"Fly Away!" Unit Activity 11: The Safe Zone Worksheet

Name:

1. Graph the population data taken from the safe zone game, with the years on the x-axis and the population on the y-axis.
2. Describe in words the changes in eagle population over time.
3. Did all of the eagles take the same path on their migration from the safe zone and back?
3. How is this game similar to real life?
4. How might humans protect the golden eagles beyond the safe zone of Denali National Park?
5. How does your data compare to real reproductive data for the Denali golden eagles? If there are major differences, what might account for these differences?
