Erie Railroad, Business Car #3. C0003, 81563

Business Car, #3. Class: PV. Builder: Pullman Car and Manufacturing Corp., 1923. Pullman Lot 4668, Plan 3399. Order placed by Nickel Plate Railroad as NKP business car #27. Renumbered in 1929, it became #2. This same year the car went to the Erie Railroad as Erie #3. The car has two staterooms, two bedrooms and crew quarters and a galley, dining room, and observation end. Stationed in Jersey City, it was assigned to the assistant vice-president and general manager of the Eastern District. With consolidation of passenger operations with the DL&W, the car moved to Hoboken in 1956. Heavy weight, 6-wheel trucks. On exhibit in History Museum.
