## ***COPYRIGHT AND RESTRICTIONS***

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials. The various state privacy acts govern the use of materials that document private individuals, groups, and corporations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a reproduction if the document does not infringe the privacy rights of an individual, group, or corporation. These specified conditions of authorized use include:

- non-commercial and non-profit study, scholarship, or research, or teaching
- criticism, commentary, or news reporting
- as a NPS preservation or security copy
- as a research copy for deposit in another institution

If a user later uses a copy or reproduction for purposes in excess of "fair use," the user may be personally liable for copyright, privacy, or publicity infringement. This institution's permission to obtain a photographic, xerographic, digital, or other copy of a document doesn't indicate permission to publish, exhibit, perform, reproduce, sell, distribute, or prepare derivative works from this document without first obtaining permission from the copyright holder and from any private individual, group, or corporation shown or otherwise recorded.

Permission to publish, exhibit, perform, reproduce, prepare derivative works from, sell, or otherwise distribute the item must be obtained by the user separately in writing from the holder of the original copyright (or if the creator is dead from his/her heirs) as well as from any individual(s), groups, or corporations whose name, image, recorded words, or private information (e.g., employment information) may be reproduced in the source material. The holder of the original copyright isn't necessarily the National Park Service. The National Park Service is not legally liable for copyright, privacy, or publicity infringement when materials are wrongfully used after being provided to researchers for "fair use."

This institution reserves the right to refuse to accept a copying order if fulfillment of the order is judged in violation of copyright or federal or state privacy or publicity law.

***HISTORY*****CHACO CENTER HISTORIC PHOTOGRAPH COLLECTION**

Photographs obtained by Chaco Center personnel, 1970-1985. During the course of the Chaco Project, an attempt was made to acquire, through copies or donations of original prints, historic photos of Chaco Canyon. Various institutions were contacted, as were UNM Field School alumni. Few, if any, records were kept about how the images were acquired. All small prints were pasted onto NPS 10-30 photocard and filed by site number in the Chaco Center photographic files.

**History:** CHARLES AUGUSTUS LINDBERGH (LUCKY LINDY) WAS BORN IN 1902 AND DIED IN 1974. HE WAS AN AMERICAN AVIATOR WHO MADE THE FIRST SOLO TRANSATLANTIC FLIGHT IN 1932. LINDBERGH WAS INVITED TO FLY OVER AND PHOTOGRAPH SOUTHWESTERN SITES IN 1929 BY A. V. KIDDER DURING HIS LAST YEAR OF EXCAVATIONS AT PECOS RUIN. LINDBERGH'S FLIGHT PRODUCED PHOTOGRAPHS OF PUEBLO BONITO, PUEBLO PINTADO, PUEBLO DEL ARROYO, CHETRO KETL, SHABIK'ESHCHEE AND WIJJI IN CHACO CANYON AS WELL AS OTHER IDENTIFIED SITES IN THE AREA. OTHER SITES PHOTOGRAPHED DURING HIS FLIGHT INCLUDE EL RITO RUIN, PECOS RUINS, SANTO DOMINGO PUEBLO, BLACK MESA, AND DEL MUERTO CANYON. IT IS POSSIBLE THAT THE PHOTOGRAPHS WERE TAKEN BY HIS WIFE, ANNE, WHO ACCOMPANIED HIM. SEE "CHARLES A. LINDBERGH'S AIR PHOTOGRAPHS OF THE SOUTHWEST - 1929" IN EL PALACIO, VOL. 87, NO. 3, FALL 1981.

**Collection/Series:** 0028/003  
**Series Title:** SERIES 3: GEORGE A. GRANT COLLECTION

**Accession:** CHCU-00425      **Catalog Nbr:** CHCU 59620  
**Inclusive Dates:** 1929-1940      **Bulk Dates:** 1929-1934

**History:** George A. Grant served as the first Chief Photographer with the Department of the Interior and the National Park Service. His tenure ran continuously from April 15, 1929 until his retirement in 1954. During his years with the NPS, Grant visited a majority of the national parks and monuments and photographed them. During his career he took approximately 30,000-40,000 images. Subjects include: events, personnel, architecture, archaeology, stamps, and Native Americans. The original Grant Collection is included in the NPS Historic Photograph Collection at Harpers Ferry Center, including the original negatives.

An index of the entire Grant collection is filed with this collection.

