

A Message from the Superintendent

Dear Friends of Point Reyes,

This past year marked another successful year preserving this coastal treasure and providing an exceptional experience to park visitors.

Projects ranging from finalizing repair to the only intact Lifeboat Station marine railway system on the Pacific coast, to continued efforts to protect the northern spotted owl and numerous species of threatened and endangered plants and animals continued as one of the Park's trademarks.

As you read on, many of the past year's highlights are illustrated in this document. The park served over 2 million visitors this year and continues to be one of the top thirty most visited parks in the nation. You'll discover the significant strides park staff has made in resource protection, science, visitor services, and facility maintenance. The park staff are some of the most dedicated public servants in the national park system.

We hope you will continue to discover the wonders of this magnificent piece of California. Join us in working to save this coastal sanctuary.

Sincerely,

Don L. Neubacher
Superintendent
