- Costs of fund-raising campaigns.
- Costs of work performed prior to announcement of award.
- For Federal agency grantees – Federal salaries, agency overhead, or administrative costs.

GRANT AMOUNTS

- **Collections projects** – minimum request \$25,000 Federal share, maximum request \$700,000 Federal share.
 - **Property projects** – minimum request \$125,000 Federal share, maximum request \$700,000 Federal share.
- Please note that the selection panel may, at its discretion, award less than the minimum grant request.

ADMINISTRATIVE AND FUNDING REQUIREMENTS

- **A dollar-for-dollar non-Federal match (and/or cost-share) is required for all projects.** Federal appropriations or other Federal grants, except Community Development Block Grants (CDBG) grants from the Department of Housing and Urban Development, may not be used for match. The non-Federal match may be cash, donated services, or use of equipment. It may be raised and spent during the grant period; it does not have to be “in the bank” at the time of the application.
- The grant period is generally 2 to 3 years.
- Grantees may only charge costs for time and/or materials directly related to performing project work.
- Administration and indirect costs pursuant to a current Federally-approved Indirect Cost Rate may be no more than 25% of the total of both the grant and non-Federal match. This limit is stipulated in Section 102(e) of the National Historic Preservation Act, as amended.
- Grantees must have a DUNS number to receive reimbursements. To determine if your organization has a DUNS number or to request a free number, see Dun & Bradstreet’s website, <www.dnb.com/US/duns_update/index.html>.
- **By law, no individual property or collection may receive more than one Federal Save America’s Treasures grant.**
- Projects funded under this program constitute “undertakings” as defined by Section 106 of the National Historic Preservation Act, as amended (16 U.S.C. 470). Accordingly, grant recipients must complete the consultation process with their State Historic Preservation Officer and the National Park Service **prior to the receipt of funds**. The purpose of the consultation is to ensure that project work meets the *Secretary of the Interior’s Standards for the Treatment of Historic Properties*. Additional information about the Standards may be found on the National Park Service website at <http://www.nps.gov/history/hps/tps/standguide/>.

For historic properties –

- Section 102(a)(5) of the National Historic Preservation Act stipulates that “no grant may be made under this Act . . . unless the grantee has agreed to assume, after completion of the project, the total cost of the continued maintenance, repair, and administration of the property in a manner satisfactory to the Secretary.” In order to implement this statutory requirement, all Save America’s Treasures grantees must ensure that the property owner encumbers the title to the grant-assisted historic property with a preservation easement or covenant running with the land, in favor of and enforceable in court by the State Historic Preservation Office, for a term of 50 years. The easement or covenant must cover the significant, character-defining features of both the exterior and the interior of the historic property. The preservation easement/covenant must stipulate that the owners and their successors in interest, if any, shall repair, maintain, and administer the premises so as to preserve the historical integrity of the features, materials, appearance, workmanship, and setting that made the property eligible for listing on the National Register of Historic Places.

- Federal assistance for the repair and development of historic properties is provided only for the benefit of the public. Accordingly, interior work (other than mechanical systems such as plumbing or wiring) or work not visible from a public right-of-way must be open to the public at published times at least 12 days a year during the 50-year term of the preservation easement or covenant.

SELECTION PROCESS

The Save America's Treasures Grants Selection Panel, a panel of experts representing applicable preservation and conservation disciplines, will rank applications and make funding recommendations to the Secretary of the Interior. The Secretary of the Interior, in consultation with the President's Committee on the Arts and the Humanities, will select successful applicants and forward selections to the House and Senate Committees on Appropriations for concurrence. Awards will be announced after the Committees' concurrence and not before late 2008.

EVALUATION AND CRITERIA

Complete applications will be evaluated using the following criteria: National Significance, Immediacy/Severity of Threat, Proposed Mitigation of Threat and Feasibility of Project. Projects located in underfunded locations will receive bonus points. Reviewers' evaluations are based **solely** on the material provided in the application. **Additional materials not specifically required by the application, and materials sent separately from the application, will not be considered.**

APPLICATION SUBMISSION

Applications must be submitted electronically through www.grants.gov. **Paper applications will not be accepted. Applications not received by the deadline and incomplete applications will not be considered.**

All application materials, including photographs, become the property of the National Park Service and may be reproduced by NPS or its partner organizations without permission; appropriate credit will be given for any such use. All questions must be answered in the space provided (one page or about 500 words). Please remember, reviewers prefer clear and concise narratives.

The Narrative Form will accept only text (underscore, italics, bullets, and bold are accepted) – Do NOT embed images (charts, graphs, tables) or other PDFs in the text.