Grant made three trips to Chaco Canyon and took a total of 211 photographs: 1929 (C.C. 1-52); 1934 (C.C. 101-168); and 1940 (C.C. 201-211). [The C.C. numbers are Grant's numbers.]

This collection is incomplete. In the 1970s or 1980s the park received 47 black and white Grant prints from WACC. The prints were copied from the original nitrate negatives. By the time the prints reached the museum collection, only 35 were present. Prints were pasted onto photocards by the Chaco Center and copy negatives were made for some images. Other prints were acquired over the years by the Chaco Center. In 2004 Harpers Ferry Center sent us digital images of many of the missing Chaco images.

N.B. 10 negatives made from prints in the 1980s were given negative numbers in the 30700s range. When the images were assembled into a collection in the 1990s, they were reassigned negative numbers in the 77000 range. Some of the images have been published using the 30700 numbers. A cross-referenced table, arranged by Grant image number, is in the front of the collection of prints.

**Dates:** 1929?  
**Phys Desc:** 29SJ 387  
**Summary Notes:** 1 PHOTOGRAPH; PHOTOGRAPHER: George A. Grant; HFC Grant Neg # 16; -A section of the back wall; showing in detail the second type of masonry and one of the doorways with the original lintels still in place. The second type of masonry was the most ornate of the four types but the chinkings were apt to wash out and in the later type these thin chinkings were replaced by thicker chinkings. There is some indication that all walls-both inside and outside were plastered so beauty was not their main object in laying up such fine walls. The construction of a wall of this type required an immense amount of patient and tedious toil.

**Series Title:** SERIES 4: FLORENCE HAWLEY ELLIS COLLECTION

**Accession:** CHCU-00676      **Catalog Nbr:** CHCU 52325  
**Inclusive Dates:** 1930-1981      **Bulk Dates:** 1930s

**History:** A collection of material relating to Chaco and Southwest archaeology, primarily photographs. Florence H. Ellis taught at the UNM Chaco Field School, did a study of the dendrochronology of Chetro Ketl for her Ph.D., and taught at UNM until her retirement. See Archive Module for series and item level descriptions.

Florence Hawley Ellis was born September 17, 1906 in Cananea, Sonora, Mexico and died on April 6, 1991. She earned a BA in English with a minor in Archaeology from the University of Arizona, Tucson, in 1927 and a Master of Arts in archaeology from the same institution in 1928. She was a graduate student at the University of New Mexico Field School in Chaco Canyon from 1929 to 1933. She worked as A.E. Douglass's assistant from 1930-1931 and conducted dendrochronological research in Chaco Canyon while a student there. She received her Ph.D. from the University of Chicago in 1934. Her dissertation, *The Significance of the Dated Prehistory of Chetro Ketl, Chaco Canyon, New Mexico*, dealt with dendrochronology and ceramics.

Dr. Ellis taught at the University of Arizona and the University of Chicago from 1928-1933 and at the University of New Mexico from 1934 until her retirement in 1971. She continued to work in Chaco Canyon during the UNM Field Schools as part of the faculty. She also taught at the University of Chicago for half academic years from 1937 to 1941. After retiring she taught at Ghost Ranch for Eckerd College, St. Petersburg, Florida and also offered classes, seminars and summer field schools.

Student papers in the Chaco Archive by Hawley include "Classification of Chetro Ketl Shards," "Classification and Relationships of Chetro Ketl Pottery," and "Chaco Tree Ring Collection" which are part of the Vivian Archive. Other publications by Hawley in the Chaco Archive are: *Chemical Examination of Prehistoric Smudged Wares*, *Field Manual of Prehistoric Southwestern Pottery Types*, *Remembering Chaco's First Digs*, and *The Anasazi: Mother to the Pueblos*. She also published an extensive reference work, *Twelve Thousand Years of Southwestern Indians - Plus or Minus*.

Hawley Ellis also actively researched living cultures and assisted many of the modern pueblos with their land claims and water rights cases.

Nitrates were reformatted to safety negatives and interpositives by NEDCC in 2002. Nitrates have been sent to WACC for long-term storage.

**Collection/Series:** 0028/005  
**Series Title:** SERIES 5: UNM CHACO FIELD SCHOOL COLLECTION

**Accession:** CHCU-00618      **Catalog Nbr:** CHCU 52323  
**Inclusive Dates:** 1920-1949      **Bulk Dates:** 1936-1947

**History:** Photos of personnel, historic buildings, and archaeological sites.

During the Chaco Project, Chaco Center personnel sought and acquired photographs from early work in Chaco Canyon. Most of the solicited photos related to UNM Field School work from 1936-1947. In most cases prints, but not negatives, were donated to the Chaco Center. In most cases no accession records or deeds of gift were created. Smaller prints were pasted onto NPS 10-30 photocards.

