

Lt. Sturges,

Nov. 29th, 1862
Saturday

Cold and rainy again and rainy. Cleared up at noon. The wagons went into town today to get harness. St. Suphes went also. He returned in afternoon saying and said the box I was expecting had not come. The wagons however brought it in the evening. everything was all right with the exception of some fruit that had spoiled. Exercised my new horse in the forenoon. Old Mr. Knapp of Penfield Swain county ate supper with us. He is here visiting some of his acquaintances in the battery.

NOV. 30th 1862 SUNDAY

Day cold again. St. Suphen and I were going into town he to the hospital. The rain which began about nine o'clock prevented us. Rained by fits and starts all day and all night poured. Read in my bible in the afternoon and evening.

DEC. 20th 1862

Got up about 5oc. Orders had been given during the night to the division to prepare one day's rations and to be ready to move at six. The wagons of the div. had also been ordered to accompany the troops for forage. They foraged on the road before the troops got out. as soon as the latter started the wagons came double quicking into camp. and went over to the Lebanon pike, after going about a mile on this took a branch leading to a ford over Stones river the 19th and 22nd brigades crossed here under cover of the 10th which remained at the ford. the 19th brigade continued straight forward at the ford. the 22nd turned to the left and after marching about three miles again struck the Lebanon pike. a miles march on this bearing opposite to the Hermitage??? when it remained about half an hour. It marched a half a mile farther and again halted.

Having waited half an hour the column reversed went directly in over the Stones river ford on the Lebanon road. WThe ford was in very bad order and was crossed after dark. at this time we heard firing of artillery to our left, a dozen rapid shots, came across swollen ford like wise bad ----Crossed from the Lebanon pike through the fields the same route we took when coming before from S's river to our present camp. got into camp about ten oclock. the day was cold and sunny--I suppose the move we made was a reconnaissance in force.

A turnip field near where we stopped sufficed _____ successive and persistent changes for Artillery & Infantry---About three o'clock we turned homeward preceeded by a train a mile long loaded with forage---we got into camp about 9oc. the day had been bright and pleasant warm enough at noon, I found to lie down in my ordinary clothing and tak a nap (We marched 27 miles)

DEC. 28th 1862

Laid in bed until after day light. after breakfast went into town staid with Sypher until after supper, came out with the _____ Dav. Capt. Wickersham.

DECEMBER ²⁹~~29~~th 1862

Was awakened about 5o.c. by St. Baldwin who said he had received orders to have three days rations on hand in the mens haversacks and to have his command in readiness to move at daylight. Accofdingly baggage was packed, blankets and tarpaulins folded and strapped on the ammunition chests. The horses were harnessed and hitched in and at the time appointed we awaited orders to move-- The orders did not com---It began to rain and continued by fits and starts

through forenoon--At noon an order was given to attend inspection of the Art. of the division by C.B. Parsons Lt. 4th Art., _____ of Col. 4th Div. At about three oclock we pulled out. After the Lt. had inspected the batteries in the usual ord4r, he had each one drill a few minutes. Returned to camp about 5oc. After supper handed in charges against Capt. William E. Stanton. Made letter to ex agent at Louisville Ky. concerning my box.

DECEMBER 25th 1862

Went to Plamers HdQrs to date the _____ a paper of last night. Had a mounted drill about 9 oc. by the captain . In afternoon read paper & ladies. In evening wrote letter home, and talked to Thompson

