In accordance with the Presidential Inaugural Ceremonies Act and National Park Service regulations, permission is granted for the following:

Person(s) and/or Organization(s): PRESIDENTIAL INAUGURAL COMMITTEE

Date(s): 12/24/12 To: 02/10/13

Time: Starting: 7:00 A.M. Ending: 5:00 P.M.

Location(s): PENNSYLVANIA AVENUE: SOUTH SIDEWALK, WEST END, BETWEEN 14TH AND 15TH STREETS, NORTH SIDEWALK BETWEEN 12TH AND 13TH STREETS, AND NORTH SIDEWALK BETWEEN 10TH AND 11TH STREETS.

Purpose(s) BLEACHER PLACEMENT FOR PARTIAL LOSS OF RESERVED PRIORITY BLEACHER SPACE

Anticipated Number of Participants: Bleacher Seats 972
Viewing public (300,000) ±

Person(s) in Charge: Lindsay Scola, Inaugural Parade Director

Address(es): 330 C Street, SW, Washington, D.C. 20201

Telephone Nos. Day: 202-340-8716

This permit is granted subject to the following conditions and may be amended by the National Park Service to reflect changes to conditions.

This permit authorizes the construction and/or placement of three (3) bleacher areas as a result of PIC’s partial loss of bleacher space between 12th and 13th on Pennsylvania Avenue, south sidewalk in front of the U. S. Coast Guard/U. S Post Office Building and between 10th and 12th on Pennsylvania Avenue, south sidewalk in front of the Old Post Office Building. These partially
lost areas are due to not being suitable for bleacher placement due to obstructions of trees, planters and security barriers.

Authorization is granted to set up bleachers in the following locations:

1. South sidewalk of Pennsylvania Avenue, between 14th and 15th Streets, west end, one (1) bleacher section 96’x7’, four (4) rows for a total of 232 seats
2. North sidewalk of Pennsylvania Avenue, between 12th and 13th Streets, one (1) bleacher section 90’x7’, five (5) rows for a total of 224 seats and one (1) bleacher section 66’x7’, five (5) rows for a total of 100 seats
3. North sidewalk of Pennsylvania Avenue, between 10th and 11th Streets, one (1) bleacher section 120’x9’, three (3) rows for a total of 371 seats

These permitted bleacher areas do not increase the size of PIC’s reserved priority bleacher area placement. Construction will began on Monday, Dec. 24, 2012.

All other aspects of the PIC Public Gathering Permit Application number 12-1749 will be addressed at a future date.

Based on the size and scope of this event PIC will provide the NPS with a cost recovery deposit in the form of a irrevocable letter of credit or cash deposit in an amount to be determined later for all activities held on National Park land associated with the National Day of Service, and Presidential Inauguration activities.

This cost recovery deposit will be used to cover costs of restoration and rehabilitation of NPS resources and any unbudgeted National Park Service operating costs.

The permittee agrees to be fully responsible for the management, performance, use and safety within the permit area involved in this authorization until the work is completed, inspected, and accepted. The permittee hereby agrees to accept responsibility and assume liability for any and all tort claims arising from the actions or omissions of its representatives or employees directly or indirectly connected with the work performed, the maintenance of, or the use of this facility to the greatest extent permitted by law. To the extent that the work is performed by non-Governmental persons or organizations, the permittee shall require such persons or organizations to:

a. Procure public and employee liability insurance from responsible companies with a minimum limitation of $2,000,000 per person for any one claim and an aggregate limit of $5,000,000 for any number of claims arising from any one incident. The United States of America shall be named as an additional insured on all such policies. The permit number will be included on said policy. All such policies shall specify that the insured shall have no right of subrogation against the United States for payments of any premiums or deductibles, thereunder, and such insurance policies shall be obtained by, be for the account of, and be at the insured's sole risk.
b. Pay the United States the full value of any damages to the lands or other property of the United States caused by any omission or activity in connection with this permit.

c. Indemnify, save and hold harmless and defend the United States against all fines, claims, damages, losses, judgments and expenses arising out of, or from any omission or activity in connection with this permit.

This permit is being issued to the PIC with the provision to allow the erection of approved bleachers, prior to PIC fulfilling its obligation of providing the cost recovery bond and certificate of insurance prior to the start of any additional work on parkland associated with this permit.

Permission for placement of the approved bleachers is granted based on the attached layout diagrams for all areas referenced in this permit.

GENERAL CONDITIONS

1. Permittee and all participants authorized therein must comply with all of the conditions of this permit and with all reasonable directions of the National Park Service and United States Park Police personnel.

2. All sidewalks, walkways, and roadways must remain unobstructed during the construction activities to allow for the reasonable use of these areas by pedestrians, vehicles, and other park visitors.

3. Prior to beginning construction or placement of all facilities, PIC's contractors or agents will contact or Ms. Robbin Owen, Deputy NPS Inaugural Coordinator or Leonard Lee, Liaison Officer, NPS Inaugural Coordinator, (202) 691-2346 to coordinate specific logistical requirements. Permittee and its representatives will follow instructions provided by these individuals with regard to accessing park property and will take all precautions to protect park resources.

4. All requests, correspondence and meetings with the National Park Service pertaining to this permit shall be scheduled by the permittee only. All contractors, subcontractors or consultants must channel their requests through the recognized representatives of the permittee, who in turn will contact the National Park Service.

5. The permittee shall insure that all logistical equipment/structures placed on park property adhere to all applicable codes, standards, and regulations including but not limited to BOCA, OSHA, USPHS, and ADA, covering requirements including but not limited to safe construction practices and grounding of bleachers.

6. All activities pursuant to this permit shall be in compliance with the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252; 42 U.S.C. 200d ed seg.); Title V, Section 504
of the Rehabilitation Act of 1973 (87 Stat. 394; 29 U.S.C. 794); the Age Discrimination Act of 1975 (89 Stat. 728; 42 U.S.C. 6101 et seq.); and with all other Federal laws and regulations prohibiting discrimination on grounds of race, color, national origin, handicap, religion, or sex in employment and in providing facilities and services to the public. Nothing in advertising for employees shall be done which will prevent those covered by these laws from qualifying for employment.

7. The permittee shall require all employees and/or contractors to exercise all normal and reasonable safety precautions and to protect park visitors and property. Suitable devices such as barricades, fences, lanterns, etc. necessary for employee and public safety, shall be provided and adequately maintained. Such devices require the concurrence of the NPS Deputy Inaugural Coordinator or designated representative.

8. Throughout the course of this permit, the PIC is responsible for taking all necessary precautions to minimize resource damage throughout the permitted area. In addition, permittee must supervise their contractors and employees during set-up and teardown to assure that there is no damage to park resources.

9. No wires or cables are to be attached to trees or other vegetation or flown aerially. Any wires or cables required in support of permitted activities must be run on the ground, in troughs or yellow jackets, to prevent tripping hazards.

10. All laws, rules and regulations applicable to the area covered by this permit remain in effect.

11. The permittee shall be responsible for the cost and repairs to any structures, facilities, roadways, sidewalks, infrastructures, sod, soils, or landscape vegetation on park land damaged by the work authorized under this permit.

12. The area must be left in substantially the same condition as it was prior to the activities authorized herein, and all litter shall be placed in the trash containers provided.

13. This permit is applicable only for the use of the areas designated above, and during the times designated above. All bleachers, announcer and media stands, and JTFIC trailers, generators and portable toilets, constructed or placed under this permit will be removed prior to February 10, 2013.

14. The National Park Service reserves the right to immediately revoke this permit at any time should it reasonably appear that the activity presents a clear and present danger to the public safety, good order or health, or if any conditions of this permit are violated.

15. A copy of this permit shall be available on site for inspection by National Park Service and United States Park Police personnel.
16. All proposed amendments or additions to this permit and all proposed locations of vehicles, equipment, storage, installations of any kind, areas of activity, work and power plans shall be submitted to the NPS for prior written approval prior to the installation of facilities. These proposals shall be in map or diagram form suitable for on the ground inspection.

17. Permittee will provide an on-site coordinator to be accessible to the National Park Service and the United States Park Police personnel at all times during construction or set-up activities and during dismantling of facilities post-event.

18. All vendors involved in the construction and teardown of the bleachers must have some form of identification.

**SPECIFIC CONDITIONS FOR APPROVED BLEACHERS - PENNSYLVANIA AVENUE NATIONAL HISTORICAL SITE**

1. The PIC is required to meet OSHA guidelines regarding employee/subcontractor work schedules. No employee/subcontractor is to work no more than 10 hours within a 24 hour period. Any work required beyond the 10-hour limitation will need to be requested to the NPS in advance for review and approval by the Superintendent, National Mall and Memorial Parks.

2. All bleachers, announcer and media stands, must be at least three (3) feet back from the curb and have a minimum of six (6) feet of clearance between the back of the structure and the face of the buildings along Pennsylvania Avenue to allow for public access. Bleachers must be at least (5) feet from ADA accessible ramps and must not block pedestrian access along the sidewalk.

3. Bleachers must be erected to allow access to building entrances and/or driveways at all times. No bleachers shall be erected in front of, or on the Navy Memorial.

4. The permittee is responsible for having its contractor secure all bleachers with yellow caution tape and signage while not in use. The permittee and/or its contractor will be required to provide unarmed 24-hour security to monitor all equipment and structures daily. Further, all fire hydrants along the parade route must be enclosed with bike rack to access to the hydrants in case of fire. Permittee is responsible for contacting Lt. Sean Egan, DC Fire and EMS at 202-277-1889.

5. All metal parts, or fiberglass-like structural components, of facilities shall be separated from masonry or ground with not less than one foot square of 3/4" inch unpainted plywood and/or heavy duty interlocking plastic material.

6. The permittee shall be responsible for any damage including stains created by installing the above facilities. Any stains created shall be removed at the expense of the permittee. To avoid or minimize any potential damage, it is recommended that galvanized steel or pre-painted components be used. If on-site painting is required, the sidewalks and plaza areas must be properly protected.
7. Bleachers shall not be erected on/or over plants, planters, trees, tree wells, steps or statues. There bleachers are constructed near trees, bleachers cannot be placed within two (2) feet from the outer metal tree ring.

8. All trash, debris, and litter resulting from activities of this permit shall not be allowed to accumulate and shall be bagged and placed on or next to trash receptacles or removed from the site.

9. Vehicles will not be permitted on the sidewalk along Pennsylvania Avenue. All unloading and loading of equipment must be done from the street.

10. PIC will not be held responsible for the set up, use, and tear down of the DC Mayor's reviewing stand. The Mayor's Office, through the Office of Property Management will be responsible for any unbudgeted National Park Service and United States Park Police costs and any potential damage to park resources.

11. Pursuant to 36 CFR 7.96(g)(5)(xii), 2.31(a)(2),(3) the destruction, defacement, damaging, alteration, or removal of park resources or facilities is prohibited. No item, including signs or banners, may be attached to park trees, plantings, benches, statues, walls, fences, or other park property.

12. **Generator Use & Refueling:** Permittee will use generators for electrical power sources. Generators must be placed on fire retardant, self-absorbent troughs enclosed by bike rack.

   Refueling of the gasoline generators will be permitted pursuant to the following conditions:

   a. Refueling will only be allowed on dates and times agreed upon in advance with the NPS.

   b. The following materials must be placed on the ground during refueling:

      1. Plastic tarp
      2. Absorbent material on top of tarp
      3. Drip pan under fueling nozzle
      4. Spill containment material or absorbent booms or pads must be stored at each generator location
      5. 55-gallon drum labeled hazardous material must be placed along side of each generator. Should spillage occur the absorbent material must be placed in these barrels
      6. Contractor will be responsible for removing the barrels off of park property
      7. Contractor will be responsible for any damage to the park’s resources as a result of the refueling.
8. In case of spill please contact DC Fire and Emergency Medical Services at 911 and National Mall & Memorial Parks' Chief of Maintenance at (202) 359-1551.

The storage of fuel on parkland, in trailers, next to generators and at other NPS locations is strictly prohibited.

United States Secret Service Security-Based Restrictions

1. Insofar as the Inaugural has been designated as a National Special Security Event, the United States Secret Service assumes the role as the lead Federal agency for the design and implementation of the operational security plan. Enclosed is the United States Secret Service letter dated December 3, 2012, which is incorporated herein, which limits a number of items at checkpoints along the Inauguration parade route on January 21, 2013. These items include, among other things, firearms, ammunition, explosives, weapons of any kind, aerosols, supports for signs and placards, packages, coolers, bicycles, balloons, mace/pepper spray, thermal or glass containers, backpacks, bags exceeding a designated size restrictions, laser pointers, animals other than helper/guide dogs, structures which is more fully defined in the letter as well as signs and placards that exceed a designated size restriction. Other information regarding Secret Service's Inaugural security measures such as item restrictions, road closures, metro, security screenings, security screening entry points, air and water security is available at the Secret Service’s website at www.secretservice.gov, which will be updated by them as details become available.

2. Just as in the 2005 and 2009 Inaugurations, we anticipate that there will be a security sweep of all of Pennsylvania Avenue National Historic Park the early morning of January 21, 2013, at which time the area will be closed. In the event that any items are found on the Inaugural parade parkland that is contrary to the Secret Services restrictions dated December 3, 2012, these items will be taken, inventoried, and will be available for 30 days to be retrieved by the owners. Signs and banners without supports as well as literature, books, newspapers, leaflets, magazines, buttons, bumper stickers are all allowed, but only if they are brought in through the Secret Service security screening access points the morning of January 21, 2013 and conform to the Secret Service restrictions.