When negatives for the photos were received, they tended to be nitrates. During the nitrate reformatting project in 2000-2001, the negatives were cataloged according to photographer. The prints and negatives were recataloged as a collection in 2005.

Photographers include Dorothy Cassidy-Batey, John Corbett, Frank Hibben, Wesley Hurt, David Jones, Marjorie Ferguson Tichy Lambert, Roy Lassetter, Garland Marrs, William Mulloy, Douglas Osbourne, W.W. Postlethwaite, B. Reilly, Donovan Senter, Anna Shepard, Morton J. Sloan, Frances L. Swadesh, Paul Walter, and Janet Woods.

NB: Dorothy Cassidy-Batey photos are dated 1940-1942 and 1947. The only year she is listed on the UNM Field School roster is 1947, but Sue Golden, in one of Dorothy's photos, is listed on the roster in 1942. Tom Mathews is on the roster for 1947, not 1942. Some named individuals cannot be matched with known UNM students for any of these years.

NB: Frances L. Swadesh, nee Frances Leon, later Frances Leon Quintana, earned her doctorate in ethnology from the University of Colorado in 1966, and worked at the Laboratory of Anthropology as curator of ethnology until 1978. She attended the UNM Field School in 1936 and most if not all her photos are most likely from 1936. She married Morris Swadesh in 1940, and their marriage lasted until 1958. In 1978 she married Miguel Quintana. See <http://www.newmexicohistory.org/filedetails.php?fileID=22392>

**Collection/Series:** 0028/005.007  
**Series Title:** SUBSERIES G: William Chauvenet Collection

**Accession:** CHCU-00728      **Catalog Nbr:** CHCU 110141

**History:** A collection of 34 b/w photographs of erosion control in Chaco Canyon for the preservation of archeological sites. William Chauvenet took the photographs in 1934 for his Master's Thesis, Erosion Control in Chaco Canyon, New Mexico for the Preservation of Archaeological Sites (1935, C51213). He was a student in the University of New Mexico Field School in Chaco Canyon in 1934. He also worked for the Civilian Conservation Corps at Chaco Canyon, Camp No. NP-2-N, in July 1939, on erosion projects as the Project Superintendent (see CMCA 316G). He went to work at Camp NP-4-N at Bandelier National Monument in October 1940.

**Collection/Series:** 0028/006  
**Series Title:** SERIES 6: 1896-1899 HYDE EXPLORING EXPEDITION

**Accession:** CHCU-00426      **Catalog Nbr:** CHCU 52561  
**Inclusive Dates:** 1896-1901, 1956      **Bulk Dates:** 1896-1901

**History:** In 1896, Richard Wetherill wrote to B. Talbot Hyde and Frederick E. Hyde, Jr. of New York suggesting an excavation of Pueblo Bonito in Chaco Canyon. The Hyde brothers agreed to finance the field work, and contacted Prof. F. W. Putnam, curator of anthropology at the American Museum of Natural History. Putnam appointed George H. Pepper to direct field operations.

The Hyde Exploring Expedition (HEE) was formed in 1898, with Richard Wetherill as field manager and Frederick Hyde as general supervisor. Company headquarters and a trading post were established at Pueblo Bonito, and a bunkhouse for employees and a boardinghouse for transients at Pueblo del Arroyo. However, the HEE is primarily associated with the excavation of Pueblo Bonito.

From 1896-1900, Pepper and Richard Wetherill excavated Pueblo Bonito. Excavations were stopped in 1901 by the General Land Office, based on a report by S. J. Holsinger raising concerns about Wetherill's land claims on public land. The collections from Pueblo Bonito were donated by the Hyde brothers to the American Museum of Natural History.

**Scope:** FILM NEGATIVES, PHOTOCARDS, PHOTOGRAPHS

**Arrangement:** ORGANIZED INTO TWO SUBSERIES: SUBSERIES A: FRANK MCNITT DONATION,  
SUBSERIES B: GEORGE PEPPER PHOTOGRAPHS ARRANGED BY SUBSERIES

**Provenance:** The American Museum of Natural History (AMNH) is the original repository, and thus source, of the HEE material. However, AMNH traded collections to other institutions (for instance the Heye Foundation, now part of the National Museum of the American Indian.)