TIP: Compose the narrative in your word processor of choice and cut/paste into the form.

NATIONAL SIGNIFICANCE

The historic collection or property must be **nationally significant**. Collections or properties not meeting this criterion will receive no further consideration. The quality of national significance is ascribed to historic collections and properties that possess exceptional value or quality in illustrating or interpreting the intellectual and cultural heritage and the built environment of the United States, that possess a high degree of integrity, and that:

- *Are associated with events that have made a significant contribution to, and are identified with, or that outstandingly represent the broad patterns of United States history and culture and from which an understanding and appreciation of those patterns may be gained; or,*
- *Are associated importantly with the lives of persons nationally significant in United States history or culture; or,*
- *Represent great historic, cultural, artistic, or scholarly ideas or ideals of the American people; or,*
- *Embody the distinguishing characteristics of a resource type that:*
 - *Is exceptionally valuable for the study of a period or theme of United States history or culture; or*
 - *Represents a significant, distinctive and exceptional entity whose components may lack individual distinction but that collectively form an entity of exceptional historical, artistic or cultural significance (e.g., an historic district with national significance), or*
 - *Outstandingly commemorates or illustrates a way of life or culture; or,*
- *Have yielded or may yield information of major importance by revealing or by shedding light upon periods or themes of United States history or culture.*

Properties: State which category the property falls under by copying the appropriate bolded text below into the narrative:

Designated as a National Historic Landmark or located within and contributing to a historic district that is designated as a National Historic Landmark District.

and/or

Listed in the National Register of Historic Places for national significance or located within and contributing to a historic district that is listed in the National Register for its national significance.

Please note that properties can be listed in the National Register for significance at the local, state, or national level; most properties are not listed for national significance. The level of significance can be found in Section 3 – State/Federal Agency Certification of the property's approved National Register nomination. Contact your State Historic Preservation Office if you have questions about the level of significance or do not have a copy of the approved nomination. Contact information can be found at <http://www.ncshpo.org/stateinfolist/>.

Now explain the reasons why the property is nationally significant (1 page limit)

Collections:

The narrative must describe and document the national significance of the collection using the definition of “National Significance” listed above.

SEVERITY OF THREAT TO PROPERTY OR COLLECTION

The historic collection or property must be threatened or endangered, and the application must document the urgent preservation and/or conservation need. The application must describe the current condition of the collection or property and explain how further threat is imminent. The nature, extent, and severity of the threat, danger or damage to the collection or historic property must be clearly and convincingly argued in the application narrative and illustrated in the required images.

- Describe the current condition of the historic collection or property and explain how it is threatened or endangered. The source(s), nature, extent, and severity of the threat, danger or damage to the collection or property must be clearly and convincingly argued.

HOW EFFECTIVELY THE PROJECT MITIGATES THE THREAT

Projects must substantially mitigate or eliminate the threat, danger, or damage described must have a clear public benefit (for example, historic places open for visitation or collections available for public viewing or scholarly research). The following points must be addressed:

Collections and Properties must:

- Describe the key project activities and products to be supported by this grant and the non-Federal match.
- Describe how the work will significantly diminish or eliminate the threat, danger, or damage to the historic property or collection.
- Explain any pre-project planning or research, such as Historic Structures Reports or Collection Condition Assessments, on which project decisions are based.
- List the key personnel undertaking the work and briefly describe their qualifications. If personnel have not been selected, briefly describe the qualifications you will require. Consultants must be selected competitively and their qualifications reviewed and approved by Federal agency overseeing the grant.
- Describe how the project will have a clear public benefit.
- Explain how your organization will ensure continued maintenance of the historic property or collection in the context of your organization-wide preservation or conservation activities.

For Historic Properties:

- If this application is for one component of a larger project, has that project begun? If so, what work has been completed? Has the ongoing work been reviewed by the State Historic Preservation Office?
- If the building will have a new use after the grant funded work is complete, what is that use?
- Is any new construction planned in the vicinity of the historic property?

PROJECT FEASIBILITY

The project must be feasible (i.e. able to be completed within the proposed activities, schedule, and budget described in the application), and the application must adequately document the required non-Federal match. The budget must be clear, and all work elements must be eligible, reasonable, and directly relevant to the project. All items in the budget must be justified in the narrative. All work must be undertaken during the grant period; you may not apply for funding for work that has been completed.