Special Permit Conditions to PIC, regarding their bleachers along Pennsylvania Avenue between 7th and 15th Streets

1. Pursuant to the NPS final rule, published at 73 Federal Register 67739 (November 17, 2008), if a PIC bleacher seat in Pennsylvania Avenue National Historic Park or Sherman Park has not been claimed by the PIC ticket-holder ten minutes before the Inaugural Parade is scheduled to pass the bleacher’s block, then any member of the public, without regard to viewpoint or content of the message, may at that time occupy the unclaimed seat. The PIC is required to notify such PIC ticket-holders (and include a statement on each PIC ticket) when they need to be in the bleacher to avoid losing their seats. PIC will place Marshals at each PIC
bleachers that are located on Pennsylvania Avenue National Historic Park or Sherman Park, to assist PIC ticket-holders and inform the NPS or the United States Park Police of any unclaimed seats under the 10-minute parade rule. Should the NPS or Park Police determine that PIC is not in compliance, appropriate action will be taken.

**Bleacher Marshals**

1. The Permittee is to have no less than two (2) Bleacher Marshals located at each bleacher stand as soon as possible on January 21, 2013. Prior to January 21, 2013, PIC must provide a color copy of Marshals identification to the National park Service and United States Park Police. Marshals will assist and help maintain order among bleacher ticket holders. Marshals should be aware of their responsibilities and should have received earlier from the Permittee adequate training and instructions as to their duties and responsibilities. To help assist your participants, Marshals should be aware of the authorized permit area, the location of nearby Metro stations, first aid stations, water and toilets. Marshals should be knowledgeable of the NPS permit conditions and be able to communicate with the Permittee, and if necessary with the United States Park Police officers or National Park Service rangers if they think they observe a problem.

While Marshals may NOT act as police, they can work with and help maintain order among your participants, explain to non-participants that a particular area may be under permit, and should be able to immediately alert their supervisor(s), and if necessary United States Park Police officers or National Park Service rangers if they observe a problem. To assist you on-site, there should also be nearby a Park Police or Park Ranger. Park Ranger Marisa Richardson may be contacted any time on January 21 on her cell phone at (202) 528-9610, who will make every reasonable effort to assist you.

**Access to Inaugural Parade Sidewalk Permit Area**

1. Please note that it is widely expected that large numbers of people may seek to be along the parade route to observe the Inaugural Parade. So it is expected that the Inaugural parade checkpoints and the sidewalks on January 21, 2013 will be very crowded as people come to observe the parade and express their views. As such, your designated representatives and Marshals should arrive early to go through the parade checkpoints, which will not be operated by the National Park Service nor the United States Park Police. Once through the checkpoints, they should immediately walk to and stay at their designated permit area.

Unless there is some sort of crowd control or safety issue or it unreasonably interferes with another permitted event, nothing prohibits the simple act of someone walking along any open park sidewalks to get to a permitted park area.

For sidewalks and entrances that are seven feet wide or larger, a six foot minimum clearance at the back of the area must be maintained at all times to allow for two wheelchairs to pass each other. And for sidewalks and entrances of five-six feet wide, a four foot minimum width at the back of the area must be maintained at all times for wheelchair accessibility. If your permit includes such rear sidewalk areas, Permittee must have Marshalls located to help maintain the above sidewalk clearance areas.
While the National Park Service and the United States Park Police will take every reasonable effort to ensure access to your designated permit area, your assistance is necessary. Once at your designated permit areas, the Permittee or Permittee’s representatives and Marshals must identify themselves to the on-site Park Police supervisor or National Park Service ranger, so that they can work together with you in the event that there is a problem at your permit area. In the event there are unauthorized people located in your permit area, please alert the nearest Park Police or Park Ranger supervisor or contact Park Ranger Marisa Richardson on her cell phone (202) 528-9610, and they will make every reasonable effort to assist you.

By:
John Stanwich
Inaugural Coordinator/IC
National Park Service

By:
Robbin M. Owen
Deputy Inaugural Coordinator/DIC
National Park Service
December 3, 2012

Steve Whitesell, Regional Director
National Capital Region, National Park Service
1100 Ohio Drive, S.W.
Washington, D.C. 20242

Dear Mr. Whitesell:

Please be advised that the United States Secret Service (Secret Service) is seeking to exclude the following items at checkpoints along the Inauguration parade route on January 21, 2013:

- Aerosols
- Ammunition
- Animals other than helper/guide dogs
- Backpacks
- Bags and signs exceeding size restrictions
- Bicycles
- Balloons
- Coolers
- Explosives
- Firearms
- Glass or thermal containers
- Laser pointers
- Mace / Pepper spray
- Packages
- Structures
- Supports for signs and placards
- Weapons of any kind
- Any other items determined to be potential safety hazards

With respect to signs and placards, the Secret Service would ask that these items be limited to items made of cardboard, poster board or cloth and have dimensions no greater than three feet in width, twenty feet in length and one-quarter inch in thickness. As noted above, we are asking that supports for signs and placards be prohibited as these items may be used as a means of concealing weapons or as weapons themselves.

Additionally, the prohibition on structures includes props, folding chairs, bicycles, displays such as puppets, paper mache objects, coffins, crates, crosses, theaters, cages and statues. It does not
include signs, portable bullhorns, cell phones, baby carriages, baby strollers, wheelchairs and other devices for the handicapped in use by handicapped persons. These restrictions are similar to the restrictions on the size, physical composition and use of signs, placards and structures on the White House sidewalk set forth in 36 CFR 7.96(g)(5) and the items prohibited by the Capitol Police in the area around the Capitol during the Inauguration events. The limitation on the size of bags will be communicated to the public at the checkpoints with signs outlining the appropriate size. Please be advised that we anticipate permitting bags no larger than 8 inches by 6 inches.

The Secret Service has determined that each of the above listed items could potentially be used as a weapon or in such a manner as to compromise public safety or the safety of Secret Service protectees. Accordingly, we would ask that the National Park Service impose the restrictions listed above and subsequently communicate this information to permit holders. Finally, please be advised that, as with every component of the security plan for the Inaugural parade, the list of prohibited items is subject to change based on law enforcement assessments of potential threats to public safety and the safety of Secret Service protectees.

Vance C. Luce
Special Agent in Charge
Dignitary Protective Division

PRESIDENTIAL INAUGURAL CEREMONIES PERMIT

DECEMBER 18, 2012 PERMIT #12-384, AMENDMENT #1

(BLEACHERS, ANNOUNCER STANDS, MEDIA STANDS AND JOINT TASK FORCE INAURUAL COMMITTEE (JTFIC) TRAILERS, GENERATORS AND PORTABLE RESTROOMS - PLACEMENT AND REMOVAL)

In accordance with the Presidential Inaugural Ceremonies Act and National Park Service regulations, permission is granted for the following:

Person(s) and/or Organization(s): PRESIDENTIAL INAUGURAL COMMITTEE

Date(s): 012/19/12 To: 02/10/13

Time: Starting: 7:00 A.M. Ending: 5:00 P.M.

Location(s): PENNSYLVANIA AVENUE NATIONAL HISTORICAL PARK BETWEEN 3RD-15TH STREETS, SIDEWALK ON THE WEST SIDE OF PERSHING PARK AND NORTHEAST CORNER AT 15TH STREET AND NORTH PENNSYLVANIA AVENUE.

Purpose(s) BLEACHERS, MEDIA STANDS, ANNOUNCER STANDS, JTFIC TRAILERS, GENERATORS AND PORTABLE RESTROOMS FOR PRESIDENTIAL INAUGURAL PARADE

Anticipated Number of Participants: Bleacher Seats 8,790

Announcer, Media and Parade Control Support (100) ±

Viewing Public (300,000) ±

Person(s) in Charge: Lindsay Scola, Inaugural Parade Director

Address(es): 330 C Street, SW, Washington, D.C. 20201

Telephone Nos. Day: 202-340-8716

This permit is granted subject to the following conditions and may be amended by the National Park Service to reflect changes to conditions.
This permit authorizes the construction and/or placement of bleachers, Joint Task Force Inaugural Committee (JTFIC) trailers, generators and portable toilets, in support of the Inaugural Parade viewing area within Pennsylvania Avenue National Historical Site from 3rd Street to 15th Street, the sidewalk west side of Pershing Park and northeast corner at 15th Street and north Pennsylvania Avenue.

Based on the size and scope of this event PIC will provide the NPS with a cost recovery deposit in the form of a irrevocable letter of credit or cash deposit in an amount to be determined later for all activities held on National Park land associated with the National Day of Service, and Presidential Inauguration activities.

This cost recovery deposit will be used to cover costs of restoration and rehabilitation of NPS resources and any unbudgeted National Park Service operating costs.

The permittee agrees to be fully responsible for the management, performance, use and safety within the permit area involved in this authorization until the work is completed, inspected, and accepted. The permittee hereby agrees to accept responsibility and assume liability for any and all tort claims arising from the actions or omissions of its representatives or employees directly or indirectly connected with the work performed, the maintenance of, or the use of this facility to the greatest extent permitted by law. To the extent that the work is performed by non-Governmental persons or organizations, the permittee shall require such persons or organizations to:

a. Procure public and employee liability insurance from responsible companies with a minimum limitation of $2,000,000 per person for any one claim and an aggregate limit of $5,000,000 for any number of claims arising from any one incident. The United States of America shall be named as an additional insured on all such policies. The permit number will be included on said policy. All such policies shall specify that the insured shall have no right of subrogation against the United States for payments of any premiums or deductibles, thereunder, and such insurance policies shall be obtained by, be for the account of, and be at the insured's sole risk.

b. Pay the United States the full value of any damages to the lands or other property of the United States caused by any omission or activity in connection with this permit.

c. Indemnify, save and hold harmless and defend the United States against all fines, claims, damages, losses, judgments and expenses arising out of, or from any omission or activity in connection with this permit.

This permit is being issued to the PIC with the provision to allow the erection of the bleachers, JTFIC trailers, generators and portable toilets, announcer and media stands, prior to PIC fulfilling its obligation of providing the cost recovery bond and certificate of insurance prior to the start of any additional work on parkland associated with this permit.
Permission for placement of the bleachers, JTFIC trailers, generators and portable toilets, announcer and media stands, is granted based on the attached layout diagrams for all areas referenced in this permit.

GENERAL CONDITIONS

1. Permittee and all participants authorized therein must comply with all of the conditions of this permit and with all reasonable directions of the National Park Service and United States Park Police personnel.

2. All sidewalks, walkways, and roadways must remain unobstructed during the construction activities to allow for the reasonable use of these areas by pedestrians, vehicles, and other park visitors.

3. Prior to beginning construction or placement of all facilities, PIC's contractors or agents will contact or Ms. Robbin Owen, Deputy NPS Inaugural Coordinator or Leonard Lee, Liaison Officer, NPS Inaugural Coordinator, (202) 691-2346 to coordinate specific logistical requirements. Permittee and its representatives will follow instructions provided by these individuals with regard to accessing park property and will take all precautions to protect park resources.

4. All requests, correspondence and meetings with the National Park Service pertaining to this permit shall be scheduled by the permittee only. All contractors, subcontractors or consultants must channel their requests through the recognized representatives of the permittee, who in turn will contact the National Park Service.

5. The permittee shall insure that all logistical equipment/structures placed on park property adhere to all applicable codes, standards, and regulations including but not limited to BOCA, OSHA, USPHS, and ADA, covering requirements including but not limited to safe construction practices and grounding of bleachers.

6. All activities pursuant to this permit shall be in compliance with the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252; 42 U.S.C. 200d ed seg.); Title V, Section 504 of the Rehabilitation Act of 1973 (87 Stat. 394; 29 U.S.C. 794); the Age Discrimination Act of 1975 (89 Stat. 728; 42 U.S.C. 6101 et seg.); and with all other Federal laws and regulations prohibiting discrimination on grounds of race, color, national origin, handicap, religion, or sex in employment and in providing facilities and services to the public. Nothing in advertising for employees shall be done which will prevent those covered by these laws from qualifying for employment.

7. The permittee shall require all employees and/or contractors to exercise all normal and reasonable safety precautions and to protect park visitors and property. Suitable devices such as barricades, fences, lanterns, etc. necessary for employee and public safety, shall be provided and adequately maintained. Such devices require the concurrence of the NPS Deputy Inaugural Coordinator or designated representative.
8. Throughout the course of this permit, the P.I.C. is responsible for taking all necessary precautions to minimize resource damage throughout the permitted area. In addition, permittee must supervise their contractors and employees during set-up and teardown to assure that there is no damage to park resources.

9. No wires or cables are to be attached to trees or other vegetation or flown aerially. Any wires or cables required in support of permitted activities must be run on the ground, in troughs or yellow jackets, to prevent tripping hazards. All troughs covering walkways must be ADA compliant.

10. All laws, rules and regulations applicable to the area covered by this permit remain in effect.

11. The permittee shall be responsible for the cost and repairs to any structures, facilities, roadways, sidewalks, infrastructures, sod, soils, or landscape vegetation on park land damaged by the work authorized under this permit.

12. The area must be left in substantially the same condition as it was prior to the activities authorized herein, and all litter shall be placed in the trash containers provided.

13. This permit is applicable only for the use of the areas designated above, and during the times designated above. All bleachers, announcer and media stands, and JTFIC trailers, generators and portable toilets, constructed or placed under this permit will be removed prior to February 10, 2013.

14. The National Park Service reserves the right to immediately revoke this permit at any time should it reasonably appear that the activity presents a clear and present danger to the public safety, good order or health, or if any conditions of this permit are violated.

15. A copy of this permit shall be available on site for inspection by National Park Service and United States Park Police personnel.

16. All proposed amendments or additions to this permit and all proposed locations of vehicles, equipment, storage, installations of any kind, areas of activity, work and power plans shall be submitted to the NPS for prior written approval prior to the installation of facilities. These proposals shall be in map or diagram form suitable for on the ground inspection.

17. Permittee will provide an on-site coordinator to be accessible to the National Park Service and the United States Park Police personnel at all times during construction or set-up activities and during dismantling of facilities post-event.

