Fall 2009 Program Descriptions

First Flight Tour (30 min) (B)

Step back in history during this short walk to the actual site of the Wrights' first powered flight. Learn about the first flight and the events of that historic December day.

Flight Room Talk (30 min) (A)

Learn about the Wrights and how they developed the first successful airplane. See a demonstration of their control system on a reproduction of the 1903 Flyer.

Fun with Flight (30 min – 45 min) (D)

Fun activities designed for the kids. Experience the fun of building a gliding machine. Design and construct a paper airplane and test the winds of the Outer Banks, just like the Wrights. Explore why and how things fly and the principles that enable the Wright brothers to get off the ground. Or see a demonstration of kite building and join in the fun of flying a homemade kite (or bring your own). Fun activities for the kids

Flight Ranger program - by completing a booklet and attending 2 programs, Kids ages 5-13 can become a Junior Flight Ranger – just ask for a booklet at the Visitor Center.
