Mike Koshmrl  
Jackson Hole News & Guide  
P.O. Box 7445  
1225 Maple Way  
Jackson, WY 83001

Dear Mr. Koshmrl:

Reference: Investigative Services Branch (ISB)

Subject: Response to Freedom of Information Act (FOIA) Request NPS-2016-00988

This letter is our final response to your Freedom of Information Act (FOIA) request dated September 12, 2016, in which you requested records relating to 1.) the death of Gary Falk and 2.) a search and rescue operation that took place between August 4 and August 6, 2016. On November 7, 2016, Grand Teton National Park issued a response for the portion of your request for records relating to Mr. Falk. We are providing a copy of that response for your convenience.

Upon further review, the remaining portion of your request for records relating to the August 4-6 search and rescue is granted in part and denied in part. We are providing five files, totaling approximately 27 pages of responsive material. Portions of approximately 6 pages, however, are being withheld under Exemptions 3, 6, 7(C), 7(E), and 7(F) of the FOIA.

In accordance with 18 U.S.C. §5038(c) information relating to juveniles shall not be disclosed directly or indirectly to anyone other than the judge, counsel for the juvenile and the Government, or others entitled under this section to receive juvenile records. We are therefore withholding the redacted information under Exemption 3. Exemption 6 allows us to withhold information that if released would constitute a clearly unwarranted invasion of personal privacy. Exemption 7(C) allows us to withhold information from law enforcement files that could reasonably be expected to constitute an unwarranted invasion of personal privacy.

The information being withheld consists of personally identifiable information (PII) including name and pictures for an individual other than yourself. We have determined that the individuals to whom this information pertains have a substantial privacy interest in withholding it. You have not provided information that explains a relevant public interest under the FOIA in the disclosure of this personal information. Additionally, we have determined that the disclosure of this information would shed little or no light on the performance of the agency's statutory duties. Because the harm to personal privacy is greater than whatever public interest might be served by disclosure, we have determined that the release

of the information that is being withheld would constitute a clearly unwarranted invasion of the privacy of these individuals and we are therefore withholding it under Exemptions 6 and 7(C).

The records you have requested are maintained within the Incident Management and Reporting System (IMARS), which is a Privacy Act System of Records (DOI-10). Therefore, although some or all of the information being withheld may be known to you through other means, we are obligated under the Privacy Act and FOIA to withhold that information.

Additionally information relating to radio frequencies is being withheld under Exemptions 7(E) and 7(F) of the FOIA. Exemption 7(E) allows us to withhold information related to law enforcement techniques and procedures, when its release could reasonably be expected to risk circumvention of the law. Exemption 7(E) allows us withhold law enforcement information that if released could endanger the life or physical safety of any individual

If the frequency information were to be released it could cause serious harm to the National Park Service's law enforcement operations. If released to the public, the information could result in denial of service attacks. Additionally, these frequencies are used to coordinate and management helicopter flights during incidents such as search and rescue missions and wildfires, so the release of the requested information could endanger the lives of the individuals involved in those missions.

One additional file, consisting of nine pages of responsive material that originated from the Air Force Rescue Coordination Center have been referred to their office for a separate response. You can contact them at:

Kathryn Woodell  
Base Freedom of Information Act & Privacy Manager  
Civil Liberties, Information Collection & Reporting Manager  
325th Communications Squadron  
Email: 325cs.scok.tyndallfoia@us.af.mil  
Phone: 850-283-8106.

The reference number for the incident in their system is 16-M-0527.

Pursuant to regulation, 43 CFR 2.24(b) the following person is responsible for this denial:

Charis Wilson  
NPS FOIA Officer

Additionally the following attorney was consulted during the preparation of this response:

Jason Waanders, Attorney-Advisor, Office of the Solicitor  
U.S. Department of the Interior, Washington, D.C.

You have the right to appeal this denial of your request. You may file an appeal by writing to:

Freedom of Information Act Appeals Officer  
Office of the Solicitor  
U.S. Department of the Interior  
1849 C Street, NW  
MS-6556-MIB,  
Washington, D.C. 20240

foia.appeals@sol.doi.gov

Your appeal must be received no later than 90 workdays after the date of this final response. The appeal should be marked, both on the envelope and the face of the appeal letter, with the legend "FREEDOM OF INFORMATION APPEAL." Your appeal should be accompanied by a copy of your original request and copies of all correspondence between yourself and the National Park Service related to this request, along with any information you have which leads you to believe the records are available, including where they might be found, if the location is known to you. Please note, appeals received after 5 p.m. EST will be considered to have been received as of the following day.