18. All vendors involved in the construction and teardown of the bleachers must have some form of identification.
SPECIFIC CONDITIONS FOR BLEACHERS, JTFIC TRAILERS, GENERATORS AND PORTABLE TOILETS, ANNOUNCER AND MEDIA STANDS - PENNSYLVANIA AVENUE NATIONAL HISTORICAL SITE

1. The PIC is required to meet OSHA guidelines regarding employee/subcontractor work schedules. No employee/subcontractor is to work no more than 10 hours within a 24 hour period. Any work required beyond the 10-hour limitation will need to be requested to the NPS in advance for review and approval by the Superintendent, National Mall and Memorial Parks.

2. All bleachers, announcer and media stands, must be at least three (3) feet back from the curb and have a minimum of six (6) feet of clearance between the back of the structure and the face of the buildings along Pennsylvania Avenue to allow for public access. JTFIC trailers must be at least (5) feet from ADA accessible ramps and must not block pedestrian access along the sidewalk. Placement of toilets must be in groups no more than 5 with 6 feet clearance between each group.

3. Bleachers must be erected to allow access to building entrances and/or driveways at all times. No bleachers shall be erected in front of, or on the Navy Memorial.

4. The permittee is responsible for having its contractor secure all bleachers, media and announcer stands with yellow caution tape and signage while not in use. JTFIC trailers and restrooms must be locked while not in use and generators must be secured by bike rack and/or fencing. The permittee and/or its contractor will be required to provide unarmed 24-hour security to monitor all equipment and structures daily. Further, all fire hydrants along the parade route must be enclosed with bike rack to access to the hydrants in case of fire. Permittee is responsible for contacting Lt. Sean Egan, DC Fire and EMS at 202-277-1889.

5. All metal parts, or fiberglass-like structural components, of facilities shall be separated from masonry or ground with not less than one foot square of 3/4" inch unpainted plywood and/or heavy duty interlocking plastic material.

6. The permittee shall be responsible for any damage including stains created by installing the above facilities. Any stains created shall be removed at the expense of the permittee. To avoid or minimize any potential damage, it is recommended that galvanized steel or pre-painted components be used. If on-site painting is required, the sidewalks and plaza areas must be properly protected.

7. Bleachers, announcer and media stands shall not be erected on/or over plants, planters, trees, tree wells, steps or statues.

8. All trash, debris, and litter resulting from activities of this permit shall not be allowed to accumulate and shall be bagged and placed on or next to trash receptacles or removed from the site.

9. Vehicles, with the exception of the placement of the JTFIC trailers, will not be permitted on the sidewalk along Pennsylvania Avenue. A “spotter” must be assigned to assist with the
placement of JTFIC trailers on sidewalk and to provide for public safety. All other unloading and loading of equipment must be done from the street.

10. PIC will not be held responsible for the set up, use, and tear down of the DC Mayor's reviewing stand. The Mayor's Office, through the Office of Property Management will be responsible for any unbudgeted National Park Service and United States Park Police costs and any potential damage to park resources.

11. Pursuant to 36 CFR 7.96(g)(5)(xiii), 2.31(a)(2),(3) the destruction, defacement, damaging, alteration, or removal of park resources or facilities is prohibited. No item, including signs or banners, may be attached to park trees, plantings, benches, statues, walls, fences, or other park property.

12. **Generator Use & Refueling:** Permittee will use generators for electrical power sources. Generators must be placed on fire retardant, self-absorbent troughs enclosed by bike rack.

   Refueling of the gasoline generators will be permitted pursuant to the following conditions:

   a. Refueling will only be allowed on dates and times agreed upon in advance with the NPS from 5:00 am – 8:00 am or 10:00 pm – midnight.

   b. The following materials must be placed on the ground during refueling:

   1. Plastic tarp
   2. Absorbent material on top of tarp
   3. Drip pan under fueling nozzle
   4. Spill containment material or absorbent booms or pads must be stored at each generator location
   5. 55-gallon drum labeled hazardous material must be placed along side of each generator. Should spillage occur the absorbent material must be placed in these barrels
   6. Contractor will be responsible for removing the barrels off of park property
   7. Contractor will be responsible for any damage to the park's resources as a result of the refueling.
   8. In case of spill please contact DC Fire and Emergency Medical Services at 911 and National Mall & Memorial Parks’ Chief of Maintenance at (202) 359-1551.

The storage of fuel on parkland, in trailers, next to generators and at other NPS locations is strictly prohibited.
United States Secret Service Security-Based Restrictions

1. Insofar as the Inaugural has been designated as a National Special Security Event, the United States Secret Service assumes the role as the lead Federal agency for the design and implementation of the operational security plan. Enclosed is the United States Secret Service letter dated December 3, 2012, which is incorporated herein, which limits a number of items at checkpoints along the Inauguration parade route on January 21, 2013. These items include, among other things, firearms, ammunition, explosives, weapons of any kind, aerosols, supports for signs and placards, packages, coolers, bicycles, balloons, mace/pepper spray, thermal or glass containers, backpacks, bags exceeding a designated size restrictions, laser pointers, animals other than helper/guide dogs, structures which is more fully defined in the letter as well as signs and placards that exceed a designated size restriction. Other information regarding Secret Service’s Inaugural security measures such as item restrictions, road closures, metro, security screenings, security screening entry points, air and water security is available at the Secret Service’s website at www.secretservice.gov, which will be updated by them as details become available.

2. Just as in the 2005 and 2009 Inaugurations, we anticipate that there will be a security sweep of all of Pennsylvania Avenue National Historic Park the early morning of January 21, 2013, at which time the area will be closed. In the event that any items are found on the Inaugural parade parkland that is contrary to the Secret Services restrictions dated December 3, 2012, these items will be taken, inventoried, and will be available for 30 days to be retrieved by the owners. Signs and banners without supports as well as literature, books, newspapers, leaflets, magazines, buttons, bumper stickers are all allowed, but only if they are brought in through the Secret Service security screening access points the morning of January 21, 2013 and conform to the Secret Service restrictions.

Special Permit Conditions to PIC, regarding their bleachers along Pennsylvania Avenue between 7th and 15th Streets

1. Pursuant to the NPS final rule, published at 73 Federal Register 67739 (November 17, 2008), if a PIC bleacher seat in Pennsylvania Avenue National Historic Park or Sherman Park has not been claimed by the PIC ticket-holder ten minutes before the Inaugural Parade is scheduled to pass the bleacher’s block, then any member of the public, without regard to viewpoint or content of the message, may at that time occupy the unclaimed seat. The PIC is required to notify such PIC ticket-holders (and include a statement on each PIC ticket) when they need to be in the bleacher to avoid losing their seats. PIC will place Marshals at each PIC bleachers that are located on Pennsylvania Avenue National Historic Park or Sherman Park, to assist PIC ticket-holders and inform the NPS or the United States Park Police of any unclaimed seats under the 10-minute parade rule. Should the NPS or Park Police determine that PIC is not in compliance, appropriate action will be taken.

Bleacher Marshals

1. The Permittee is to have no less than two (2) Bleacher Marshals located at each bleacher stand as soon as possible on January 21, 2013. Prior to January 21, 2013, PIC must provide a
color copy of Marshals identification to the National Park Service and United States Park Police. Marshals will assist and help maintain order among bleacher ticket holders. Marshals should be aware of their responsibilities and should have received earlier from the Permittee adequate training and instructions as to their duties and responsibilities. To help assist your participants, Marshals should be aware of the authorized permit area, the location of nearby Metro stations, first aid stations, water and toilets. Marshals should be knowledgeable of the NPS permit conditions and be able to communicate with the Permittee, and if necessary with the United States Park Police officers or National Park Service rangers if they think they observe a problem.

While Marshals may NOT act as police, they can work with and help maintain order among your participants, explain to non-participants that a particular area may be under permit, and should be able to immediately alert their supervisor(s), and if necessary United States Park Police officers or National Park Service rangers if they observe a problem. To assist you on-site, there should also be nearby a Park Police or Park Ranger. Park Ranger Marisa Richardson may be contacted any time on January 21 on her cell phone at (202) 528-9610, who will make every reasonable effort to assist you.

Access to Inaugural Parade Sidewalk Permit Area

1. Please note that it is widely expected that large numbers of people may seek to be along the parade route to observe the Inaugural Parade. So it is expected that the Inaugural parade checkpoints and the sidewalks on January 21, 2013 will be very crowded as people come to observe the parade and express their views. As such, your designated representatives and Marshals should arrive early to go through the parade checkpoints, which will not be operated by the National Park Service nor the United States Park Police. Once through the checkpoints, they should immediately walk to and stay at their designated permit area.

Unless there is some sort of crowd control or safety issue or it unreasonably interferes with another permitted event, nothing prohibits the simple act of someone walking along any open park sidewalks to get to a permitted park area.

For sidewalks and entrances that are seven feet wide or larger, a six foot minimum clearance at the back of the area must be maintained at all times to allow for two wheelchairs to pass each other. And for sidewalks and entrances of five-six feet wide, a four foot minimum width at the back of the area must be maintained at all times for wheelchair accessibility. If your permit includes such rear sidewalk areas, Permittee must have Marshals located to help maintain the above sidewalk clearance areas.

While the National Park Service and the United States Park Police will take every reasonable effort to ensure access to your designated permit area, your assistance is necessary. Once at your designated permit areas, the Permittee or Permittee’s representatives and Marshals must identify themselves to the on-site Park Police supervisor or National Park Service ranger, so that they can work together with you in the event that there is a problem at your permit area. In the event there are unauthorized people located in your permit area, please alert the nearest Park Police or Park Ranger supervisor or contact Park Ranger Marisa Richardson on her cell phone (202) 528-9610, and they will make every reasonable effort to assist you.

Steve Whitesell, Regional Director  
National Capital Region, National Park Service  
1100 Ohio Drive, S.W.  
Washington, D.C. 20242  

Dear Mr. Whitesell:  

Please be advised that the United States Secret Service (Secret Service) is seeking to exclude the following items at checkpoints along the Inauguration parade route on January 21, 2013:  

- Aerosols  
- Ammunition  
- Animals other than helper/guide dogs  
- Backpacks  
- Bags and signs exceeding size restrictions  
- Bicycles  
- Balloons  
- Coolers  
- Explosives  
- Firearms  
- Glass or thermal containers  
- Laser pointers  
- Mace / Pepper spray  
- Packages  
- Structures  
- Supports for signs and placards  
- Weapons of any kind  
- Any other items determined to be potential safety hazards  

With respect to signs and placards, the Secret Service would ask that these items be limited to items made of cardboard, poster board or cloth and have dimensions no greater than three feet in width, twenty feet in length and one-quarter inch in thickness. As noted above, we are asking that supports for signs and placards be prohibited as these items may be used as a means of concealing weapons or as weapons themselves.  

Additionally, the prohibition on structures includes props, folding chairs, bicycles, displays such as puppets, paper mache objects, coffins, crates, crosses, theaters, cages and statues. It does not
include signs, portable bullhorns, cell phones, baby carriages, baby strollers, wheelchairs and other devices for the handicapped in use by handicapped persons. These restrictions are similar to the restrictions on the size, physical composition and use of signs, placards and structures on the White House sidewalk set forth in 36 CFR 7.96(g)(5) and the items prohibited by the Capitol Police in the area around the Capitol during the Inauguration events. The limitation on the size of bags will be communicated to the public at the checkpoints with signs outlining the appropriate size. Please be advised that we anticipate permitting bags no larger than 8 inches by 6 inches.

The Secret Service has determined that each of the above listed items could potentially be used as a weapon or in such a manner as to compromise public safety or the safety of Secret Service protectees. Accordingly, we would ask that the National Park Service impose the restrictions listed above and subsequently communicate this information to permit holders. Finally, please be advised that, as with every component of the security plan for the Inaugural parade, the list of prohibited items is subject to change based on law enforcement assessments of potential threats to public safety and the safety of Secret Service protectees.

IN REPLY REFER TO:

PRESIDENTIAL INAUGURAL CEREMONIES PERMIT

JANUARY 16, 2013 PERMIT #13-2 (A) AMENDMENT #1

(LED SCREEN, GSI CART & SUPPLY TRUCK, TENTS, SOUND TOWERS, GENERATORS, SUPPLY POD, AND PORTABLE RESTROOMS - PLACEMENT AND REMOVAL)

In accordance with the Presidential Inaugural Ceremonies Act and National Park Service regulations, permission is granted for the following:

Person(s) and/or Organization(s): PRESIDENTIAL INAUGURAL COMMITTEE

Date(s): 01/13/13 To: 01/23/13

Time: Starting: 8:00 A.M. Ending: 6:00 P.M.

Location(s): WASHINGTON MONUMENT GROUNDS, NORTH SIDE AND GRASSY AREA, WEST SIDE OF 23RD STREET BEHIND THE LINCOLN MEMORIAL.

Purpose(s) LED SCREEN, TENTS, POD, FOOD SERVICE, GENERATORS AND PORTABLE RESTROOMS FOR PRESIDENTIAL INAUGURAL SWEARING IN CEREMONY SPILL OVER AREA

Anticipated Number of Participants: Viewing Public (90,000) ±

Person(s) in Charge: KATHYRN MINOR

Address(es): 330 C Street, SW, Washington, D.C. 20201

Telephone Nos. Day: 202-607-6768

This permit is granted subject to the following conditions and may be amended by the National Park Service to reflect changes to conditions.

This permit authorizes the construction and/or placement of an LED screen, generators, portable toilets, first aid tent, GSI cart and supply truck, pod and sound towers in support of the Inaugural
swearing in ceremony in the spill over area of the north side of the Washington Monument grounds.

Based on the size and scope of this event PIC will provide the NPS with a cost recovery deposit in the form of an irrevocable letter of credit or cash deposit in an amount to be determined later for all activities held on National Park land associated with the National Day of Service, and Presidential Inauguration activities.

This cost recovery deposit will be used to cover costs of restoration and rehabilitation of NPS resources and any unbudgeted National Park Service operating costs.