- **Provide a timeline for project completion.**
Include each major activity with a schedule for its completion and its cost. Projects must be completed within the grant period, which is generally 2 to 3 years. A timeline may be included within the narrative or, if more space is needed, may be created separately and submitted as a PDF to the Attachment Form (no longer than one page).
- **What are the sources of the non-federal match? (the text box for this question is on the budget form)**
List the **secured** sources and amounts of the required dollar-for-dollar non-Federal match, which can be cash, donated services, or use of equipment. Federal appropriations or other Federal grants, except CDBG grants from the Department of Housing and Urban Development, may not be used for match. All non-Federal matching share must be used during the grant period for the proposed project. **If the match is not secured**, explain how it will be raised. Include information about specific fund-raising projects or other grants that are being sought as matching share. Discuss past successes in fund-raising efforts. Additional budget information will be placed in the Budget Form.

* To save your information, use the "Save Form" button at the top of the form.

DIRECTIONS FOR COMPLETING THE BUDGET FORM

General Notes:

- Total grant administration and indirect costs may not exceed 25% of the total grant budget.
- Dollar signs, commas and decimal points cannot be entered into numeric fields.
- All dollar amounts must be rounded-off to the nearest dollar.
- Fields in the budget sections are self-calculating. The numerical columns prior to “Federal Share” and “Matching Share” columns will calculate and be compared to the total arrived from the calculation of Federal Share + Matching Share. If these two totals do not match a series of 9s will appear in the total column. If they do match, the correct amount will appear in the Total column.

Personnel Costs: Personnel are staff employed by the agency/organization applying for the grant. Personnel costs reimbursed by Federal Share or counted as matching share may only include time spent working directly on the grant project and must be calculated as a percentage of time/salary. Federal employee salaries may not be paid through grant funds or counted as matching share under this grant.

Example: John Smith, Engineer - \$80,000/annual x 20% of time working on project = \$16,000
(hourly wages must be recalculated as salaries)

Fringe Benefits: Fringe Benefit rates charged to grant may not exceed what is currently provided by the organization/agency. If you are charging fringe benefits to this grant, or counting it as matching share, insert the rate amount by the appropriate name. The charged salary amount will have automatically populated from the personnel section.

Consultant Fees: Consultant fees may be entered as a “Total Project Cost” or “No. of Days” x “Daily Rate.” Use only one method for stating consultant fees. If using “Days x Rate” daily rates may not exceed 120% of a federal position, grade GS-15, step 10. In Fiscal Year 2008 that means that consultant fees may not exceed \$685/day.

Consultants paid under a Save America’s Treasures grant must be competitively selected, be approved by the awarding agency prior to signing the contract and may not participate in the development or review of the Request for Proposals.

Travel and Per Diem: All travel must be justified in the project narrative. Per Diem costs may not exceed the federally approved rates. 2008 federal per diem rates can be found at General Services Administration website: www.gsa.gov. The federal allowable mileage rate for 2008 is 50.5 cents per mile.

Supplies: Supplies are non construction/conservation items costing less than \$5,000, with a useful life of less than two years, and necessary to complete the proposed project.

Equipment: Equipment is non construction/conservation items costing \$5,000 or more, with a useful life of more than two years, and necessary to complete the proposed project. If you are renting equipment, include the daily/weekly rental costs and number of days for the rental in the item description and enter to total rental cost in the cost column.

Example: Truck rental - \$600/per week x 2 weeks = 12,000

Construction/Conservation Materials and Labor: All construction/conservation items and labor related to the proposed project. Contingency and miscellaneous line items are ineligible.

Other: This category is for any costs not included in the previous line-items or additional items that could not be included above due to space limitations.

* To save your information, use the “Save Form” button at the top of the form.

DIRECTIONS FOR COMPLETING THE PROJECT IMAGES FORM

TIP: The Images form provides a text box to label each image. Images boxes are sized to a horizontal format – equivalent to a 4x6 inch print image. A vertically formatted image may be either 1) cropped or 2) rotated 90-degrees. We recommend using .jpg graphic format.

Project Images Form: Photographic Documentation

A minimum of four (4), and maximum of twenty (20), color/B&W, digital images of the property or collection must be submitted, inserting them into “image” boxes.

Images must include views of the historic property (showing entire building/property or collection) and views specifically documenting the threat or damage to the property or collection. Images must be labeled and must be of high enough resolution to see detail.

All images should be saved as .jpg files before loading them into the Images form. The Images form will load hold the digital images in standardized boxes. Each image box has a label below for a brief description of the image.

To insert the image, click on the empty box above the label field, once prompted for the folder location – select the folder and image desired – and click open.

Vertical images will load into the horizontal image boxes and will maintain their original aspect ratio (meaning they will not be stretched horizontally). You may insert vertical images horizontally to keep the image a larger size.
