AKRO	Lake Clark National Park and Preserve	Pebble Limited Partnership, Alaska Department of Fish & Game	Determine Potential Effects of Mine Development on Brown Bears	\$23,000	\$189,800	\$212,800	CA	Final results of the study will be incorporated into a comprehensive Environmental Baseline document, which will contribute to the mine permitting process, the NEPA process (including incorporation into an EIS) and mitigate potential harmful effects to the bear population should the mine be developed
AKRO	Alaska Region, RTCA program	Singletrack Advocates, Alaska Trails, Inc. Municipality of Anchorage, Department of Parks & Recreation, Southeast Alaska Guidance Association	Hillside Singletrack Trail Project for Youth Employment in the Outdoors	\$30,000	\$31,850	\$61,850	CA	Approximately 8.5 miles of newly constructed singletrack mountain bike trail on the Anchorage hillside within the Municipality of Anchorage's Far North Bicentennial Park. Up to 3 weeks (in 2008 and possibly in 2009) of outdoor education and on-the-ground experience for disadvantaged youth via Municipality of Anchorage's highly successful Youth Employment in Parks (YEP) program. Improved local and statewide single track trail building capacity by training mini-mechanized equipment operators, youth service organizations and volunteers the skills necessary to build sustainable trails.

AKRO	Glacier Bay National Park and Preserve	Huna Heritage Foundation, Huna City Schools	Preserving Huna Tlingit Cultural resources in Glacier Bay through Educational Outreach				CA	The cultural workshop occurred on May 9, 2008 with over 90 participants. Some 40 high school students from Hoonah City Schools, accompanied by teachers, parents and clan elders ventured through their traditional homeland over a 10 hour period, during which time they heard first hand tellings of cultural history, traditions and sacred stories from the elders. They also learned and participated in Native songs and dances (performances which convey history and tradition), often in the places where the songs were anciently composed. The high point of the event was at the face of the tidewater glacier where the elders conducted a ceremony to feed the ancestral spirits perceived to be present in the ice, and where rarely seen sacred clan regalia was displayed.