The permittee agrees to be fully responsible for the management, performance, use and safety within the permit area involved in this authorization until the work is completed, inspected, and accepted. The permittee hereby agrees to accept responsibility and assume liability for any and all tort claims arising from the actions or omissions of its representatives or employees directly or indirectly connected with the work performed, the maintenance of, or the use of this facility to the greatest extent permitted by law. To the extent that the work is performed by non-Governmental persons or organizations, the permittee shall require such persons or organizations to:

a. Procure public and employee liability insurance from responsible companies with a minimum limitation of $2,000,000 per person for any one claim and an aggregate limit of $5,000,000 for any number of claims arising from any one incident. The United States of America shall be named as an additional insured on all such policies. The permit number will be included on said policy. All such policies shall specify that the insured shall have no right of subrogation against the United States for payments of any premiums or deductibles, thereunder, and such insurance policies shall be obtained by, be for the account of, and be at the insured's sole risk.

b. Pay the United States the full value of any damages to the lands or other property of the United States caused by any omission or activity in connection with this permit.

c. Indemnify, save and hold harmless and defend the United States against all fines, claims, damages, losses, judgments and expenses arising out of, or from any omission or activity in connection with this permit.

This permit is being issued to the PIC with the provision to allow the erection of an LED screen, generators, portable toilets, first aid tent, GSI food cart, supply pod and truck, and sound tower, prior to PIC fulfilling its obligation of providing the cost recovery bond and certificate of insurance prior to the start of any additional work on parkland associated with this permit.

Permission for placement of the LED screen, generators and portable toilets, tent, cart and sound tower, is granted based on the attached layout diagrams for all areas referenced in this permit.
GENERAL CONDITIONS

1. Permittee and all participants authorized therein must comply with all of the conditions of this permit and with all reasonable directions of the National Park Service and United States Park Police personnel.

2. All sidewalks, walkways, and roadways must remain unobstructed during the construction activities to allow for the reasonable use of these areas by pedestrians, vehicles, and other park visitors.

3. Prior to beginning construction or placement of all facilities, PIC’s contractors or agents will contact or Ms. Robbin Owen, Deputy NPS Inaugural Coordinator or Leonard Lee, Liaison Officer, NPS Inaugural Coordinator, (202) 691-2346 to coordinate specific logistical requirements. Permittee and its representatives will follow instructions provided by these individuals with regard to accessing park property and will take all precautions to protect park resources.

4. All requests, correspondence and meetings with the National Park Service pertaining to this permit shall be scheduled by the permittee only. All contractors, subcontractors or consultants must channel their requests through the recognized representatives of the permittee, who in turn will contact the National Park Service.

5. The permittee shall insure that all logistical equipment/structures placed on park property adhere to all applicable codes, standards, and regulations including but not limited to BOCA, OSHA, USPHS, and ADA, covering requirements including but not limited to safe construction practices and grounding of bleachers.

6. All activities pursuant to this permit shall be in compliance with the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252; 42 U.S.C. 200d ed seg.); Title V, Section 504 of the Rehabilitation Act of 1973 (87 Stat. 394; 29 U.S.C. 794); the Age Discrimination Act of 1975 (89 Stat. 728; 42 U.S.C. 6101 et seg.); and with all other Federal laws and regulations prohibiting discrimination on grounds of race, color, national origin, handicap, religion, or sex in employment and in providing facilities and services to the public. Nothing in advertising for employees shall be done which will prevent those covered by these laws from qualifying for employment.

7. The permittee shall require all employees and/or contractors to exercise all normal and reasonable safety precautions and to protect park visitors and property. Suitable devices such as barricades, fences, lanterns, etc. necessary for employee and public safety, shall be provided and adequately maintained. Such devices require the concurrence of the NPS Deputy Inaugural Coordinator or designated representative.
8. Throughout the course of this permit, the P.I.C. is responsible for taking all necessary precautions to minimize resource damage throughout the permitted area. In addition, permittee must supervise their contractors and employees during set-up and teardown to assure that there is no damage to park resources.

9. No wires or cables are to be attached to trees or other vegetation or flown aerially. Any wires or cables required in support of permitted activities must be run on the ground, in troughs or yellow jackets, to prevent tripping hazards.

10. All laws, rules and regulations applicable to the area covered by this permit remain in effect.

11. The permittee shall be responsible for the cost and repairs to any structures, facilities, roadways, sidewalks, infrastructures, sod, soils, or landscape vegetation on park land damaged by the work authorized under this permit.

12. The area must be left in substantially the same condition as it was prior to the activities authorized herein, and all litter shall be placed in the trash containers provided.

13. This permit is applicable only for the use of the areas designated above, and during the times designated above. All structures, generators and portable toilets, constructed or placed under this permit will be removed prior to January 23, 2013.

14. The National Park Service reserves the right to immediately revoke this permit at any time should it reasonably appear that the activity presents a clear and present danger to the public safety, good order or health, or if any conditions of this permit are violated.

15. A copy of this permit shall be available on site for inspection by National Park Service and United States Park Police personnel.

16. All proposed amendments or additions to this permit and all proposed locations of vehicles, equipment, storage, installations of any kind, areas of activity, work and power plans shall be submitted to the NPS for prior written approval prior to the installation of facilities. These proposals shall be in map or diagram form suitable for on the ground inspection.

17. Permittee will provide an on-site coordinator to be accessible to the National Park Service and the United States Park Police personnel at all times during construction or set-up activities and during dismantling of facilities post-event.

18. All vendors involved in the construction and teardown must have some form of identification.
SPECIFIC CONDITIONS FOR ALL STRUCTURES, GENERATORS AND PORTABLE TOILETS,-WASHINGTON MONUMENT GROUNDS-NORTH SIDE AND GRASSY AREA WEST OF 23RD STREET BEHIND THE LINCOLN MEMORIAL

The PIC is required to meet OSHA guidelines regarding employee/subcontractor work schedules. No employee/subcontractor is to work no more than 10 hours within a 24 hour period. Any work required beyond the 10-hour limitation will need to be requested to the NPS in advance for review and approval by the Superintendent, National Mall and Memorial Parks.

Set up on the Washington Monument Grounds, northeast quadrant: See attached diagram.

- One (1) LED screen on truck trailer
- Two (2) delay towers
- Forty (40) portable restrooms
- One (1) GSI food cart and supply truck

Set up on the grassy area west side of 23rd Street, behind the Lincoln Memorial: See attached diagram

- One (1) 40’x60’ tent
- One (1) tow plant generator

Prior to any set up, permittee is required to contact the Division of Permits Management (202) 245-4715, during normal business hours, to make arrangements for NPS personnel to meet on-site to review the permit the requirements and conduct all required inspections.

Permittee is responsible for supervising their contractors during set-up and teardown to assure there is no damage to park resources. Tent staking cannot be placed more than 18” into the ground. Coordinate tent placement prior to the event with Mr. Sean Kennealy at 202-245-4661.

Event Schedule: SEE ATTACHED

Hard interlocking roadway surfaces was delivered on Sunday, January 13, 2013

January 16 – January 18: Set-up: 8:00 am – 5:00 pm

January 21 Event, 11:00 am – 1:00 pm

Teardown January 22 – 23, 8:00 am – 5:00 pm daily

1. Restrooms must be locked while not in use and generators must be secured by bike rack and/or fencing. The permittee and/or its contractor will be required to provide unarmed 24-hour security to monitor all equipment and structures daily.
2. All metal parts, or fiberglass-like structural components, of facilities shall be separated from masonry or ground with not less than one foot square of 3/4" inch unpainted plywood and/or heavy duty interlocking plastic material.

3. The permittee shall be responsible for any damage including stains created by installing the above facilities. Any stains created shall be removed at the expense of the permittee. To avoid or minimize any potential damage, it is recommended that galvanized steel or pre-painted components be used. If on-site painting is required, the sidewalks and plaza areas must be properly protected.

4. All trash, debris, and litter resulting from activities of this permit shall not be allowed to accumulate and shall be bagged and placed on or next to trash receptacles or removed from the site.

5. Pursuant to 36 CFR 7.96(g)(5)(xiii), 2.31(a)(2)(3) the destruction, defacement, damaging, alteration, or removal of park resources or facilities is prohibited. No item, including signs or banners, may be attached to park trees, plantings, benches, statues, walls, fences, or other park property.

6. **Generator Use & Refueling:** Permittee will use generators for electrical power sources. Generators must be placed on fire retardant, self-absorbent troughs enclosed by bike rack.

   Refueling of the gasoline generators will be permitted pursuant to the following conditions:

   a. Refueling will only be allowed on dates and times agreed upon in advance with the NPS.

   b. The following materials must be placed on the ground during refueling:

      1. Plastic tarp
      2. Absorbent material on top of tarp
      3. Drip pan under fueling nozzle
      4. Spill containment material or absorbent booms or pads must be stored at each generator location
      5. 55-gallon drum labeled hazardous material must be placed along side of each generator. Should spillage occur the absorbent material must be placed in these barrels
      6. Contractor will be responsible for removing the barrels off of park property
      7. Contractor will be responsible for any damage to the park’s resources as a result of the refueling.
      8. In case of spill please contact DC Fire and Emergency Medical Services at 911 and National Mall & Memorial Parks’ Chief of Maintenance at (202) 359-1551.
The storage of fuel on parkland, in trailers, next to generators and at other NPS locations is strictly prohibited.

7. **Sound Amplification:**

Special attention is drawn to the last sentence, item #7, last page of this permit, concerning sound amplification. Noise level must not intrude upon surrounding area and upon others in the park not involved with the event.

8. **Vehicle access onto the Washington Monument grounds**

With a United States Park Police access pass, vehicular access to the Washington Monument grounds via the gravel drive off 15th Street onto the permittee’s hard interlocking roadway surface for set-up, event, and tear down will be allowed on a reasonable basis to be monitored by the National Park Service and the United States Park Police. Access passes must be obtained in advance through Sgt. Jim Murphy, United States Park Police, 202-610-7092. Vehicles without an access pass will not be permitted into the area. Permittee will provide personnel to be responsible for monitoring all access. Driving on the grass is strictly prohibited.

All logistical vehicles, must use extreme caution on the grounds. In addition, personnel must walk with the truck for safety of pedestrians on the walkways. No driving nor parking allowed on the grass at any time. All equipment must be hand-carried/hand-carted to event site. All vehicles must park in designated available public spaces. Speed must be kept to 5 MPH or lower at all times.

**Load in and load out for the grassy area west of 23rd Street behind the Lincoln Memorial must be from Parkway Drive ONLY.** All items must be hand carted/hand carried across the grass. Permittee is not allowed to load in nor load out from 23rd Street. Driving across the grass is strictly prohibited. A hard interlocking plastic material roadway surface must be laid for delivery and pick up of the tow plant generator.

9. **Signs & Commercial Advertising:**

NPS regulations generally prohibit Federal parkland from being used for business solicitation or for the advertisement or promotion of commercial brands, products, and services. As such, no commercial notices and advertisements shall be placed, posted, or distributed at the event. Further, no structures representing commercial products, or models or replications of commercial products or merchandise may be displayed.

Further, consistent with long-standing NPS policy now under Public Law 108-108, Title I, § 145, special event permits will expressly prohibit the erection, placement, or use of structures and signs bearing commercial advertising. However, a permit may be issued that authorizes the recognition of sponsors of special events, if the NPS determines that the size and form of the recognition is consistent with the special nature and sanctity of the National Mall or any other requested park area, and if the lettering or design identifying the sponsor is no larger than one-third the size of the lettering or design identifying the special event. Further, to the maximum
extent practicable for such special events, public use of and access to the National Mall and other parkland is not to be restricted.

The Permitee shall submit a sign plan for NPS review and approval. Any request seeking NPS approval for sponsor recognition must be submitted to the NPS days prior to the proposed event, and be depicted on the sign plan. If approved by the NPS, sponsor recognition will be authorized within the terms of the special event permit. Authorized sponsor recognition must be in keeping with NPS policy, regulations, and law, and be appropriate to the scale and theme of the special event. Further, the overall size, number, and design of any signs or banners shall be appropriate to the park setting and the lettering or design identifying the sponsor must be no larger than one-third the size of the lettering or design identifying the special event. Signs and banners may not be affixed to existing trees or other NPS facilities or structures.

Soliciting personal information such as names, addresses, telephone numbers, zip codes, etc., or any other such information which may be used for future solicitation or marketing purposes, is strictly prohibited.

The distribution or give-away of a commercial product may be allowed, if it is something that may be consumed at the event site such as pre-packaged juices or popcorn.

10. **Overnight Security:**

Permittee provide security during non-event hours. Security must be unarmed. Coordinate security needs with Sgt. Jim Murphy, U.S. Park Police, 202-610-7092. Permittee is responsible for reading and adhering to the camping regulation stated below.

**CAMPING IS PROHIBITED.** Camping is defined as the use of the park land for living accommodation purposes such as sleeping activities, or making preparations to sleep (including the laying down or bedding for the purpose of sleeping), or storing personal belongings, or making any fire, or using any tents or shelter or other structure or vehicle for sleeping or doing any digging or earth breaking or carrying on cooking activities. The above-listed activities constitute camping when it reasonably appears, in light of all the circumstances, that the participants, in conducting these activities, are in fact using the area as a living accommodation regardless of the intent of the participants or the nature of any other activities in which they may also be engaging.

11. **First Aid:**

It is recommended that you consider the guidelines of the District of Columbia Department of Emergency Medical Services, who recommends for large-scale events that involve between 20,000-30,000 participants, that organizers have (1) a fixed First Aid site with certified/licensed personnel who will remain on-site throughout the event (2) a licensed Basic Life Support Ambulance and (3) a Licensed Advanced Life Support Unit (both licensed in the District of Columbia). And for large-scale events that involve between 30,000-50,000 participants, that organizers have (1) two (2) fixed first aid sites with certified/licensed personnel who will remain on site throughout the event (2) two (2) Basic Life Support units and (3) one (1) Advanced Life Support units (both licensed in the District of Columbia). Contact the Department of Fire and
Emergency Medical Services Special Events Coordinator at 202-673-3310 for further information.

