Constructing a C & O Canal Map

VSC - Grade 4

A. Using Geographic Tools

1. Use geographic tools to locate places and describe the human and physical characteristics of those places
 - a. Construct and interpret a variety of maps using map elements

Directions:

Follow the directions below to make a C & O Canal Map

1. Cut on the dotted line and paste the map together.
2. Draw and/or label the following physical features:
 - Chesapeake Bay
 - Atlantic Ocean
 - Potomac River
 - three physical regions
3. Draw and/or label the following on your map:
 - C&O Canal
 - Cumberland
 - Georgetown
 - Williamsport
4. Complete the map by adding the following map elements:
 - key/legend
 - title
 - orientation
 - scale - 3.5 inches = 50 miles
5. Measure the distance that a canal boat must travel to go from Cumberland to Georgetown.