**Collection/Series:** 0028/006.001  
**Series Title:** SUBSERIES A: Frank McNitt Donation

**Accession:** CHCU-00426      **Catalog Nbr:** CHCU 52561  
**Inclusive Dates:** 1896-1956      **Bulk Dates:**

**History:** The majority of the prints were made from glass negatives of the Hyde Exploring Expedition (HEE), 1896-1899, under the direction of F.W. Putnam, George Pepper, and Richard Wetherill. The HEE collection is housed at the American Museum of Natural History (AMNH). 32 prints are of HEE correspondence and notebooks. These were presumably taken by Frank McNitt as part of his research for Wetherill's biography. The other 377 prints were purchased by McNitt from AMNH for the biography. The entire collection was donated by McNitt to the NPS in 1956.

The NPS has permission to make negatives and copies of the 377 AMNH-owned images for its own use. Non-NPS requests for the images should be directed to AMNH. It was a condition of the donation that the collection remain as "an undivided collection" ... "in Chaco Canyon." This stipulation caused some NPS consternation, as it was viewed as being a restrictive clause against NPS policy for accepting gifts. McNitt granted permission for copy negatives to be housed in SWAC in Globe, Arizona. 88 copy negatives have been made thus far. The first park inventory is dated 1986.

The majority are 8x10" prints. Some of these are duplicated as small prints pasted onto NPS photocards. However, some images exist only as the small prints on the photocards, and many exist only as 8x10" prints. PHOTOGRAPHS ARE IN 3 FOLDERS, 1 DOCUMENT BOX. PHOTOCARDS (INCLUDING 2 4 X 5 PHOTOGRAPHS) ARE IN PHOTO CAB-COLL 0028/006.001. NEGATIVES ARE IN NEGATIVE DRAWERS. A small collection of NPS photocards are stored in the Cultural Resources office at the park. As part of cataloging the collection, all images were scanned onto an archival CD. Thus, only the CD contains all the images from this collection in one place.

**Scope:** PHOTOCARDS, FILM NEGATIVES, PHOTOGRAPHS 83 PHOTOCARDS IN PHOTO CAB (was listed as 99)89 NEGATIVES IN NEGATIVE COLLECTION481 PHOTOGRAPHS

**Arrangement:** Organized originally in 6 binders by Frank McNitt. A 1986 inventory lists 8 volumes. By the time the collection was cataloged, the prints were stored in various locations. PHOTOGRAPHS ARE IN 3 FOLDERS, 1 DOCUMENT BOX. PHOTOCARDS (INCLUDING 2 4 X 5 PHOTOGRAPHS) ARE IN PHOTO CAB-COLL 0028/006.001. NEGATIVES ARE IN NEGATIVE DRAWERS. IN ADDITION, a set of photocards are stored in the park's Cultural Resources office. Arranged by AMNH negative number order, although some of the negative numbers on the back of the prints are not legible. The overall organization suggests a general attempt at sorting by topic: general site views, specific rooms, artifacts, burials, etc. All images were assigned a park negative number, but at various times, so these numbers are not sequential. The McNitt photos of correspondence are at the end of the collection and have park negative numbers, but no AMNH numbers.

**Provenance:** Donated by Frank McNitt in 1956. Prints and copies of correspondence were obtained by Mr. McNitt from the American Museum of Natural History, the repository for the Hyde Exploring Expedition collection. The HEE images were taken by or for George Pepper; the prints of HEE correspondence were presumably taken by Frank McNitt; the copy negatives were made by or for Gordon Vivian.

**Inclusive Dates:** 1896-1901

**History:** George Hubbard Pepper was born in Tottenville, Staten Island, New York, on February 2, 1873. He studied at the Peabody Museum of Harvard University during 1895-1896. He became assistant curator of the Department of the Southwest at the American Museum of Natural History (AMNH) in 1896. From 1896-1900 he conducted and oversaw excavations at Pueblo Bonito in Chaco Canyon, New Mexico, under the Hyde Exploring Expedition. For his ethnological studies, Pepper visited all of the occupied Pueblos of the southwest in 1904. In 1909, he became assistant curator in the Department of American Archeology at the University Museum, University of Pennsylvania, in Philadelphia. In 1910 he began working with George G. Heye in establishing the Museum of the American Indian, Heye Foundation. Pepper was a founder of the American Anthropological Association. His publications include "Pueblo Bonito," published in 1920 on the excavations at Chaco Canyon. Other articles he wrote about Chaco Canyon include: "Ceremonial deposits found in an ancient pueblo estufa in northern New Mexico;" "Ceremonial objects and ornaments from Pueblo Bonito, New Mexico;" "Human effigy vases from Chaco Canon, New Mexico;" and "The exploration of a burial room in Pueblo Bonito."

