Notes About Difference

While use in January and February did ramp-up over previous years use, full implementation of the new CRMP did not begin until March 1st. Only 9 trips were allowed to launch in January (the new plan allows 31), and 19 trips were allowed to launch in February (the new plan allows 28). This delayed implementation resulted in 31 trips not launching. Additionally, some other winter trips went unclaimed. As a result, total launches, passengers, and user-days for the winter season are lower here than they will be expected to be in future years.
