2:00 PM *People, Places, & the Past:*
Discover Hospital Rock
7:00 PM *A Walk in Paradise*
7:00 PM Potwisha Evening Program:
Naked Eye Astronomy

Program Descriptions

Patio Talks:

Wild About Bears!

Intelligent and opportunistic, the American black bear may be found at a variety of elevations throughout Sequoia and Kings Canyon National Parks. Meet near the flagpole at the Foothills Visitor Center to learn more about the bears that make their home throughout the parks. 20 minutes.

Discover the Blue Oak Woodlands

From the deep greens of spring to the golden hues of summer the flora of the blue oak woodlands have adapted in unique ways to the boom and bust of rainfall. Meet in the native plant garden in front of the Foothills Visitor Center to learn more about this interesting ecosystem. 20 minutes.

Hospital Rock: *People, Places, and the Past: Discover Hospital Rock*

Step back in time and learn more about the people who called this area home. Meet near the bear box in the Hospital Rock Picnic Area for this 30 minute walk.

Twilight Walk: *A Walk in Paradise*

Walk at twilight under a canopy of oak woodlands broken by ribbons of riparian forest and hear how the power, strength, and history of the Kaweah River has shaped the landscape and influenced humans throughout time. Meet at the Paradise Creek Trailhead in Buckeye Flat Campground across from site # 28. 1 hour.

Campfire Talk: *Impact Begins with "I"*

Let your senses guide your Foothills experience while learning more about the intricate relationship between the plants and animals that call the oak woodlands home and our influence on their lives. Meet at the Potwisha Campground Amphitheater.

Naked Eye Astronomy

Humans have relied on the night sky for navigation, beauty, entertainment and a sense of home. Explore what our ancestors saw in the stars. Enjoy their sagas and realize your own connection to the sky as a brilliant tapestry. Bring a flash light. 1 hour.