Also as part of the 2007 OPEN Government Act FOIA amendments, the Office of Government Information Services (OGIS) was created to offer mediation services to resolve disputes between FOIA requesters and Federal agencies as a nonexclusive alternative to litigation. Using OGIS services does not affect your right to pursue litigation.

You may contact OGIS in any of the following ways:

Office of Government Information Services (OGIS)  
National Archives and Records Administration  
Room 2510  
8601 Adelphi Road  
College Park, MD 20740-6001

E-mail: [ogis@nara.gov](mailto:ogis@nara.gov)  
Phone: 301-837-1996  
Fax: 301-837-0348  
Toll-free: 1-877-684-6448

Additionally, because the National Park Service creates and maintains law enforcement records, we are required by the Department of Justice to provide the following information, even though it may or may not apply to your specific request. Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA. See 5 U.S.C. 552(c) (2006 & Supp. IV 2010). This response is limited to those records that are subject to the requirements of the FOIA. This is a standard notification that we are required to give all our requesters and should not be taken as an indication that excluded records do, or do not, exist.

Please do not hesitate to contact me, as the FOIA Liaison and the person processing your request, with any further questions or concerns. I can be reached at the address above or by phone at 303-969-2959. I can also be reached via e-mail at [charis\\_wilson@nps.gov](mailto:charis_wilson@nps.gov).

Sincerely,

Charis Wilson  
NPS FOIA Officer

## **HEALTH AND SAFETY MESSAGE**

***SAFETY starts with YOU***

***We are ALL accountable for SAFE behavior***

INCIDENT: TX SAR	DATE: August 5, 2016	TIME: 0700 – 2000
------------------	----------------------	-------------------

### **MAJOR HAZARDS AND RISKS:**

**Safety Responsibilities & Expectations:** SAFETY is the top priority and everyone is responsible for safety. Identify, correct, or request assistance in mitigating hazards. Observe & discuss changing conditions and COMMUNICATE ANY CONCERNS!! If at any time your safety, that of another employee, or the public is in imminent danger you have the right and responsibility to shut down the operation. Do not use a cell phone when driving a vehicle.

### **MAINTAIN SITUATIONAL AWARENESS!!!**

#### **Wildlife**

- Must maintain high degree of bear awareness
- Bear spray is mandatory, must be at the ready
- Be sure to make noise in dense vegetation
- Be aware of any dead smell, it could be a kill/carcass, use extreme caution notify team leader/ Division Supervisor

#### **Water**

- Must use caution around marshy areas where wildlife could be
- Be sure to make noise
- Stay away from cut banks
- Stay 100ft away from moving water No wadding or entering moving water

**Weather:** Summer conditions could change rapidly: hot temperatures with the possibility of afternoon lightning storms. Seek shelter if there is lightning go to a vehicle or building. Plan another hot sunny day.

- Wear sunscreen
- Drink plenty of water should have 3-4quarts

**Communication:** Insure that a complete communication model is followed. Get and give feedback during conversations. After giving or getting instruction insure the information is repeated back to insure there are no miscommunications. Ensure radio communications are functioning properly

- Confirm Communications plan
- Team members must have operational radios, check batteries
- Keep in constant contact with team, especially considering possible animal threats

**Team Leader:** Review GAR with team members prior to departure. Perform tailgate safety meetings and after action reviews.

**SA: Maintain personal and team situational awareness at all times.**

## **HEALTH AND SAFETY MESSAGE**

***SAFETY starts with YOU***

***We are ALL accountable for SAFE behavior***

INCIDENT: TX SAR	DATE: August 6, 2016	TIME: 0700 – 1900
------------------	----------------------	-------------------

### **MAJOR HAZARDS AND RISKS:**

**Safety Responsibilities & Expectations:** SAFETY is the top priority and everyone is responsible for safety. Identify, correct, or request assistance in mitigating hazards. Observe & discuss changing conditions and COMMUNICATE ANY CONCERNS!! If at any time your safety, that of another employee, or the public is in imminent danger you have the right and responsibility to shut down the operation. Do not use a cell phone when driving a vehicle.