There is no known documentation for the photos; assume they are copies and came from the American Museum of Natural History in New York City. They were taken at Chaco Canyon and Pueblos in New Mexico and Arizona. They include scenes of dances, people, buildings and daily life. Locations included are: Acoma, Chaco Canyon, Cochiti, Hopi Villages, Isleta, Jemez, Laguna, Nambe, Picuris, Pojoaque, Sandia, San Felipe, San Ildefonso, San Juan, Santa Ana, Santa Clara, Zia, Taos, Tesuque, Zuni and Diablo Canyon, Az. See George Hubbard Pepper finding aid.

Over years, some (21 as of 2003) negatives have been made of the prints.

PHOTOCARDS IN PHOTO CABPHOTOGRAPHS IN COLL 0028/006.002

**Arrangement:** ORGANIZED INTO NEGATIVE DRAWERS AND PHOTO CABINETS Arranged in order by area: Acoma, Chaco Canyon, Cochiti, Hopi Villages, Isleta, Jemez, Laguna, Nambe, Picuris, Pojoaque, Sandia, San Felipe, San Ildefonso, San Juan, Santa Ana, Santa Clara, Zia, Taos, Tesuque, Zuni and Diablo Canyon, Az, THEN BY NEGATIVE NUMBER

**Provenance:** Since no records have been found to date, it was assumed that this collection consists of copies of prints from the AMNH acquired by Chaco Canyon National Monument. They are dated 1896-1901. However, this conflicts with the 1904 date mentioned in the history section. Possibly Pepper took some photos while working at Chaco Canyon as well. The Navajo photos reflect his interest in Navajo weaving. I have located no documentation on the acquisition of this collection. JMR 7/27/01

**Collection/Series:** 0028/007  
**Series Title:** SERIES 7: 1921-1927 NATIONAL GEOGRAPHIC SOCIETY EXPEDITION

**Accession:** CHCU-00618      **Catalog Nbr:** CHCU 86051  
**Inclusive Dates:** 1920s-1930s

**History:** DURING 1920-27 DR. NEIL JUDD, curator at the Smithsonian Institution, excavated 600 rooms of Pueblo Bonito, as well as Pueblo del Arroyo and several smaller sites for the National Geographic Society. The documentation here are various images of that excavation.

O.C. "Pete" Havens (1896-1984) was an avid photographer while a teenager in Missouri, and he continued taking photographs when he came to New Mexico in 1917. Born Orville Clyde Havens, he was given his lifelong nickname of Pete by a girlfriend in Albuquerque, according to his son John Havens. Later in life he used O.C. as his legal name, although his family called him Clyde. In 1921 he was employed by the National Geographic Society at Pueblo Bonito in Chaco Canyon. He became the official photographer for the expedition, and held that position until 1926. Many of his photos at Pueblo Bonito were made using 5x7 glass plates. These photos may be seen in the March 1922 and subsequent issues of the National Geographic Magazine.

Following his work for NGS, he served as museum photographer with the School of Archaeology in Globe, Arizona (now part of the University of Arizona). He returned to Gallup in 1932 and became a businessman. He still continued taking photographs, and when 35mm color film became readily available, he began taking color slides. He built a large collection of scenic views of the Southwest. After his retirement, he studied oils and acrylics with Emily Prather and Ted Claus at the Gallup campus of the University of New Mexico. He received a special award from the Archaeological Society of New Mexico in recognition of his work in photography at Chaco Canyon.

In the 1980s, shortly before his death, Mr. Havens donated images and audio tapes to the park. In 1997, John Havens, son of O.C. Havens, donated some of O. C.'s negatives to the park. The park made contact prints for John and the park. Approximately 75 of the negatives were nitrates, which were reformatted in 2001.

Materials donated by O.C. Havens and his family.