DECEMBER 26th 1862

Was awakened about 5oc. by Lt. B. telling me that he had received orders to prepare three days rations and be ready to move at 6/2 also to carry two day's rations inthe wagons. About an hour after the time appointed we set off taking the road to Murfreesboro our brigade in advance. After getting throught own pickets we halted and let the cavalry pass us. The 9th Pa. and 3 _____ some of whom we knew were amoung them. We then advanced about a mile where skirmishing began to be heard ahead. We halted until it was over. Advancing again we passed some rebel prisoners and some of our wounded. Again we heard skirmishing both with infantry, cavalry and artillery, one section accompanying the cavalry. We were now between to thick groves of cedar and pretty soon bump against one of the _____ went a solid shot shattering it. Gen. Crittenden was close by the battery. Gen. _____ sent for a section of rifled pieces. Lt. B. Took up the center section. Gen. Palmer came up to me and told me to go over to the left and look for a position for a battery. No position could be found except by first driving the enemy's skirmishers away. In the meanwhile the battery had advanced. I took position on the left of the road and came into position to rake a ridge to the left _____ from which the enemies skirmishers had fired when I was looking for position. Fired two shells at a

barn where some rebels had been seen. Brought my rifled piece into the road and fired at a section of the enemy just coming into the road to take up position. The shell went over their heads _____ beyond them a shot distance and scared them back. Just as No 1 (a man by the John Blan _____ was ramming the cartridge home it caught fire, blowing the rammer through his hands throwing him on the ground with great violence--I supposed he was killed, and called on the others to carry him off. However, only his thumb and two fingers were gone, and his same face and greasts were bruised and burned. By this time the firing had ceased. _____ having _____ some distance The cavalry and infantry deployed and we took the road and all advanced. Having gone about a half a mile the enemy again opened on us. I took position in a field to the right and the other two sections to the left. The infantry commenced fighting. quite briskly on our right and left in the woods. night coming and stopped the action, we went into camp in a field which we had once before occupied. soming from M. Co. At summer about _____ of mile from Lavergne. During the whole action things solid shot struck all around us coming within a few feet of some of my men. It rained quite hard in the forenoon. commenced again about 9 p.m. wetting our bed some although we had rubbers on top---

DECEMBER 27th 1862

Arose before daylight put on my boots coat and rubbers and ate some crackers and pork and drank some coffee. The rain let up about daylight. Skirmishing was kept up in front with occasional firing of Artillery until about noon where quite a little engagement took place. Our battery prepared for action in a field on the left of the road some what advanced from the position we had held last night. The rebs however gave way and we came out in the road and ~~advance~~ advanced a mile brought us to Lavernge a small village entirely deserted. Most of the houses had been burned in previous engagements and the remainder were nearly all riddled with shot. Dead horses were quite plenty here. We advanced slowly about 5 miles waiting every half hour or so for our troops in front to clear the

the way of Rebels. It rained all the time we were marching. Our brigade was second in the division, the division 2d in the left wing today. We went into camp near the 19th milestone from Nash'le in some woods on the right of the road. It ceased raining when we halted and there was a magnificent rainbow. We pitched a tent and slept pretty comfortable

DECEMBER 28th 1862

Got up and hitched in before daylight. Did not _____ Gen. Rosecrans made his appearance in camp. Skirmishing was kept up all day across a creek that ran between the enemy and us. The day was pleasant. Bot a paper and read it. At night again went to bed in tent.

DECEMBER 29th 1862

Today arose early and prepared to march. Our progress was slow as our advance had to clear the road occasionally of the enemy's rear guard, every once in a while the latter would send a round shot spinning along the road. At night we encamped in an open field two and a half miles from Murfreesboro. The other troops encamped on either side along the road and int he heavy cedar groves all around us. Commenced to sleep in the open air _____ it having begun to rain put up a tent and slept comfortably.

DEC. 30th 1862

Arose daylight we took the battery through a grove of cedars on and ~~the~~ along a road and came into battery--to the right. The ground on which we posted the guns was very rocky and covered with cedars our skirmishing were advanced a few hundred yards in front of us and kept up a brisk fire fo our with those of the enemy. A ball from the latter would at times whistle by us--our artillery on our left about a gn of a mile opened on the enemy in front about nine o.c. and were replied to artillery opened on our right and kept up all day. Our brigade was on an angle formed by the puncture of our right and left lines.

