NOTE: The following dates, locations and proposed activities are based upon the 2017 Presidential Inaugural, as well as earlier Inaugurals, and as detailed in the NPS Inaugural regulations and now codified at 36 CFR 7.96. The Capitol Reflecting Pool area east of Third Street, however, is not part of this application since it is no longer Federal parkland but under the jurisdiction of the United States Capital. The 2021 Inauguration, like past Inaugurations, is a complex and extensive undertaking and will require consultations with the 2021 Presidential Inaugural Committee (PIC), which will not be formed until after the Presidential election. As such, certain aspects of this application may be subject to change, in coordination with the PIC, Architect of the Capital, Joint Congressional Committee on Inaugural Ceremonies, and the Joint Task Force Headquarters (JTFHQ). Areas determined not reasonably necessary for PIC activities, and consistent with public safety, will be open and available to the public.

Section I: Contact Information:

The National Park Service, on behalf of the Presidential Inaugural Committee, pursuant to the Inaugural Ceremonies Act, 36 USC 501 – 511

Section III: Logistics: Locations/Purpose of Activity/Plan for Proposed Activity:

Location: Designated portions of the National Mall between 14th – 3rd Streets

Purpose of Activity: In connection with the Presidential Inaugural Ceremonies – set up will begin on designated areas of the National Mall between 14th – 3rd Streets on January 6, 2021, with take down then occurring through January 30, 2021. Based on past experience, this time period is determined to be reasonably necessary for the set up and staging of the Inaugural ceremony, parade and related activities, the events themselves on Inauguration Day and then tear down.

Plan for Proposed Activity: Consistent with NPS regulations at 36 CFR 7.96(g)(4)(iii)(C), this application seeks, in connection with the Presidential Inaugural Ceremonies, the area of the National Mall between 14th – 4th Streets, for the exclusive use of the Joint Task Force Headquarters (JTFHQ) on Inauguration Day for the assembly, staging, security and weather protection of the pre-Inaugural parade components and floats on Inauguration Day between 14th – 7th Streets. It also includes the placement of Jumbotrons and sound towers by the Architect of the Capital or the Joint Congressional Committee on Inaugural Ceremonies so that the Inaugural Ceremony may be observed by the Joint Congressional Committee's ticketed standing room ticket holders between 4th – 3rd Streets. Further, a 150-foot by 200-foot area on the National Mall just east of 7th Street, will be for the exclusive use of the Presidential Inaugural Committee for television and radio media broadcasts on Inauguration Day.

In order to facilitate the ability of the general public and television viewing audience to view the Inaugural Swearing In Ceremony and Inaugural Parade, the Presidential Inaugural Committee may also use portions of its designated area that is reasonably necessary for the set up and take down of media, swearing in and parade support structures, media trucks, communication trailers, jumbo trons, sound towers, tents, lift trucks, forklifts, generators, cranes, portable toilets, dumpsters, trailers, first aid/lost and found structures, ambulances and protective flooring. For the National Mall, there will be a substantial set up of tents, trailers, light towers, fencing, portable restrooms, tables and chairs. Take down and dismantling will occur as soon as possible after the events have concluded in an effort to minimize the disruption and adverse effects to park areas and park users.

Equipment to be Used:

Based on past experience, the National Park Service anticipates that there will be on designated portions of the National Mall between 14th – 3rd Streets, the following equipment and items to be used:

Numerous instructional/directional signs/banners

Approximately four (4) tents for the Joint Task Force Headquarters (JTFHQ) staging of the pre-parade elements ranging in size up to 60'x100' and placed on the center turf panels of the National Mall.

Approximately 20 First Aid tents (20'x20'); 10 Support tents (20'x20'); 10 Information tents (10'x10')

Approximately 8 storage containers/pods/trailers

Approximately 10 light towers

Approximately 6 Jumbotrons

A comprehensive sound system with approximately 14 delay/sound towers

Approximately 1,666 portable restrooms (83 of which will be ADA units)

Installation of NPS approved turf protection decking system to protect the park's resource along the National Mall

Approximately 30 generators, ranging in power size from 20kw to 56kw. However, this may change depending upon the amount of equipment to be used and the associated power needs

Approximately 20 trailers (10'x44') used throughout this area

Approximately 20 tables and 40 chairs

Combination of bike rack and traditional fencing will be used to help ensure public safety and security as well and delineate various sections for ticket holders, general public and media areas.

In and around the media's area on the National Mall just east of 7th Street, there will be one (1) media support village, which will consist of tents, trailers, monitors, production studio and restrooms

Estimated Maximum Number of Participants:

For the construction set up and take down phases, the National Park Service estimates that there will be approximately 500 people, who would be involved in construction set up and take down within this area. This number may change as construction moves closer to completion.

To monitor the construction set up and take down phases, the National Park Service anticipates that there will be at least 10 NPS staff who would be monitoring the set up, and the tear down.

On the day of the Presidential Inauguration on January 20 2021, the National Park Service anticipates that there will be approximately 500 support and media personnel at their designated sites and approximately 500,000 people on the National Mall between 14th – 4th Streets. The National Park Service anticipates that there will be at least 10 NPS staff who will monitor the day's events. There will also be hundreds of USPP officers on site to help ensure public safety and security.

Proposed Street Closures:

The National Park Service anticipates that it will be necessary to limit the amount of traffic along certain portions of both Madison and Jefferson Drives during the set up and tear down in this area. These closures will be temporary. Any area closed or impacted will be delineated by both fencing and signage. On Inauguration Day, January 20, 2021, the National Park Service anticipates that both Madison and Jefferson Drives will need to be closed for the staging of parade elements.

Section 5: Marshals and/or Volunteers:

Marshals and/or Volunteers: The National Park Service anticipates that there will be 10 park rangers to monitor construction activities within this area. On Inauguration Day, the National Park Service anticipates that there will be on site at least 10 NPS staff.

Functions of Marshals: Marshals will be on site to monitor construction to ensure compliance with NPS regulations and permit requirements as well as to ensure that the park resources are protected.

Supervision of Marshals: We anticipate that there will be a designated National Park Service Supervisor on site which will be the Deputy NPS Inaugural Coordinator.

Identification of Marshals: The park ranger marshals will be identified by both NPS uniforms and credentials.

Communication Equipment: The National Park Service anticipates that the park ranger marshals will utilize their work issued cell phone and/or work issued radio.