**Scope:** GLASS SLIDE, FILM NEGATIVES, PHOTOCARDS, PHOTOGRAPHS

**Arrangement:** ORGANIZED INTO TWO SUBSERIES: SUBSERIES A: NEIL JUDD IMAGES, SUBSERIES B: O.C. HAVENS COLLECTION ARRANGED BY SUB-SERIES

**Provenance:** NEIL M. JUDD, O.C. HAVENS, BETTY KELLEY, JOHN HAVENS, HARRY L. JUDD

**Collection/Series:** 0028/007.001  
**Series Title:** SUBSERIES A: Neil Judd Images

**Accession:** CHCU-00618      **Catalog Nbr:** CHCU 86051

**History:** DURING 1920-27 DR. NEIL JUDD, Curator of Archaeology at the U.S. National Museum (now part of the Smithsonian Institution) and excavated 600 rooms of Pueblo Bonito, as well as Pueblo del Arroyo and several smaller sites for the National Geographic Society. He served as Director of these excavations. The documentation here are various images of that excavation; Judd was unable to complete his descriptions of excavations at these sites till much later.

**Scope:** Lantern slides, Glass slides in metal frames, FILM NEGATIVES, PHOTOCARDS, PHOTOGRAPHS

**Arrangement:** ORGANIZED INTO THREE SUB-SUBSERIES: SUB-SUBSERIES A: GLASS LANTERN SLIDES , SUB-SUBSERIES B: IMAGES, SUB-SUBSERIES C: HARRY L. JUDD DONATION ARRANGED BY SUB-SUBSERIES

**Provenance:** NEIL M. JUDD

**Collection/Series:** 0028/007.001.001  
**Series Title:** SUB-SUBSERIES 1: Glass Lantern Slide Collection

**Accession:** CHCU-00416      **Catalog Nbr:** CHCU 86051  
**Inclusive Dates:** 1910-1925

**History:** DURING 1920-27 DR. NEIL JUDD, curator at the Smithsonian Institution, excavated 600 rooms of Pueblo Bonito, as well as Pueblo del Arroyo and several smaller sites for the National Geographic Society. The slides here are various images of that excavation.  
In addition to the NGS# (and occasionally an NMNH #), the park's slide number has been added to the lantern slides for cross-reference. At the item level, the Item Number is the park slide number.

**Scope:** Glass lantern slides and glass 35 mm duplicates in metal frames. Five possible autochrome slides have been identified: NGS # 128, 129, 130, 133, 138 (Park slide # 6762, 6763, 6764, 6767, 6770).

Original lantern slides: 459; Duplicates: 439

Non-Chaco or Southwest archaeology slides were not duplicated. However, in some instances the original slide has been lost and all we have is the 35mm glass duplicate.

**Arrangement:** Roughly organized by topics by Judd. The original arrangement of the lantern slides has been maintained: NGS# order in 5 wooden boxes built to hold slides. Lantern slides have since been moved into archival storage boxes with foam padding. The duplicate slides are in boxes by CHCU slide # order.

**Provenance:** Neil M. Judd

**Notes:** 35mm duplicates fronted by inventory of slides with notes. 7859-7893 only exist as lantern slides, no 35 mm duplicates

**History:** O.C. "Pete" Havens (1896-1984) was an avid photographer while a teenager in Missouri, and he continued taking photographs when he came to New Mexico in 1917. Born Orville Clyde Havens, he was given his lifelong nickname of Pete by a girlfriend in Albuquerque, according to his son John Havens. Later in life he used O.C. as his legal name, although his family called him Clyde. In 1921 he was employed by the National Geographic Society at Pueblo Bonito in Chaco Canyon. He became the official photographer for the expedition, and held that position until 1926. Many of his photos at Pueblo Bonito were made using 5x7 glass plates. These photos may be seen in the March 1922 and subsequent issues of the National Geographic Magazine.

Following his work for NGS, he served as museum photographer with the School of Archaeology in Globe, Arizona (now part of the University of Arizona). He returned to Gallup in 1932 and became a businessman. He still continued taking photographs, and when 35mm color film became readily available, he began taking color slides. He built a large collection of scenic views of the Southwest. After his retirement, he studied oils and acrylics with Emily Prather and Ted Claus at the Gallup campus of the University of New Mexico. He received a special award from the Archaeological Society of New Mexico in recognition of his work in photography at Chaco Canyon.

In the 1980s, shortly before his death, Mr. Havens donated images and audio tapes to the park. In 1997, John Havens, son of O.C. Havens, donated some of O. C.'s negatives to the park. The park made contact prints for John and the park. Approximately 75 of the negatives were nitrates, which were reformatted in 2001.

Materials donated by O.C. Havens and his family.