Dec 31st 62

In morning first went to the position
which we had yesterday morning
Soon changed to the spot
whence we had fired last
evening. Heard heavy fighting
on our right. Opened our guns
to shell the woods in front of
us. We were on the edge of a
cedar grove the trees of which
would once in a while be
shattered by the enemy's artillery.
They seemed to be driving us
on the right. I was ordered
by Lt Wright of Crafts

Hot fighting going on there.
Unlimbered and ran my pieces
down almost to the line of
infantry by hand. The enemy
on a ridge under cover of
cornfield, (chimneys?) + bushes
gave them for about half or
three quarters of an hour - shrapnel
and Schenkl shell. By that time
the action was very hot

and I advanced my pieces
a few rods and charged
shrapnel per counter. By
this time also their batteries
had answered and rattled their
projectiles of all kinds through
the cedars around us. Sam
Eaul my rifled pieces gunner
put his shells right into
their battery. He could &
could not see the effect
of for the smoke and
cover. Our right seemed
to be being driven. We saw

prominently bearing the stairs
and bays. I directed my
fire at the latter and they
went down. The ammunition
the gun will load was
the rear. My smooth bore I
had previously ordered into a
new position in order to get
them out of a shower of
canister. All this time
the right of our line

had been driven and we were in a
sort of house shoe & and as our
reserves had gone to keep the
right we had to retire before
the largely superior forces of
the rebels. I found my smooth
bore with but one man by it.

The rest however were near. I
rallied them and helped them
to limber up and sent them out.

A careless driver (a new man)
ran the pole up against a tree
and broke it. We (rare?) the piece
back by hand & started it again.

I followed up on foot. Early in the
~~battle~~ engagement I gave my horse
to a spy whom I knew with
Negley, who was sitting by a tree
holding another horse. During the heat
of the action he was lost. I
lingered some to look back. Our
infantry were beginning to rally
and at moved from the woods in
good order. Old Rosey was here on
the ground & I heard him say
something to encourage the men
and add "we're meeting them." I
saw him several times afterward

on the field giving directions and encouragement. Our line fell back in the centre about a half a mile.

Sept. 29th, 1862

Saturday

Goddard ~~saw~~ again and
rainy. Cleaned up at noon.
He was sent into town today
to get horses. Steffens went
also. He returned in afternoon
sayng 'and said his box had
arrived' had not come. The wages
however brought it in the evening
every thing was all right with him
except loss of compass and the hand
spool. Received our new horse
in the forenoon. Mr. Knapp
of Springfield came with us.
He is here visiting some of his
acquaintances in the battery.

Sunday

A very cold again. Lt. Steffens
was going into town. He b-
rought his hospital. The rain which
had come about nine o'clock pre-
vented us. Roasted his legs
& started all day and did not
return. Read in my little
library in the afternoon and evening.

it came out to camp.

Dec. 20th 1862

Not up about 5 o'clock. Orders
had been given during the night to
the division to prepare one day's
rations and to be ready to march at
six. The wagons of the div. had
also been ordered to be ready to accom-
pany the "comps" train. Many
of the men were cold
and others' commissed their
horses after breakfast. Was
laid up by arrival of
feud. Supper.

The work on house went on
well out on the third morn-

and went over to the Marion
ford, after going about a mile
on this bushy branch until
we came to a ford over Stones river.
The 19th we crossed here under cover
of the 10th which remained
at the ford. The 19th I had
contained about 100 men and at
the ford. The 20th I turned to
the left and after marching
about three miles a指南針
tree Sabauin pike. A miles
March on this branch to the
opposite to the river. We followed
up the stream about
half an hour. I reached
a half a mile from the river and
crossed pike. Having a ride
up the river the 21st we
crossed went directly up over
the river.

