Acadia

National Park Service
U.S. Department of the Interior
Acadia National Park, Maine

Location: _____

Date: _____

Prediction: How many bird species are there in Acadia?

Answer:

Initial Observations: What do you notice about the location? What do you hear? What do you see?

Bird Walk observations: Use this space to jot down observations. What features did you observe of the bird? Color? Size? We will use the Merlin bird app to help us identify.

Closing:

What reasons might a bird use bird calls?

What birds did you observe today?

How might climate change impact the birds in our area?

What questions do you still have? What do you want to learn more about?
