

Employment Opportunities EFFIGY MOUNDS NATIONAL MONUMENT

The Park:

Effigy Mounds National Monument is located in northeast Iowa along the Mississippi River. The 2,526 acre monument was established in 1949 to protect earthen burial mounds that were built from 800 to 2500 years ago. The mounds are in a variety of shapes including effigy mounds which are in the form of birds of prey and bears. The monument's landscape is being restored to approximate the ecological conditions that existed during the time of the moundbuilders.

Opportunities:

To accomplish this goal the following resource management actions are being conducted:

- Prescribed Fire
- Exotic Plant Control
- Fire Effects Monitoring
- Vegetation Surveys
- Planning
- Water Monitoring
- Interpretation & Education
- Cultural Landscape Restoration

If you have an interest in any of the activities listed above and would like to work as a seasonal ranger or biological technician at Effigy Mounds National Monument (or other federal government locations) go to www.usajobs.gov for vacancy announcement listings and application procedures.

If you have questions concerning paid positions or volunteer internships contact:

Rodney Rovang: Resource Manager, email: Rodney_D_Rovang@nps.gov
Kenneth Block: Chief of Interpretation, email: Kenneth_Block@nps.gov
