

FRIENDS OF GIACOMINI WETLANDS
Point Reyes National Seashore Association
in collaboration with the National Park Service presents
Lecture and Volunteer Workday

Date: April 17, 2010

Time: 10:00 AM - Seminar.

Turning Tides: Hydrologic and Geomorphic Changes in the Giacomini Wetlands
with Rachel Kamman

1:00 PM to 4:00 PM – Volunteer Workday

Location: 4th Street & C Street in Point Reyes Station

Details:

What better way to celebrate the 40th Anniversary of Earth Day and National Park Week than to come hear Rachel Kamman from Kamman Hydrology & Engineering talk about changes in hydrology at Giacomini Wetlands over the past year-and-a-half.

At 1 p.m., come participate in the restoration process by helping to remove non-native, invasive plant species from along the banks of Lagunitas Creek that are potentially impacting some of the plantings installed there as part of restoration of the riparian habitat along this critically important creek. Please bring appropriate footwear (rubber boots or hiking boots), gloves, and any gardening equipment such as pruning shears or other weed removal equipment is greatly appreciated!

For more information contact: Amelia Ryan, 415-464-5227