The 22nd we crossed river
and went over to the Sabauin road. The
road was in very bad order and
was crossed after dark. At this
time we heard firing of artillery
to our left; a dozen or so shots,
came across gunnery field. The
way bad. Crossed from the Sab-
auin pike through the fields, the
sun rose before noon. It was
bright sunny & cold
about 60° F. The day was
cold still clear and sunny
I suppose the more we made
was a reconnaissance in
force. December 21st 1862
We got to Resville. A small
place could be had for the horses which
had had but one feed yesterday morning.
Having marched from Resville
6 miles.

December 2nd 1862
Left up at 5 a.m. which was about 5 a.m., got ready to go for a stage. Started about half past 6 a.m. Marched to Gafferville, on on the Hillside pike. Rode down blanket st. to Broadview to the left up toward to Cheyenne limb of the right up Cheyenne to Cheyenne bridge to the left up column to the Hillside pike. Passed the Post Office, St. Cloud Hotel, Chattanooga depot and pittitur train. The latter built up 1866 is a substantial building. Painted copper roof, red door, glass windows from front door what looked like a educational institut with an observatory. Then road was a good pike, and after

in first town or prairie saw brooks, a little snow on the surface. We haltered in a valley 9 $\frac{1}{2}$ miles from Cheyenne we found an abundance of forage. We parked the wagons on both sides of a stream and set our horses, the second had air fifty from hours. A man by name when we stopped suffered from scrofulous and pleuritic changes. His clothes were trumpet turned inward. He had an abominable condition in a saddle a riding horse loaded with forage. The soil cold enough about 8 a.m. The day had been bright and pleasant warm enough to undress to the lower in my ordinary clothing and later he made the necktie a

foot - 27 minutes.

December 23rd 1862
Spent in bed until after day-
light - often the first - but
into town, staid with Captain
Montgomery - supper, came out
with the "Confederate" - saw
Capt. McRae, Sherman -

December 24th 1862

Was awakened about 5 A.M. by Lt.
Baldwin who said he had received
orders - have three days notice for
parade in the main square & to
have his command in condition
to move at daylight - Accordingly
baggage was packed, blankets put
in traps, horses loaded and shaped in
the main square early. The horses
were harnessed & fitted in and
at the time appointed for march
orders to move. The orders did
not come. It began to rain and
continued but fitfully through the

forenoon - At noon an order was
given to attend inspection of the Art.
of the division by Col. Parsons of the
1st. Brigade of Art. His men
abrd - three colors were pulled out.
After the Col. had inspected the
fathers in the usual order. He had
each one drill a few minutes.
Retired to camp about 3 P.M.

Wrote to General H. W. M. to tell him
about the inspection of the Artillery. Had a
magnificent drill about 9 A.M. by Major
Collins. Horses were read paper & harnessed
during march letter home, and
talked to him some -

Dec. 26. 62

Was awakened about 3 A.M. by

Dr. B. telling me that it had rained
order to stop, and the day was overcast
and too cloudy to move at 6^{1/2}
decided to camp two days so long in
the wagons. About one hour after
the time appointed we set off taking
the roads they passed over
preceded in advance. After getting
through were soon picked up which
had and at the distance found Mr. S. G.
Mc Gee Pa, and S. H. Somers
of whom we knew exceedingly
well. We then advanced a short
while when John mustangs began
to be heard ahead. We halted
until it was over. Meanwhile
as soon as passed some rebels
proceeded and some of our
comrades had been captured
and slain we feared some rebels
had advanced. Mr. S. H. Somers
on the left of the road and
came into position to take
the ridge to the left. On his

ter. Mr. Combs - went for a
recoil of rifled pieces. S. H. S.
took up the cedar rifle.
Mr. Phenix came up to me
and told me to get to the
left and look for a position for
a battery, his position could be
found, except by first driving
the enemy's skirmishers away.
So we moved while Mr. S. H.
had advanced. His position
on the left of the road and

of the trees had been buried in previous
engagements and the remainder were
nearly all riddled with shot. Dead
honduras pine plenty here. We advo-
ced slowly about 3 miles waiting
very half hour or so for one bullet in
front - to clear the way of rebels. It
rained all the time we were marching. Our
brigade was scattered in the division, today.
The division 2d in the camp today. We
met - and camp near the 19th mile stone
from Frank's welcome words on the right
of the road. It ceased raining when we
halted and there was a very frequent rain
now. The rebels attacked and shot - finally
conquered. - Dec 29, 1862

We went back in by daylight. Did not see
any. No one hit in by day light. Did not see
any. No one made his appearance in camp.
I think nothing worth of all dangerous work
done. The rain stopped the evening. No day was
planned. But a paper road ready. At
mid - again went to bed in tent.