12. Cabling:

All cables must be covered with matting or placed in yellow jackets to prevent tripping hazards. Absolutely NO cables, phone lines, etc. permitted on lamp post or thru tree lines.

13. Resource Protection:

Heavy equipment must be unloaded/loaded from the pull off zone along 15th Street and on the permittee’s hard interlocking roadway on the grounds. No driving nor parking on the grass or walkways allowed (Gators/golf carts will not be allowed on the grass). In the event forklifts, front end loader, and/or vehicles must be used, an interlocking hard plastic road surface must be placed on the grass for vehicle use. Prior approval of interlocking hard plastic material must be obtained from the NPS Person In Charge. The interlocking hard plastic surface must be placed underneath all wheeled equipment used, such as the generator truck, LED screen trailer wheels if any, and the supply truck. Speed of all vehicles including golf carts and gators must be kept at 5 MPH or lower at all times. All drivers must have a valid driver’s license and keys must not be left in the ignitions or vehicle will be taken. Any speeding vehicles will be removed from the permitted area and driver will not be allowed to drive any other vehicle.

Permittee must have a representative on -site during set-up and tear down of equipment to monitor the vendors.

The permittee shall require all employees and or contractors to exercise all normal and reasonable safety precautions and to protect park property. Suitable devices such as barricades, fences, lanterns, etc. necessary for employee and public safety, shall be provided and adequately maintained.

Pursuant to 36 CFR 7.96(g) (xiii) the alternation, damage, or removal of park resources or facilities is prohibited. No item, including signs or banners, may be attached to park trees, plantings, benches, or other park property. See also D. C. Code 22-3312.01 and 18 U.S.C. 1361.

Contact Mr. Jorge Alvarez Deputy Chief of Maintenance, 202-245-4663, regarding waterlines on the Washington Monument grounds.

Additional Conditions:

14. Permittee is responsible for providing all necessary equipment / objects to conduct this activity. All equipment must be removed from the park immediately following the conclusion of the event on January 21, 2013. Items left in the park will be considered abandoned property and will not be the responsibility of the National Park Service.

15. Balloons, glass beverage containers and alcoholic beverages are prohibited on park land.
16. The permittee will be responsible for any injuries and/or damage to government property occurring as a result of this permitted activity.

17. Portable restrooms: Must be placed along the edge of the grass outside any tree drip line. Delivery will be made via the north sidewalk of the Washington Monument grounds, dropped and hand carted into place. Restrooms must be placed with a so as with every fifth restroom there is a six foot opening for emergency access. Restrooms may be placed back to back.

18. A copy of this permit must be carried at all times by the permittee while operating under the authority granted. **A COPY OF THIS PERMIT MUST BE ON-SITE WHILE UNDER THE AUTHORITY GRANTED**

19. Just as in the 2005 and 2009 Inaugurations, we anticipate that there will be a security sweep of all of Pennsylvania Avenue National Historic Park the early morning of January 21, 2013, at which time the area will be closed. After the area is clear from the sweep permittee, participants and the general public will have access to the area.

PRESIDENTIAL INAUGURALAL CEREMONIES PERMIT

JANUARY 19, 2013 PERMIT #13-2 (B) AMENDENT #2

(LED SCREEN, GSI CART & SUPPLY TRUCK, TENTS, SOUND TOWERS, GENERATORS, SUPPLY POD, AND PORTABLE RESTROOMS - PLACEMENT AND REMOVAL)

In accordance with the Presidential Inaugural Ceremonies Act and National Park Service regulations, permission is granted for the following:

Person(s) and/or Organization(s): PRESIDENTIAL INAUGURAL COMMITTEE

Date(s): 01/13/13 To: 01/23/13

Time: Starting: 8:00 A.M. Ending: 6:00 P.M.

Location(s): WASHINGTON MONUMENT GROUNDS, NORTH SIDE.

Purpose(s) LED SCREEN, TENTS, POD, FOOD SERVICE, GENERATORS AND PORTABLE RESTROOMS FOR PRESIDENTIAL INAUGURAL SWEARING IN CEREMONY SPILL OVER AREA

Anticipated Number of Participants: Viewing Public (90,000) ±

Person(s) in Charge: KATHYRN MINOR

Address(es): 330 C Street, SW, Washington, D.C. 20201

Telephone Nos. Day: 202-607-6768

This permit is granted subject to the following conditions and may be amended by the National Park Service to reflect changes to conditions.

This permit authorizes the construction and/or placement of an LED screen, generators, portable toilets, first aid tent, GSI cart and supply truck, pod, volunteer tent and sound towers in support
of the Inaugural swearing in ceremony in the spill over area of the north side of the Washington Monument grounds.

Based on the size and scope of this event PIC will provide the NPS with a cost recovery deposit in the form of an irrevocable letter of credit or cash deposit in an amount to be determined later for all activities held on National Park land associated with the National Day of Service, and Presidential Inauguration activities.

This cost recovery deposit will be used to cover costs of restoration and rehabilitation of NPS resources and any unbudgeted National Park Service operating costs.

The permittee agrees to be fully responsible for the management, performance, use and safety within the permit area involved in this authorization until the work is completed, inspected, and accepted. The permittee hereby agrees to accept responsibility and assume liability for any and all tort claims arising from the actions or omissions of its representatives or employees directly or indirectly connected with the work performed, the maintenance of, or the use of this facility to the greatest extent permitted by law. To the extent that the work is performed by non-Governmental persons or organizations, the permittee shall require such persons or organizations to:

a. Procure public and employee liability insurance from responsible companies with a minimum limitation of $2,000,000 per person for any one claim and an aggregate limit of $5,000,000 for any number of claims arising from any one incident. The United States of America shall be named as an additional insured on all such policies. The permit number will be included on said policy. All such policies shall specify that the insured shall have no right of subrogation against the United States for payments of any premiums or deductibles, thereunder, and such insurance policies shall be obtained by, be for the account of, and be at the insured's sole risk.

b. Pay the United States the full value of any damages to the lands or other property of the United States caused by any omission or activity in connection with this permit.

c. Indemnify, save and hold harmless and defend the United States against all fines, claims, damages, losses, judgments and expenses arising out of, or from any omission or activity in connection with this permit.

This permit is being issued to the PIC with the provision to allow the erection of an LED screen, generators, portable toilets, first aid tent, GSI food cart, supply pod, volunteer tent and truck, and sound tower, prior to PIC fulfilling its obligation of providing the cost recovery bond and certificate of insurance prior to the start of any additional work on parkland associated with this permit.

Permission for placement of the LED screen, generators and portable toilets, tents, cart and sound tower, is granted based on the attached layout diagrams for all areas referenced in this permit.
GENERAL CONDITIONS

1. Permittee and all participants authorized therein must comply with all of the conditions of this permit and with all reasonable directions of the National Park Service and United States Park Police personnel.

2. All sidewalks, walkways, and roadways must remain unobstructed during the construction activities to allow for the reasonable use of these areas by pedestrians, vehicles, and other park visitors.

3. Prior to beginning construction or placement of all facilities, PIC's contractors or agents will contact or Ms. Robbin Owen, Deputy NPS Inaugural Coordinator or Leonard Lee, Liaison Officer, NPS Inaugural Coordinator, (202) 691-2346 to coordinate specific logistical requirements. Permittee and its representatives will follow instructions provided by these individuals with regard to accessing park property and will take all precautions to protect park resources.

4. All requests, correspondence and meetings with the National Park Service pertaining to this permit shall be scheduled by the permittee only. All contractors, subcontractors or consultants must channel their requests through the recognized representatives of the permittee, who in turn will contact the National Park Service.

5. The permittee shall insure that all logistical equipment/structures placed on park property adhere to all applicable codes, standards, and regulations including but not limited to BOCA, OSHA, USPHS, and ADA, covering requirements including but not limited to safe construction practices and grounding of bleachers.

6. All activities pursuant to this permit shall be in compliance with the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252; 42 U.S.C. 200d ed seg.); Title V, Section 504 of the Rehabilitation Act of 1973 (87 Stat. 394; 29 U.S.C. 794); the Age Discrimination Act of 1975 (89 Stat. 728; 42 U.S.C. 6101 et seg.); and with all other Federal laws and regulations prohibiting discrimination on grounds of race, color, national origin, handicap, religion, or sex in employment and in providing facilities and services to the public. Nothing in advertising for employees shall be done which will prevent those covered by these laws from qualifying for employment.

7. The permittee shall require all employees and/or contractors to exercise all normal and reasonable safety precautions and to protect park visitors and property. Suitable devices such as barricades, fences, lanterns, etc. necessary for employee and public safety, shall be provided and adequately maintained. Such devices require the concurrence of the NPS Deputy Inaugural Coordinator or designated representative.
8. Throughout the course of this permit, the P.I.C. is responsible for taking all necessary precautions to minimize resource damage throughout the permitted area. In addition, permittee must supervise their contractors and employees during set-up and teardown to assure that there is no damage to park resources.

9. No wires or cables are to be attached to trees or other vegetation or flown aerially. Any wires or cables required in support of permitted activities must be run on the ground, in troughs or yellow jackets, to prevent tripping hazards.

10. All laws, rules and regulations applicable to the area covered by this permit remain in effect.

11. The permittee shall be responsible for the cost and repairs to any structures, facilities, roadways, sidewalks, infrastructures, sod, soils, or landscape vegetation on park land damaged by the work authorized under this permit.

12. The area must be left in substantially the same condition as it was prior to the activities authorized herein, and all litter shall be placed in the trash containers provided.

13. This permit is applicable only for the use of the areas designated above, and during the times designated above. All structures, generators and portable toilets, constructed or placed under this permit will be removed prior to January 23, 2013.

14. The National Park Service reserves the right to immediately revoke this permit at any time should it reasonably appear that the activity presents a clear and present danger to the public safety, good order or health, or if any conditions of this permit are violated.

15. A copy of this permit shall be available on site for inspection by National Park Service and United States Park Police personnel.

16. All proposed amendments or additions to this permit and all proposed locations of vehicles, equipment, storage, installations of any kind, areas of activity, work and power plans shall be submitted to the NPS for prior written approval prior to the installation of facilities. These proposals shall be in map or diagram form suitable for on the ground inspection.

17. Permittee will provide an on-site coordinator to be accessible to the National Park Service and the United States Park Police personnel at all times during construction or set-up activities and during dismantling of facilities post-event.

18. All vendors involved in the construction and teardown must have some form of identification.
SPECIFIC CONDITIONS FOR ALL STRUCTURES, GENERATORS AND PORTABLE TOILETS.-WASHINGTON MONUMENT GROUNDS-NORTH SIDE

The PIC is required to meet OSHA guidelines regarding employee/subcontractor work schedules. No employee/subcontractor is to work no more than 10 hours within a 24 hour period. Any work required beyond the 10-hour limitation will need to be requested to the NPS in advance for review and approval by the Superintendent, National Mall and Memorial Parks.

Set up on the Washington Monument Grounds, northeast quadrant: See attached diagram.

- One (1) LED screen on truck trailer
- Two (2) delay towers
- Forty (40) portable restrooms
- One (1) GSI food cart and supply truck

Set up on the Washington Monument Grounds, northwest quadrant: See attached diagram

- One (1) 40′x60′ volunteer tent anchored by water barrels
- One (1) tow plant generator
- Under tent:
  - Two (2) 40kw heaters
  - Two (2) flood lights dual 300w with 50′ of cord
  - Fifteen (15) 8′ rectangular tables
  - Thirty (30) 8′x18′ conference tables
  - 225 chairs

Prior to any set up, permittee is required to contact the Division of Permits Management (202) 245-4715, during normal business hours, to make arrangements for NPS personnel to meet on-site to review the permit the requirements and conduct all required inspections.

Permittee is responsible for supervising their contractors during set-up and teardown to assure there is no damage to park resources.

Event Schedule:

Northeast Quadrant:

Hard interlocking roadway surfaces was delivered on Sunday, January 13, 2013

January 16 – January 18: Set-up: 8:00 am – 5:00 pm

January 21 Event, 11:00 am – 1:00 pm

Teardown January 22 – 23, 8:00 am – 5:00 pm daily
Northwest Quadrant:

January 20: Set up, 8:00 am – 10:00 am

January 21: Event, 4:00 am – 11:00 am

January 22: Tear Down, 8:00 am – 12:00 pm

1. Restrooms must be locked while not in use and generators must be secured by bike rack and/or fencing. The permittee and/or its contractor will be required to provide unarmed 24-hour security to monitor all equipment and structures daily.

2. All metal parts, or fiberglass-like structural components, of facilities shall be separated from masonry or ground with not less than one foot square of 3/4" inch unpainted plywood and/or heavy duty interlocking plastic material.

3. The permittee shall be responsible for any damage including stains created by installing the above facilities. Any stains created shall be removed at the expense of the permittee. To avoid or minimize any potential damage, it is recommended that galvanized steel or pre-painted components be used. If on-site painting is required, the sidewalks and plaza areas must be properly protected.

4. All trash, debris, and litter resulting from activities of this permit shall not be allowed to accumulate and shall be bagged and placed on or next to trash receptacles or removed from the site.

5. Pursuant to 36 CFR 7.96(g)(5)(xiii), 2.31(a)(2),(3) the destruction, defacement, damaging, alteration, or removal of park resources or facilities is prohibited. No item, including signs or banners, may be attached to park trees, plantings, benches, statues, walls, fences, or other park property.

6. Generator Use & Refueling: Permittee will use generators for electrical power sources. Generators must be placed on fire retardant, self-absorbent troughs enclosed by bike rack.

