main canyon. The project would also include construction of one parking lot between Pueblo Bonito and Chetro Kettle and another between Pueblo del Arroyo and Kin Kletso. A comfort station would also be erected adjacent to the Pueblo Bonito parking lot.

Most of the work was done by archaeologists from the Southwest Regional Office, but in one case, at small site 29SJ 626, Chaco Project personnel assisted in the work. Other areas that were excavated were 29SJ 597, 29SJ 329 and Hyde House. All sites were backfilled and recovered materials analyzed completely.

Archeological testing completed in the areas of new disturbance and construction deemed the areas unlikely to contain significant cultural resources.

The majority of the records had been retained, on long-term loan, by one of the key project personnel, Jim Bradford, in the Santa Fe office. These records were returned to the archives and cataloged in 2009.

(DF Note: In the 1980s, this project was known as the 'Interpretive Loop Road' because the majority of the work was on the 8 mile loop road. But the first portion of the project, 3+ miles, was from the Visitor Center up through Gallo Wash and included the testing/excavations of 29SJ 597, 29SJ 600, and 29SJ 603.)

SERIES DESCRIPTIONS

SERIES I: EXCAVATION OF 29SJ 626, 1975-1984 (bulk dates: 1975-1982)

History: This site was excavated twice. The Chaco Project tested the west portion of the site, which dates to the Pueblo I period, in July 1975. The first 44 field specimen numbers are associated with this excavation. The eastern portion of the site was excavated by a combination of Chaco Center and SWRO personnel in 1982 as part of the Loop Road Project, a salvage project prior to re-routing the loop road. The artifacts and records were commingled and so have only one accession number. Because the larger part of the excavation pertains to the Loop Road Project, all records are housed as part of this collection.

Scope: Field Notes, Images, Reports, Maps, Administrative Files

Organization and Arrangement: Organized into 5 subseries:

SERIES II: EXCAVATION OF 29SJ 597, 1980-1990 (bulk dates: 1980-1982)

History: This series contains the records of 1980 testing project (Acc 515) and a 1982 excavation (Acc 507) of the site, in conjunction with plans to move the main entrance from from the western to the eastern end of the park. Jim Bradford was the project director, and Jim Trott and Tom Windes were involved with the project. Together, the projects produced significant archaeological collections.

Scope: Field Notes, Images, Reports

Organization and Arrangement: Organized into subseries

- 001 - Field Notes
- 002 - Images
- 003 - Reports

SUBSERIES 001: Field Notes, 1980-1982 (bulk dates: 1980-1982)

SUBSERIES 002: Images, 1980-1982 (bulk dates: 1980-1982)

Organization and Arrangement: Arranged by negative number

Scope: Photocards: 91; Negatives: 97; Prints: 145, Photologs: 51

SUBSERIES 003: Reports, 1980, 1990 (bulk dates: 1980, 1990)

Organization and Arrangement: Alphabetically by author

SERIES III: EXCAVATION OF 29SJ 329, 1984 (bulk dates: 1984)

History: Prior to widening the Loop Road in 1984, this site was mapped and profiled by Jim Bradford. A small amount of material was recovered, and the site was reburied to protect it from the road construction.

Scope: Field Notes and Images

Organization and Arrangement: Organized into two subseries:

001 - Field Notes

002 - Images

SUBSERIES 001: Field Notes, 1984 (bulk dates: 1984)

SUBSERIES 002: Images

Scope: Includes photo logs, prints, negatives and a video cassette

SERIES IV: EMPLOYEES QUARTERS (HYDE HOUSE) AT PUEBLO DEL ARROYO, 1920-1988 (bulk dates: 1984-1988)

History: This project was undertaken in 1984 by Jim Bradford when the foundation of the demolished historic Employees Quarters near Pueblo del Arroyo was exposed during debrushing of the right-of-way of the new interpretive Loop Road. The site was tested, mapped, and artifacts collected.

Scope: Field Notes, Maps, Reports and Images

Organization and Arrangement: Organized into 4 subseries:

001 - Field Notes

002 - Maps

003 - Reports

004 - Images

SUBSERIES 001: Field Notes, 1980-1988 (bulk dates: 1980-1988)

Organization and Arrangement: Reports cataloged in alphabetical order by author

SUBSERIES 004: Images, 1920-1984 (bulk dates: 1920-1984)

Organization and Arrangement: By George Grant (C.C.) number; by park negative number

For the report on the Employees Quarters (CHCU 51162), multiple prints (3 prints, 1 photocard) were made of several of the 1929 George Grant images: C.C. 1, 2, 3, 5, 25, 26, 27, 28, 39, and 40. Also 4 prints of a 1920 M.E.J. Colter image of Chetro Ketl. There are no negatives for these prints. See Grant Coll 0028/003.

See also images of Pueblo del Arroyo in 0002/037.001

SERIES V: LOOP ROAD/SOUTH LOOP ROAD TESTING, 1980-1984 (bulk dates: 1980-1984)

History: In July-Aug 1982, NPS, acting through the Southwest Regional Office, conducted archeological test excavations at several locations within and adjacent to a new proposed interpretive loop road. The new road was based on an existing dirt road in the general vicinity of Pueblo Bonito and Pueblo del Arroyo except for minor variations. The testing program was designed to locate, identify and assess the significance of any cultural resources within or adjacent to the new road before paving began. Testing would also determine any realignment options possible if avoidance of areas was deemed necessary. Recovered materials were to be analyzed completely and all excavated areas were to be backfilled.

Scope: Field Notes, Images, Administrative Files and Maps

This collection contains the records of test excavations at various locations done under the direction of Jim Bradford in preparation for construction and paving of the new interpretive Loop Road. Many of the sites were in the general vicinity of Pueblo Bonito and Pueblo del Arroyo, including the Hyde-Wetherill era root cellars near Pueblo Bonito.

Organization and Arrangement: Organized into 4 subseries:

SERIES VII: JIM BRADFORD FILES, 1973-1986 (bulk dates: 1973-1986)

History: James E Bradford was the Program Manager for the Archeology Program based out of the then Southwest Region office in Santa Fe. Bradford's duties entailed a range of project management responsibilities in the region. Between 1980 and 1984, these duties included testing to determine if any significant sites would be impacted by the construction of the Park's Interpretive Loop Road. He also managed the further excavation of these sites.

Scope: Correspondence, drawings, forms, maps, notes, and photographs maintained as a part of Jim Bradford's administrative and general research files for Chaco Culture NHP.
