A Fish Story

The tale of two women who lead their communities in a battle for control of the ocean. Angela Sanfilippo of Gloucester, Massachusetts, and Shareen Davis of Chatham, Massachusetts were born into fishing families and married men who continue to make a living from the sea. Fishing defines who they are and has sustained their communities for generations. But their way of life is threatened when a powerful coalition of national environmental groups file a lawsuit that could put hundreds of fishermen out of business. Three hundred years of fishing tradition and the health of the ocean hangs in the balance. Delving into the behind-the-scenes world of politicians, environmentalists, journalists, and fishermen, *A Fish Story* confronts the hard choices faced when human needs and those of the environment collide.