   Refueling of the gasoline generators will be permitted pursuant to the following conditions:

   a. Refueling will only be allowed on dates and times agreed upon in advance with the NPS.

   b. The following materials must be placed on the ground during refueling:

      1. Plastic tarp
      2. Absorbent material on top of tarp
3. Drip pan under fueling nozzle
4. Spill containment material or absorbent booms or pads must be stored at each generator location
5. 55-gallon drum labeled hazardous material must be placed along side of each generator. Should spillage occur the absorbent material must be placed in these barrels
6. Contractor will be responsible for removing the barrels off of park property
7. Contractor will be responsible for any damage to the park’s resources as a result of the refueling.
8. In case of spill please contact DC Fire and Emergency Medical Services at 911 and National Mall & Memorial Parks’ Chief of Maintenance at (202) 359-1551.

The storage of fuel on parkland, in trailers, next to generators and at other NPS locations is strictly prohibited.

7. Sound Amplification:

Special attention is drawn to the last sentence, item #7, last page of this permit, concerning sound amplification. Noise level must not intrude upon surrounding area and upon others in the park not involved with the event.

8. Vehicle access onto the Washington Monument grounds

With a United States Park Police access pass, vehicular access to the Washington Monument grounds via the gravel drive off 15th Street (for the northeast quadrant) and via the north center sidewalk along 17th Street (for the northwest quadrant) onto the permittee’s hard interlocking roadway surface for set-up, event, and tear down will be allowed on a reasonable basis to be monitored by the National Park Service and the United States Park Police. Access passes must be obtained in advance through Sgt. Jim Murphy, United States Park Police, 202-610-7092. Vehicles without an access pass will not be permitted into the area. Permittee will provide personnel to be responsible for monitoring all access. Driving on the grass is strictly prohibited.

All logistical vehicles, must use extreme caution on the grounds. In addition, personnel must walk with the truck for safety of pedestrians on the walkways. No driving nor parking allowed on the grass at any time. All equipment must be hand-carried/hand-carted to event site. All vehicles must park in designated available public spaces. Speed must be kept to 5 MPH or lower at all times.

9. Signs & Commercial Advertising:

NPS regulations generally prohibit Federal parkland from being used for business solicitation or for the advertisement or promotion of commercial brands, products, and services. As such, no commercial notices and advertisements shall be placed, posted, or distributed at the event. Further, no structures representing commercial products, or models or replications of commercial products or merchandise may be displayed.
Further, consistent with long-standing NPS policy now under Public Law 108-108, Title I, § 145, special event permits will expressly prohibit the erection, placement, or use of structures and signs bearing commercial advertising. However, a permit may be issued that authorizes the recognition of sponsors of special events, if the NPS determines that the size and form of the recognition is consistent with the special nature and sanctity of the National Mall or any other requested park area, and if the lettering or design identifying the sponsor is no larger than one-third the size of the lettering or design identifying the special event. Further, to the maximum extent practicable for such special events, public use of and access to the National Mall and other parkland is not to be restricted.

The Permitee shall submit a sign plan for NPS review and approval. Any request seeking NPS approval for sponsor recognition must be submitted to the NPS days prior to the proposed event, and be depicted on the sign plan. If approved by the NPS, sponsor recognition will be authorized within the terms of the special event permit. Authorized sponsor recognition must be in keeping with NPS policy, regulations, and law, and be appropriate to the scale and theme of the special event. Further, the overall size, number, and design of any signs or banners shall be appropriate to the park setting and the lettering or design identifying the sponsor must be no larger than one-third the size of the lettering or design identifying the special event. Signs and banners may not be affixed to existing trees or other NPS facilities or structures.

Soliciting personal information such as names, addresses, telephone numbers, zip codes, etc., or any other such information which may be used for future solicitation or marketing purposes, is strictly prohibited.

The distribution or give-away of a commercial product may be allowed, if it is something that may be consumed at the event site such as pre-packaged juices or popcorn.

10. **Overnight Security:**

Permittee provide security during non-event hours. Security must be unarmed. Coordinate security needs with Sgt. Jim Murphy, U. S. Park Police, 202-610-7092. Permittee is responsible for reading and adhering to the camping regulation stated below.

**CAMPING IS PROHIBITED.** Camping is defined as the use of the park land for living accommodation purposes such as sleeping activities, or making preparations to sleep (including the laying down or bedding for the purpose of sleeping), or storing personal belongings, or making any fire, or using any tents or shelter or other structure or vehicle for sleeping or doing any digging or earth breaking or carrying on cooking activities. The above-listed activities constitute camping when it reasonably appears, in light of all the circumstances, that the participants, in conducting these activities, are in fact using the area as a living accommodation regardless of the intent of the participants or the nature of any other activities in which they may also be engaging.
11. **First Aid:**

It is recommended that you consider the guidelines of the District of Columbia Department of Emergency Medical Services, who recommends for large-scale events that involve between 20,000-30,000 participants, that organizers have (1) a fixed First Aid site with certified/licensed personnel who will remain on-site throughout the event (2) a licensed Basic Life Support Ambulance and (3) a Licensed Advanced Life Support Unit (both licensed in the District of Columbia). And for large-scale events that involve between 30,000-50,000 participants, that organizers have (1) two (2) fixed first aid sites with certified/licensed personnel who will remain on site throughout the event (2) two (2) Basic Life Support units and (3) one (1) Advanced Life Support units (both licensed in the District of Columbia). Contact the Department of Fire and Emergency Medical Services Special Events Coordinator at 202-673-3310 for further information.

12. **Cabling:**

All cables must be covered with matting or placed in yellow jackets to prevent tripping hazards. Absolutely **NO** cables, phone lines, etc. permitted on lamp post or thru tree lines.

13. **Resource Protection:**

Heavy equipment must be unloaded/loaded from the pull off zone along 15th Street and on the permittee’s hard interlocking roadway on the grounds. No driving nor parking on the grass or walkways allowed (Gators/golf carts will not be allowed on the grass). In the event forklifts, front end loader, and/or vehicles must be used, an interlocking hard plastic road surface must be placed on the grass for vehicle use. Prior approval of interlocking hard plastic material must be obtained from the NPS Person In Charge. The interlocking hard plastic surface must be placed underneath all wheeled equipment used, such as the generator truck, LED screen trailer wheels if any, and the supply truck. Speed of all vehicles including golf carts and gators must be kept at 5 MPH or lower at all times. All drivers must have a valid driver’s license and keys must not be left in the ignitions or vehicle will be taken. Any speeding vehicles will be removed from the permitted area and driver will not be allowed to drive any other vehicle.

**Permittee must have a representative on-site during set-up and tear down of equipment to monitor the vendors.**

The permittee shall require all employees and or contractors to exercise all normal and reasonable safety precautions and to protect park property. Suitable devices such as barricades, fences, lanterns, etc. necessary for employee and public safety, shall be provided and adequately maintained.

Pursuant to 36 CFR 7.96(g) (xiii) the alternation, damage, or removal of park resources or facilities is prohibited. No item, including signs or banners, may be attached to park trees, plantings, benches, or other park property. **See also** D. C. Code 22-3312.01 and 18 U.S.C. 1361.
Contact Mr. Jorge Alvarez Deputy Chief of Maintenance, 202-245-4663, regarding waterlines on the Washington Monument grounds.

**Additional Conditions:**

14. Permittee is responsible for providing all necessary equipment / objects to conduct this activity. All equipment must be removed from the park immediately following the conclusion of the event on January 21, 2013. Items left in the park will be considered abandoned property and will not be the responsibility of the National Park Service.

15. Balloons, glass beverage containers and alcoholic beverages are prohibited on park land.

16. The permittee will be responsible for any injuries and/or damage to government property occurring as a result of this permitted activity.

17. Portable restrooms: Must be placed along the edge of the grass outside any tree drip line. Delivery will be made via the north sidewalk of the Washington Monument grounds, dropped and hand carted into place. Restrooms must be placed with a so as with every fifth restroom there is a six foot opening for emergency access. Restrooms may be placed back to back.

18. A copy of this permit must be carried at all times by the permittee while operating under the authority granted. A COPY OF THIS PERMIT MUST BE ON-SITE WHILE UNDER THE AUTHORITY GRANTED

19. Just as in the 2005 and 2009 Inaugurations, we anticipate that there will be a security sweep of all of Pennsylvania Avenue National Historic Park the early morning of January 21, 2013, at which time the area will be closed. After the area is clear from the sweep permittee, participants and the general public will have access to the area.

IN REPLY REFER TO:  
PRESIDENTIAL INAUGURAL CEREMONIES PERMIT

JANUARY 15, 2013  
PERMIT #13-2

(LED SCREEN, GSI CART & SUPPLY TRUCK, TENT, SOUND TOWERS,  
GENERATORS, SUPPLY POD, AND PORTABLE RESTROOMS - PLACEMENT AND REMOVAL)

In accordance with the Presidential Inaugural Ceremonies Act and National Park Service regulations, permission is granted for the following:

Person(s) and/or Organization(s): PRESIDENTIAL INAUGURAL COMMITTEE

Date(s): 01/13/13 To: 01/23/13

Time: Starting: 8:00 A.M. Ending: 6:00 P.M.

Location(s): WASHINGTON MONUMENT GROUNDS, NORTH SIDE.

Purpose(s) LED SCREEN, TENTS, POD, FOOD SERVICE, GENERATORS AND PORTABLE RESTROOMS FOR PRESIDENTIAL INAUGURAL SWEARING IN CEREMONY SPILL OVER AREA

Anticipated Number of Participants: Viewing Public (90,000) ±

Person(s) in Charge: KATHYRN MINOR

Address(es): 330 C Street, SW, Washington, D.C. 20201

Telephone Nos. Day: 202-607-6768

This permit is granted subject to the following conditions and may be amended by the National Park Service to reflect changes to conditions.

This permit authorizes the construction and/or placement of an LED screen, generators, portable toilets, first aid tent, GSI cart and supply truck, pod and sound towers in support of the Inaugural
swearing in ceremony in the spill over area of the north side of the Washington Monument grounds.

Based on the size and scope of this event PIC will provide the NPS with a cost recovery deposit in the form of an irrevocable letter of credit or cash deposit in an amount to be determined later for all activities held on National Park land associated with the National Day of Service, and Presidential Inauguration activities.

This cost recovery deposit will be used to cover costs of restoration and rehabilitation of NPS resources and any unbudgeted National Park Service operating costs.

The permittee agrees to be fully responsible for the management, performance, use and safety within the permit area involved in this authorization until the work is completed, inspected, and accepted. The permittee hereby agrees to accept responsibility and assume liability for any and all tort claims arising from the actions or omissions of its representatives or employees directly or indirectly connected with the work performed, the maintenance of, or the use of this facility to the greatest extent permitted by law. To the extent that the work is performed by non-Governmental persons or organizations, the permittee shall require such persons or organizations to:

a. Procure public and employee liability insurance from responsible companies with a minimum limitation of $2,000,000 per person for any one claim and an aggregate limit of $5,000,000 for any number of claims arising from any one incident. The United States of America shall be named as an additional insured on all such policies. The permit number will be included on said policy. All such policies shall specify that the insured shall have no right of subrogation against the United States for payments of any premiums or deductibles, thereunder, and such insurance policies shall be obtained by, be for the account of, and be at the insured's sole risk.

b. Pay the United States the full value of any damages to the lands or other property of the United States caused by any omission or activity in connection with this permit.

c. Indemnify, save and hold harmless and defend the United States against all fines, claims, damages, losses, judgments and expenses arising out of, or from any omission or activity in connection with this permit.

This permit is being issued to the PIC with the provision to allow the erection of an LED screen, generators, portable toilets, first aid tent, GSI food cart, supply pod and truck, and sound tower, prior to PIC fulfilling its obligation of providing the cost recovery bond and certificate of insurance prior to the start of any additional work on parkland associated with this permit.

Permission for placement of the LED screen, generators and portable toilets, tent, cart and sound tower, is granted based on the attached layout diagrams for all areas referenced in this permit.
GENERAL CONDITIONS

1. Permittee and all participants authorized therein must comply with all of the conditions of this permit and with all reasonable directions of the National Park Service and United States Park Police personnel.

2. All sidewalks, walkways, and roadways must remain unobstructed during the construction activities to allow for the reasonable use of these areas by pedestrians, vehicles, and other park visitors.

3. Prior to beginning construction or placement of all facilities, PIC's contractors or agents will contact or Ms. Robbin Owen, Deputy NPS Inaugural Coordinator or Leonard Lee, Liaison Officer, NPS Inaugural Coordinator, (202) 691-2346 to coordinate specific logistical requirements. Permittee and its representatives will follow instructions provided by these individuals with regard to accessing park property and will take all precautions to protect park resources.

4. All requests, correspondence and meetings with the National Park Service pertaining to this permit shall be scheduled by the permittee only. All contractors, subcontractors or consultants must channel their requests through the recognized representatives of the permittee, who in turn will contact the National Park Service.

5. The permittee shall insure that all logistical equipment/structures placed on park property adhere to all applicable codes, standards, and regulations including but not limited to BOCA, OSHA, USPHS, and ADA, covering requirements including but not limited to safe construction practices and grounding of bleachers.

6. All activities pursuant to this permit shall be in compliance with the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252; 42 U.S.C. 200d ed seg.); Title V, Section 504 of the Rehabilitation Act of 1973 (87 Stat. 394; 29 U.S.C. 794); the Age Discrimination Act of 1975 (89 Stat. 728; 42 U.S.C. 6101 et seg.); and with all other Federal laws and regulations prohibiting discrimination on grounds of race, color, national origin, handicap, religion, or sex in employment and in providing facilities and services to the public. Nothing in advertising for employees shall be done which will prevent those covered by these laws from qualifying for employment.

7. The permittee shall require all employees and/or contractors to exercise all normal and reasonable safety precautions and to protect park visitors and property. Suitable devices such as barricades, fences, lanterns, etc. necessary for employee and public safety, shall be provided and adequately maintained. Such devices require the concurrence of the NPS Deputy Inaugural Coordinator or designated representative.
8. Throughout the course of this permit, the P.I.C. is responsible for taking all necessary precautions to minimize resource damage throughout the permitted area. In addition, permittee must supervise their contractors and employees during set-up and teardown to assure that there is no damage to park resources.