### **MAINTAIN SITUATIONAL AWARENESS!!!**

#### **Wildlife**

- Must maintain high degree of bear, moose, and bison awareness
- Bear spray is mandatory, must be at the ready
- Be sure to make noise in dense vegetation
- Be aware of any dead smell, it could be a kill/carcass, use extreme caution notify team leader/ Division Supervisor

#### **Trails / Roads:**

- Increased use of ATVs today
- Watch out for limbs, downed trees, deadfall
- Wear helmets and other Personal Protective Equipment
- Proceed with Caution

**Weather:** Summer conditions could change rapidly: hot temperatures with the possibility of afternoon lightning storms. Seek shelter if there is lightning, go to a vehicle or building. Plan another hot sunny day. 60% chance of storms.

- Wear sunscreen
- Drink plenty of water should have 3-4quarts
- If you hear thunder, you are in danger of being struck by lightning. Pull back from the field or shelter in place if you feel unsafe or upon direction from the ICP

**Communication:** Insure that a complete communication model is followed. Get and give feedback during conversations. After giving or getting instruction insure the information is repeated back to insure there are no miscommunications. Ensure radio communications are functioning properly

- Confirm Communications plan
- Team members must have operational radios, check batteries
- Keep in constant contact with team, especially considering possible animal threats

**Team Leader:** Review GAR with team members prior to departure. Perform tailgate safety meetings and after action reviews.

**SA: Maintain personal and team situational awareness at all times.**

---

### Report:

On August 4th, 2016 at approximately 1008 hours, Teton Interagency Dispatch received a report that a participant of an NPS associated volunteer group had disappeared from the work area located in the vicinity of Triangle X Ranch. The participant, a 16 year old female identified as (b) (3), (b) (6), (b) (7)(C) (DOB (b) (3), (b) (6), (b) (7)(C)), was reported to have left the group to go to the bathroom around 845 hours. When she did not return to the group, the group conducted a brief search of the area before contacting dispatch. Grand Teton staff initiated a hasty search of the area and pulled in additional staff and resources to continue the search. As of 1535 hours, (b) (3), (b) (6), (b) (7)(C) has not been located.

### Report:

On August 4<sup>th</sup>:

At 1008 Teton Interagency Dispatch Center (TIDC) received a call of a missing (b) (3), (b) (6), (b) (7)(C). The juvenile identified as (b) (3), (b) (6), (b) (7)(C) had gone missing from Groundworks USA, a youth work-group that was doing trails work near Triangle X Ranch in Grand Teton National Park. At 1020 I took the report of the missing person from TIDC and assumed the role of IC for the incident. I unsuccessfully attempted to contact the missing person via phone. I had TIDC have the phone company ping the phone. This was also unsuccessful. At 1033 Ranger Matt Wilber went to talk with the reporting party, confirm the point last seen and begin the investigation for the search. The 1st operational period consisted of ground teams, dog teams, roving containment along roadway corridors and aerial reconnaissance utilizing 38HX. An endangered juvenile alert was issued through WHP, with a BOLO and ATL from TIDC. ICP was set up at Moose HQ in the Teton room. An investigative unit consisting of ISB agents, FBI agents, TCSO detectives and Grand Teton park rangers was formed. Missing person's fliers with a tip hotline were posted in Grand Teton National Park, Yellowstone NP, Teton and Fremont County. Approximately 90 personnel worked the search in the first operational period.

On August 5<sup>th</sup>:

115 personnel including ground searchers, dog teams, civil air patrol and helitack, investigation branch and command staff. Search areas were covered by ground teams, dog teams and from the air. At the end of this operational period it was apparent that search areas were going to be expanded onto National Forest land, because of this unified command was implemented with Dr. AJ Wheeler filling the IC position for Teton County. After command staff had left for the evening LES Chris Flesch fielded a call from (b) (3), (b) (6), (b) (7)(C).

(b) (3), (b) (6), (b) (7)(C) Flesch instructed the Civil Air Patrol to search that area on their morning FLIR flight.

On August 6<sup>th</sup>

At 0630a the Civil Air Patrol spotted a point of interest, at Deadman's Bar. Patrol units from Grand Teton National Park who were still in-service from the night before responded. The patrol units could not locate the subject; it is thought that the reading could have been the heat signature from a rock.

At 0706 an off duty park worker reported (b) (3), (b) (6), (b) (7)(C) 3 miles south of Snake River Overlook. Park Rangers and Teton County Deputies established containment at Moran junction and at Moose junction on Hwy 89. At 0742 Ranger Flesch contacted the subject off of Hwy 89. (b) (3), (b) (6), (b) (7)(C)

(b) (3), (b) (6), (b) (7)(C) She was taken to St. Johns Medical Center for evaluation and then taken into protective custody by TCSO.
