# TSONGAS INDUSTRIAL HISTORY CENTER

## 2011 Summer Day Camp

This publication was produced for the Tsongas Industrial History Center by the UMass Lowell Office of Publications

## Boott Camp

**July 11-15**  
**July 25-29**

Build and test your own canal system, weave cloth on a four-harness loom, explore the historic Boott Mills and the boardinghouse, visit an operating factory weave room, ride a trolley, take a boat trip on the Merrimack River, do crafts, and play games. Find out how the Industrial Revolution completely changed people's lives—and how it affects our work and play today!

## Wonders of Water

**August 1-5**

Water is very important to the city of Lowell. Explore Lowell's awesome waterways aboard a National Park Service boat, learn about water by doing wacky experiments, build a working power canal system, and investigate the creatures that call water home. Discover the amazing connections between science and history in the "Venice of America."

## National Park Adventures

**July 18-22**  
**August 1-5**

Visit five National Parks in Massachusetts to explore the real things and places that are part of America's story. Meet a Revolutionary War soldier at Minute Man National Historical Park, ferry to Boston Harbor Islands, explore "Old Ironsides" in Charlestown Navy Yard at Boston National Historical Park, and navigate Lowell's canal system, weave, and "work the line" at Lowell National Historical Park. Experience your America!

**Lunches: Snacks are provided; campers bring a brown-bag lunch.**

**All campers receive camp T-shirts.**

**Summer Camps run Monday through Friday from 8:30 am to 3:00 pm.**

## Boott Camp: Discovery!

**August 8-12**

For the older camper who wants more of a challenge. Can you drop an egg from fifteen feet without breaking it? See how far you can make a rocket fly.

Explore the plants and animals along the Merrimack River. Go on fun field trips. Weave cloth on our four harness looms. Become an inventor using household "junk." This camp will take you a step beyond the ordinary!

## Summer Camp Staff:

Summer camp programs are designed and staffed by professional educators through University of Massachusetts Lowell and Lowell National Historical Park. We have at least one staff member for each 8 to 10 children. Safety is always our first concern!

## The Tsongas Industrial History Center

The Tsongas Industrial History Center, located in the Boott Cotton Mills, 115 John Street, Lowell, Massachusetts, is a collaborative project of the University of Massachusetts Lowell Graduate School of Education and the National Park Service at Lowell National Historical Park. The Center encourages the teaching of industrial history in a hands-on way through on and off-site educational programs to over 50,000 students annually.

The National Park Service preserves, protects, and interprets America's heritage. Lowell National Historical Park tells the story of America's first planned industrial city and the industrial revolution. The park includes mill complexes, a power canal system, gatehouses, and worker housing. The park is open to visitors throughout the year.

**Space is limited. Sign up early; Pre-registration required.**