9. No wires or cables are to be attached to trees or other vegetation or flown aerially. Any wires or cables required in support of permitted activities must be run on the ground, in troughs or yellow jackets, to prevent tripping hazards.

10. All laws, rules and regulations applicable to the area covered by this permit remain in effect.

11. The permittee shall be responsible for the cost and repairs to any structures, facilities, roadways, sidewalks, infrastructures, sod, soils, or landscape vegetation on park land damaged by the work authorized under this permit.

12. The area must be left in substantially the same condition as it was prior to the activities authorized herein, and all litter shall be placed in the trash containers provided.

13. This permit is applicable only for the use of the areas designated above, and during the times designated above. All structures, generators and portable toilets, constructed or placed under this permit will be removed prior to January 26, 2013.

14. The National Park Service reserves the right to immediately revoke this permit at any time should it reasonably appear that the activity presents a clear and present danger to the public safety, good order or health, or if any conditions of this permit are violated.

15. A copy of this permit shall be available on site for inspection by National Park Service and United States Park Police personnel.

16. All proposed amendments or additions to this permit and all proposed locations of vehicles, equipment, storage, installations of any kind, areas of activity, work and power plans shall be submitted to the NPS for prior written approval prior to the installation of facilities. These proposals shall be in map or diagram form suitable for on the ground inspection.

17. Permittee will provide an on-site coordinator to be accessible to the National Park Service and the United States Park Police personnel at all times during construction or set-up activities and during dismantling of facilities post-event.

18. All vendors involved in the construction and teardown must have some form of identification.
SPECIFIC CONDITIONS FOR ALL STRUCTURES, GENERATORS AND PORTABLE TOILETS, -WASHINGTON MONUMENT GROUNDS-NORTH SIDE

The PIC is required to meet OSHA guidelines regarding employee/subcontractor work schedules. No employee/subcontractor is to work no more than 10 hours within a 24 hour period. Any work required beyond the 10-hour limitation will need to be requested to the NPS in advance for review and approval by the Superintendent, National Mall and Memorial Parks.

Set up on the Washington Monument Grounds, northeast quadrant: See attached diagram.

- One (1) LED screen on truck trailer
- Two (2) delay towers
- Three hundred (300) portable restrooms
- One (1) GSI food cart and supply truck

Prior to any set up, permittee is required to contact the Division of Permits Management (202) 245-4715, during normal business hours, to make arrangements for NPS personnel to meet on-site to review the permit the requirements and conduct all required inspections.

Permittee is responsible for supervising their contractors during set-up and teardown to assure there is no damage to park resources. Tent staking cannot be placed more than 18" into the ground. Coordinate tent placement prior to the event with Mr. Sean Kennealy at 202-245-4661.

Event Schedule: SEE ATTACHED

Hard interlocking roadway surfaces was delivered on Sunday, January 13, 2013

January 16 – January 18: Set-up: 8:00 am – 5:00 pm

January 21 Event, 11:00 am – 1:00 pm

Teardown January 22 – 25, 8:00 am – 5:00 pm daily

1. Restrooms must be locked while not in use and generators must be secured by bike rack and/or fencing. The permittee and/or its contractor will be required to provide unarmed 24-hour security to monitor all equipment and structures daily.

2. All metal parts, or fiberglass-like structural components, of facilities shall be separated from masonry or ground with not less than one foot square of 3/4" inch unpainted plywood and/or heavy duty interlocking plastic material.

3. The permittee shall be responsible for any damage including stains created by installing the above facilities. Any stains created shall be removed at the expense of the permittee. To avoid or minimize any potential damage, it is recommended that galvanized steel or pre-painted
components be used. If on-site painting is required, the sidewalks and plaza areas must be properly protected.

4. All trash, debris, and litter resulting from activities of this permit shall not be allowed to accumulate and shall be bagged and placed on or next to trash receptacles or removed from the site.

5. Vehicles, with the exception of the placement of the JTFIC trailers, will not be permitted on the sidewalk along Pennsylvania Avenue. All unloading and loading of equipment must be done from the street.

6. Pursuant to 36 CFR 7.96(g)(5)(xiii), 2.31(a)(2),(3) the destruction, defacement, damaging, alteration, or removal of park resources or facilities is prohibited. No item, including signs or banners, may be attached to park trees, plantings, benches, statues, walls, fences, or other park property.

7. Generator Use & Refueling: Permittee will use generators for electrical power sources. Generators must be placed on fire retardant, self-absorbent troughs enclosed by bike rack.

Refueling of the gasoline generators will be permitted pursuant to the following conditions:

a. Refueling will only be allowed on dates and times agreed upon in advance with the NPS.

b. The following materials must be placed on the ground during refueling:

   1. Plastic tarp
   2. Absorbent material on top of tarp
   3. Drip pan under fueling nozzle
   4. Spill containment material or absorbent booms or pads must be stored at each generator location
   5. 55-gallon drum labeled hazardous material must be placed along side of each generator. Should spillage occur the absorbent material must be placed in these barrels
   6. Contractor will be responsible for removing the barrels off of park property
   7. Contractor will be responsible for any damage to the park's resources as a result of the refueling.
   8. In case of spill please contact DC Fire and Emergency Medical Services at 911 and National Mall & Memorial Parks' Chief of Maintenance at (202) 359-1551.

The storage of fuel on parkland, in trailers, next to generators and at other NPS locations is strictly prohibited.
8. **Sound Amplification:**

Special attention is drawn to the last sentence, item #7, last page of this permit, concerning sound amplification. Noise level must not intrude upon surrounding area and upon others in the park not involved with the event.

9. **Vehicle access onto the Washington Monument grounds**

With a United States Park Police access pass, vehicular access to the Washington Monument grounds via the gravel drive off 15th Street onto the permittee’s hard interlocking roadway surface for set-up, event, and tear down will be allowed on a reasonable basis to be monitored by the National Park Service and the United States Park Police. Access passes must be obtained in advance through Sgt. Jim Murphy, United States Park Police, 202-610-7092. Vehicles without an access pass will not be permitted into the area. Permittee will provide personnel to be responsible for monitoring all access. Driving on the grass is strictly prohibited.

All logistical vehicles, must use extreme caution on the grounds. In addition, personnel must walk with the truck for safety of pedestrians on the walkways. No driving nor parking allowed on the grass at any time. All equipment must be hand-carried/hand-carted to event site. All vehicles must park in designated available public spaces. Speed must be kept to 5 MPH or lower at all times.

10. **Signs & Commercial Advertising:**

NPS regulations generally prohibit Federal parkland from being used for business solicitation or for the advertisement or promotion of commercial brands, products, and services. As such, no commercial notices and advertisements shall be placed, posted, or distributed at the event. Further, no structures representing commercial products, or models or replications of commercial products or merchandise may be displayed.

Further, consistent with long-standing NPS policy now under Public Law 108-108, Title I, § 145, special event permits will expressly prohibit the erection, placement, or use of structures and signs bearing commercial advertising. However, a permit may be issued that authorizes the recognition of sponsors of special events, if the NPS determines that the size and form of the recognition is consistent with the special nature and sanctity of the National Mall or any other requested park area, and if the lettering or design identifying the sponsor is no larger than one-third the size of the lettering or design identifying the special event. Further, to the maximum extent practicable for such special events, public use of and access to the National Mall and other parkland is not to be restricted.

The Permittee shall submit a sign plan for NPS review and approval. Any request seeking NPS approval for sponsor recognition must be submitted to the NPS days prior to the proposed event, and be depicted on the sign plan. If approved by the NPS, sponsor recognition will be authorized within the terms of the special event permit. Authorized sponsor recognition must be in keeping
with NPS policy, regulations, and law, and be appropriate to the scale and theme of the special event. Further, the overall size, number, and design of any signs or banners shall be appropriate to the park setting and the lettering or design identifying the sponsor must be no larger than one-third the size of the lettering or design identifying the special event. Signs and banners may not be affixed to existing trees or other NPS facilities or structures.

Soliciting personal information such as names, addresses, telephone numbers, zip codes, etc., or any other such information which may be used for future solicitation or marketing purposes, is strictly prohibited.

The distribution or give-away of a commercial product may be allowed, if it is something that may be consumed at the event site such as pre-packaged juices or popcorn.

11. **Overnight Security:**
Permittee provide security during non-event hours. Security must be unarmed. Coordinate security needs with Sgt. Jim Murphy, U. S. Park Police, 202-610-7092. Permittee is responsible for reading and adhering to the camping regulation stated below.

CAMPING IS PROHIBITED. Camping is defined as the use of the park land for living accommodation purposes such as sleeping activities, or making preparations to sleep (including the laying down or bedding for the purpose of sleeping), or storing personal belongings, or making any fire, or using any tents or shelter or other structure or vehicle for sleeping or doing any digging or earth breaking or carrying on cooking activities. The above-listed activities constitute camping when it reasonably appears, in light of all the circumstances, that the participants, in conducting these activities, are in fact using the area as a living accommodation regardless of the intent of the participants or the nature of any other activities in which they may also be engaging.

12. **First Aid:**
It is recommended that you consider the guidelines of the District of Columbia Department of Emergency Medical Services, who recommends for large-scale events that involve between 20,000-30,000 participants, that organizers have (1) a fixed First Aid site with certified/licensed personnel who will remain on-site throughout the event (2) a licensed Basic Life Support Ambulance and (3) a Licensed Advanced Life Support Unit (both licensed in the District of Columbia). And for large-scale events that involve between 30,000-50,000 participants, that organizers have (1) two (2) fixed first aid sites with certified/licensed personnel who will remain on site throughout the event (2) two (2) Basic Life Support units and (3) one (1) Advanced Life Support units (both licensed in the District of Columbia). Contact the Department of Fire and Emergency Medical Services Special Events Coordinator at 202-673-3310 for further information.

13. **Cabling:**
All cables must be covered with matting or placed in yellow jackets to prevent tripping hazards. Absolutely **NO** cables, phone lines, etc. permitted on lamp post or thru tree lines.
14. Resource Protection:

Heavy equipment must be unloaded/loaded from the pull off zone along 15th Street and on the permittee’s hard interlocking roadway on the grounds. No driving nor parking on the grass or walkways allowed (Gators/golf carts will not be allowed on the grass). In the event forklifts, front end loader, and/or vehicles must be used, an interlocking hard plastic road surface must be placed on the grass for vehicle use. Prior approval of interlocking hard plastic material must be obtained from the NPS Person In Charge. The interlocking hard plastic surface must be placed underneath all wheeled equipment used, such as the generator truck, LED screen trailer wheels if any, and the supply truck. Speed of all vehicles including golf carts and gators must be kept at 5 MPH or lower at all times. All drivers must have a valid driver’s license and keys must not be left in the ignitions or vehicle will be taken. Any speeding vehicles will be removed from the permitted area and driver will not be allowed to drive any other vehicle.

Permittee must have a representative on-site during set-up and tear down of equipment to monitor the vendors.

The permittee shall require all employees and or contractors to exercise all normal and reasonable safety precautions and to protect park property. Suitable devices such as barricades, fences, lanterns, etc. necessary for employee and public safety, shall be provided and adequately maintained.

Pursuant to 36 CFR 7.96(g) (xiii) the alteration, damage, or removal of park resources or facilities is prohibited. No item, including signs or banners, may be attached to park trees, plantings, benches, or other park property. See also D. C. Code 22-3312.01 and 18 U.S.C. 1361.

Contact Mr. Jorge Alvarez Deputy Chief of Maintenance, 202-245-4663, regarding waterlines on the Washington Monument grounds.

Additional Conditions:

15. Permittee is responsible for providing all necessary equipment / objects to conduct this activity. All equipment must be removed from the park immediately following the conclusion of the event on January 21, 2013. Items left in the park will be considered abandoned property and will not be the responsibility of the National Park Service.

16. Balloons, glass beverage containers and alcoholic beverages are prohibited on park land.

17. The permittee will be responsible for any injuries and/or damage to government property occurring as a result of this permitted activity.

18. Portable restrooms: Must be placed along the edge of the grass outside any tree drip line. Delivery will be made via the north sidewalk of the Washington Monument grounds, dropped and
hand carted into place. Restrooms must be placed with a so as with every fifth restroom there is a six foot opening for emergency access. Restrooms may be placed back to back.

19. A copy of this permit must be carried at all times by the permittee while operating under the authority granted. **A COPY OF THIS PERMIT MUST BE ON-SITE WHILE UNDER THE AUTHORITY GRANTED**

20. Just as in the 2005 and 2009 Inaugurations, we anticipate that there will be a security sweep of all of Pennsylvania Avenue National Historic Park the early morning of January 21, 2013, at which time the area will be closed. After the area is clear from the sweep permittee, participants and the general public will have access to the area.

Washington, D.C. 20242

IN AUGURAL CEREMONIES PERMIT

PERMIT NUMBER 13-3 (AMENDMENT A) DATE: 01/12/13

(TRAILERS, VIDEO SCREENS, SOUND TOWERS, MEDIA STANDS, FIRST AID TENTS, VOlUNTEER AND CONCESSION TENTS, PARADE PARTICIPANTS AND REUNIFICATION TENTS, GENERATORS, PORTABLE RESTROOMS, DUMPSTERS, RECYCLING CONTAINERS, VEHICLE AND PEDESTRIAN GROUND PROTECTION - INSTALLATION AND REMOVAL)

In accordance with the Presidential Inaugural Ceremonies Act and National Park Service regulations, permission is granted for the following:

Person(s) and/or Organization(s): PRESIDENTIAL INAUGURAL COMMITTEE
Date(s): 01/12/13 To: 02/08/13
Time: Starting: 12:01 A.M. Ending: 11:59 P.M.