Dec 29th 1862
Today was early and purchased 50
march. Our progress was slow
because we were advance had to clear the
road occasionally of the many junc
plants. Every one in a while we were
would send a round shot - burning
along the road. At night - we encamp
ed in an open field 25 rods south of
from Blountboro. The infantry were
troops encamped on either side
along the road and in the rear section
provid all around us. The Cherokees
and 15 others in the open air and it having
begun to rain put up a tent and slept over
probably. See. 80th - 1862
After - daylight, we took the battalions
in pairs of cedars on and along
a road and came into Valley to the
right. The ground on which we passed the
pines was very rocky and covered with
cedars. On skimming were followed

Dec. 3rd 1862 6 P.M. Met Dr. Moore when we had just left morning.
Drove chanced to McShel - where we had been
and found Edie - Mrs. McShel - who had been
out over night. Spared our pains to tell
her all the facts in front of us. She was
in the case of a cedar grove into which
her husband was laid once in a while
selected by her nursing attendants.
May seemed to be advancing so far that
she was made of bit blithely
of course she was laid out section after
the last - McShel's stepson which
we were visiting. Found her life

and now my place down almost
to the bone. By accident I found
the family were about 30 yards
of cornfields, champion's bushes
have been torn almost half on the
ground. In front of a house
and church stell. At that time
the action was very hot - and the
rebel held his pieces a few rods
and advanced with pistol or carbine
and rifle time after time rattled had
observed and rattled McShel's
old hands though the Cedars
around us. John and poor McShel
grinned and this held pistol into
the latter. The gunner could
not see the pistol, if you can't
and gunner believed. Then suddenly
seemed to be being drawn the same
the enemy being seen and he called
columns of riflemen provided from

up the stairs & bags. I directed
myself the latter and they

I followed up on foot. Early in the morn-
ing - I saw him - he was
up on a tree with his gun, in the way
held by a tree holding another - however
he held up his head of his action he was

Spent until the evening with Mr. and Mrs. C. W. Ladd
when I was received as a son - then
spent the night with them - we had a good time
and I enjoyed myself very much. The next day
I went to see Mr. Ladd's father - he is a
very old man - but still retains his mind
and is a very interesting person. He has
lived a long time in New Haven - and
is a man of great knowledge and experience.
He told me many stories of old New Haven

He mentioned in January how about upon
the admission of black and white men
of all nations had been and were now
more numerous than ever before. This had been
done in consequence of an order given to the
President by the Senate and House of Representatives on
the 2d of March 1863. On the same day the
President had signed the bill into law. He had also
signed an order to the Secretary of State to inform the
Foreign Ministers of the United States that they were
now free men and not slaves. He had also
signed an order to the Secretary of War to call up the
State troops and the regular army to put down the
rebel states and to free the slaves. He had also
signed an order to the Secretary of the Treasury to issue
notes for the sum of one dollar each and to pay them

Rose early in the morning and found the water was breaking gradually out of the bed. It had covered hard all night in flood - so as to look for saddle. Did not find any. An afternoon bogged high. The ground on which we were encamped was very flat - was given to small lakes & shall pools. The picket rope and pack had got mangled entangled. In the evening it changed to frost. The horses kept frost.

Jan 16th 1863

The morning was cold. The steel had changed back again. The snow which laid on the ground about an inch thick. I continued on my trail of the day and read a fiction called "The Unionist" by Dr. A. L.
