

# National Park Units Affected with Possible NDGPS Decommissioning

Middle West NPS Units Within 80 and 200 Km

Alaska Region  
National Park Service  
U. S. Department of the Interior

This map depicts US National Park Units within 200Km and 80Km that will lose NDGPS signal as well as ability to post-process using high precision specified baselines to dual frequency base stations. H-Star customers require baselines of 80km to a single base or 200km to 3 base stations.

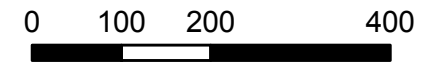

Map does not depict complete population of NDGPS/CORS/COOP-CORS and community base stations.

**Legend**
