### Curecanti National Recreation Area Motorized Vehicle Access Plan/EA Alternatives Brochure Available

Curecanti National Recreation Area is currently in the process of preparing a motorized vehicle access plan/environmental assessment and is seeking comments on three alternatives. The alternatives brochure describes where the National Park Service is in the environmental assessment process, a time line for finishing the project, and a conceptual description of the three alternatives the park is currently considering. Maps included in the brochure provide opportunities for readers to review specific routes and areas that would be open or closed under each alternative. The public is invited to comment on the alternatives, as described in the brochure text.

The document is available on line at <http://parkplanning.nps.gov/> or available in hard copy from the Elk Creek Visitor Center (970-641-2337,ext.205) or libraries in Crawford, Delta, Gunnison, Hotchkiss, Montrose and Paonia. The comment period ends 5/29/2009