Location(s): NATIONAL MALL BETWEEN 4TH AND 14TH STREETS, MADISON AND JEFFERSON DRIVES AND THEIR EXTERIOR ADJACENT SIDEWALKS, AND WASHINGTON MONUMENT GROUNDS

Purpose(s) TEMPORARY STRUCTURES AND FACILITIES PLACEMENT FOR 57TH PRESIDENTIAL INAUGURAL CEREMONIES - TO INCLUDE THE NATIONAL DAY OF SERVICE, PUBLIC SWEARING-IN CEREMONY AND PARADE VIEWING

Anticipated Number of Participants: (500-500,000+)

Person(s) in Charge: David Cusack, Inaugural Executive Director

Address(es): 330 C Street, SW, Washington, D.C. 20201

Telephone Nos. Day: 202-640-1538

This permit is granted subject to the following conditions and may be amended by the National Park Service to reflect changes to conditions.

This permit authorizes the construction and/or placement of trailers, tents, video screens, sound towers, media platforms and portable toilets, in support of the Presidential Inaugural National Day of Service, the Swearing-In Ceremony and Parade, in viewing areas on the National Mall, between 4th and 14th Streets and the Washington Monument grounds.
Based on the size and scope of this event, PIC will provide the NPS with a cost recovery deposit in the form of an irrevocable letter of credit or cash deposit in the amount of $1,000,000, which must be received by January 16, 2013, for all activities held on National Park land associated with the National Day of Service, the Swearing-In Ceremony and Parade viewing on the National Mall and its environs.

This cost recovery deposit will be used to cover costs of restoration and rehabilitation of NPS resources and any unbudgeted National Park Service operating costs. If unbudgeted costs exceed the amount of the cost recovery deposit, a bill of collection will be issued seeking additional monies to satisfy the costs incurred by the National Park Service. In the event that the costs are less than the estimated costs, monies will be refunded to the PIC.

The Permittee agrees to be fully responsible for the management, performance, use and safety within the permit area involved in this authorization until the work is completed, inspected, and accepted. The Permittee hereby agrees to accept responsibility and assume liability for any and all tort claims arising from the actions or omissions of its representatives or employees directly or indirectly connected with the work performed, the maintenance of, or the use of this facility to the greatest extent permitted by law. To the extent that the work is performed by non-Governmental persons or organizations, the Permittee shall require such persons or organizations to:

a. Procure public and employee liability insurance from responsible companies with a minimum limitation of $2,000,000 per person for any one claim and an aggregate limit of $5,000,000 for any number of claims arising from any one incident. The United States of America shall be named as an additional insured on all such policies. The permit number will be included on said policy. All such policies shall specify that the insured shall have no right of subrogation against the United States for payments of any premiums or deductibles, thereunder, and such insurance policies shall be obtained by, be for the account of, and be at the insured's sole risk.

b. Pay the United States the full value of any damages to the lands or other property of the United States caused by any omission or activity in connection with this permit.

c. Indemnify, save and hold harmless and defend the United States against all fines, claims, damages, losses, judgments and expenses arising out of, or from any omission or activity in connection with this permit.

This permit is being issued to the PIC with the provision to allow the installation of the trailers, media stands, sound towers, video screens, tents, generators and portable toilets, prior to PIC fulfilling its obligation of providing the cost recovery deposit and certificate of insurance prior to the start of any work on parkland associated with this permit.

Permission for placement of the trailers, video screens, sound towers, media platforms, tents, generators and portable toilets, is granted based on the attached layout diagram for all areas referenced in this permit.
GENERAL CONDITIONS:

Permittee and all participants authorized therein must comply with all of the conditions of this permit and with all reasonable directions of the National Park Service and United States Park Police personnel.

All sidewalks, walkways, and roadways must remain unobstructed during the construction activities to allow for the reasonable use of these areas by pedestrians, vehicles, and other park visitors.

Prior to beginning construction or placement of all facilities, PIC's contractors or agents will contact Ms. Robbin Owen, Deputy Inaugural Coordinator or Leonard Lee, Assistant Deputy Inaugural Coordinator, (202) 691-2352 to coordinate specific logistical requirements. Permittee and its representatives will follow instructions provided by these individuals with regard to accessing park property and will take all precautions to protect park resources.

All requests, correspondence and meetings with the National Park Service pertaining to this permit shall be scheduled by the Permittee only. All contractors, subcontractors or consultants must channel their requests through the recognized representatives of the Permittee, who in turn will contact the National Park Service.

The Permittee shall insure that all logistical equipment/structures placed on park property adhere to all applicable codes, standards, and regulations including but not limited to BOCA, OSHA, USPHS, and ADA, covering requirements including but not limited to safe construction practices and grounding of generators.

All activities pursuant to this permit shall be in compliance with the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252; 42 U.S.C. 200d ed seg.); Title V, Section 504 of the Rehabilitation Act of 1973 (87 Stat. 394; 29 U.S.C. 794); the Age Discrimination Act of 1975 (89 Stat. 728; 42 U.S.C. 6101 et seg.); and with all other Federal laws and regulations prohibiting discrimination on grounds of race, color, national origin, handicap, religion, or sex in employment and in providing facilities and services to the public. Nothing in advertising for employees shall be done which will prevent those covered by these laws from qualifying for employment.

The Permittee shall require all employees and/or contractors to exercise all normal and reasonable safety precautions and to protect park visitors and property. Suitable devices such as barricades, fences, lanterns, etc. necessary for employee and public safety, shall be provided and adequately maintained. Such devices require the concurrence of the NPS Deputy Inaugural Coordinator or designated representative.

Throughout the course of this permit, the P.I.C., its contractors and agents are responsible for taking all necessary precautions to minimize resource damage throughout the permitted area. In addition, Permittee must supervise their contractors and employees during set-up and teardown to assure that there is no damage to park resources.
No wires or cables are to be attached to trees or other vegetation or flown aerially. Any wires or cables required in support of permitted activities must be run on the ground, in troughs or yellow jackets, to prevent tripping hazards. Troughs covering pedestrian walkways must be ADA compliant.

All laws, rules and regulations applicable to the area covered by this permit remain in effect.

The Permittee shall be responsible for the cost and repairs to any structures, facilities, roadways, sidewalks, infrastructures, sod, soils, or landscape vegetation on park land damaged by the work authorized under this permit.

The area must be left in substantially the same condition as it was prior to the activities authorized herein, and all litter shall be placed in the trash containers provided.

This permit is applicable only for the use of the areas designated above, and during the times designated above. All trailers, video screens, sound towers, media stands, tents, generators and portable toilets, constructed or placed under this permit will be removed prior to February 9, 2013.

The National Park Service reserves the right to immediately revoke this permit at any time should it reasonably appear that the activity presents a clear and present danger to the public safety, good order or health, or if any conditions of this permit are violated.

A copy of this permit shall be available on site for inspection by National Park Service and United States Park Police personnel.

All proposed amendments or additions to this permit and all proposed locations of vehicles, equipment, storage, installations of any kind, areas of activity, work and power plans shall be submitted to the NPS for prior written approval prior to the installation of facilities. These proposals shall be in map or diagram form suitable for on the ground inspection.

Permittee will provide an on-site coordinator to be accessible to the National Park Service and the United States Park Police personnel at all times during construction or set-up activities and during dismantling of facilities post-event.

All staff, volunteers and vendors involved in the construction and teardown of the temporary structures must have some form of identification. The credentials will identify the person by name and category and include any event logo. Colored copies of all credentials will be provided to NPS and USPP in advance of the construction.

Due to the exceptional time and weather constraints associated with this permit and the complexity of multiple contractors bringing materials and equipment to park land, special attention is assigned to the requirement that the Permittee will at all times provide an on-site coordinator to be accessible to National Park Service and United States Park Police personnel during construction or set-up activities and during dismantling of facilities post-event.
SPECIFIC CONDITIONS FOR TRAILERS, MIDIA STANDS, VIDEO SCREENS, TENTS, GENERATORS AND PORTABLE TOILETOns, ON THE NATIONAL MALL:

The P.I.C. is required to meet OSHA guidelines regarding employee/subcontractor work schedules. No employee/subcontractor is to work no more than 10 hours within a 24 hour period. Any work required beyond the 10-hour limitation will need to be requested to the NPS in advance for review and approval by the Superintendent, National Mall and Memorial Parks.

All trailers and other temporary structures, must be at least (5) feet from ADA accessible ramps and must not block pedestrian access along the sidewalks and gravel walks.

All trailers and other temporary structures must be erected to allow access to building entrances and/or driveways at all times.

All portable toilets must be placed in groups of (5) or less, with a (6') clearance between each group.

The PIC is responsible for having its contractor secure all media stands while not in use. Trailers and restrooms must be locked while not in use and generators, light and sound towers must be secured by bike rack and/or fencing. The PIC and/or its contractor will be required to provide unarmed 24-hour security to monitor all equipment and structures daily.

All metal parts, or fiberglass-like structural components, of facilities shall be separated from masonry or ground with not less than one foot square of 3/4" inch unpainted plywood and/or heavy duty interlocking plastic material.

The Permittee shall be responsible for any injuries and/or damage to government property occurring as a result of this permitted activity, including stains created by installing the above facilities. Any stains created shall be removed at the expense of the Permittee. To avoid or minimize any potential damage, it is recommended that galvanized steel or pre-painted components be used. If on-site painting is required, the sidewalks and plaza areas must be properly protected.

Trailers, media stands, tents and other temporary structures, shall not be erected on/or over plants, planters, trees, tree wells, steps or statues.

All trash, debris, and litter resulting from activities of this permit shall not be allowed to accumulate and shall be bagged and placed on or next to trash receptacles or removed from the site.

The Permittee and all exhibitors may not load in any materials prior to the predetermined load in period.
Resource Protection:

Pursuant to 36 CFR 7.96(g)(vi)(C), 2.31(a)(2),(3) the destruction, defacement, damaging, alteration, or removal of park resources or facilities is prohibited. No item, including signs or banners, may be attached to park trees, plantings, benches, statues, walls, fences, or other park property.

To protect the resources, stages, stands and other facilities approved for placement on the grass center panels and gravel walkways between 7th and 14th Streets, must be supported by 3/4 inch plywood or similar material. Material to be used must be approved in advance by NPS.

Digging or trenching is prohibited on parkland in conjunction with a special event.

Throughout the course of this permit, the PIC will require its employees/volunteers, and contractors, to exercise special care and attention to protect the resources of the National Mall and its environs. In addition, the PIC must supervise their contractors and employees during set-up and teardown to assure that there is no damage to park resources. C3 Presents, have been identified as the PIC production representative.

Landscape:

Lawn, trees, shrubs, and the irrigation system, curbs, electric conduits, and water mains located within the National Mall permit area, shall be protected from adverse impacts associated with event activities.

Heavy Equipment Near Trees and Shrubs: Prior to construction activity, the NPS must approve the use of any heavy equipment (crane, backhoe, etc.) placed under or near trees or shrubs. Please note that approval for this type of activity is rare. If approval is granted, the permit holder must comply with a number of regulations. These include (but are not limited to) the application of 6" to 8" inches of wood chips (shredded or chipped hardwood, with particles not to exceed 1/2 x 6 inches, with uniform texture free from soil, stones, weeds, sticks, clay, or other materials undesirable for the intended or injurious to growth), on top of geotextile fabric. On top of the wood chips, a metal plate, or other rigid plates designed for this purpose (Duradeck or approved equivalent), shall be placed to distribute the load. Equipment must remain on top of the plate.

Turf Protection: For the purpose of protection, any area not paved shall be treated as lawn. No heavy equipment (cranes, backhoes, etc.), vehicles or stock piling of materials is permitted on turf areas without the approval of the NPS. Limited activity of this sort may only take place with prior, written approval from the NPS, in defined areas and with load spreading techniques.

The temporary covering of turf for events allows for pedestrian walkways, temporary flooring, structure, support, and vehicle access, with special permission from NPS.
Permittee is encouraged to secure products such as Terraplas, Terratile and Matrax LD or equal that is ADA-compliant, interlocking mats that are translucent and allow UV light to pass through to the grass below. The products must either be perforated or ribbed, allowing for ventilation and some moisture access to the turf below. Material to be used must be approved in advance by NPS.

**Vehicular access to turf areas between 7th & 14th Streets, will only be permitted per conditions listed below:**

Driving directly on all turf and tree panels is prohibited. Vehicles, forklifts, frontend loaders, or any other heavy duty equipment, moving heavy equipment on turf in this area must be supported by some form of heavy duty plastic material that clicks or snaps together to avoid movement of material and tripping hazards. The temporary interlocking protective material supports shall be installed in *(treed panels if permitted)*, over plazas, walkways, and turf areas for the ingress and egress of all vehicles/units or heavy equipment by the PIC. **Material to be used must be approved in advance by NPS**

Temporary turf cover materials used for vehicular travel (load-in and load-out) should be removed as soon as possible to prevent damage to turf.

Display vehicles, stored equipment, materials, etc., on turf or walkway areas shall be supported by 3/4 inch plywood or temporary interlocking protective material heavy enough to support the wheels and jacks of all vehicles/mobile units.

Parking of Permittee(s) employee’s or subcontractors private vehicles for conduct of this permit’s activities, in tree panels and/or on turf or walkway areas is prohibited.

**Site Furnishings:**

Permittee may not move or otherwise harm existing site furnishings, including but not limited to posts and chains, benches, waste receptacles, and drinking fountains. No attachments may be made to, pass through, or be affixed to existing site furnishings.

Additional temporary site furnishings may be provided by the Permittee; however, these furnishings must meet the guidelines set forth in this document. No permanent installation of site furnishings is permitted.

**Hard Surfaces:**

Temporary protection of all hard surfaces affected by the construction or erection of staging elements, sound towers, camera equipment, cranes, lighting structures, miscellaneous equipment, or scaffolding must be provided. All protective pads or cushioning devices shall be non-staining.

**Oil Or Hydraulic Fluid Leaks:** Temporary protection of hard surfaces shall be used where motorized vehicles are operating to avoid oil and/or hydraulic fluid leaks. Should a leak of this type occur, the permit holder shall be held liable for clean-up, at no expense to the NPS.
Structures-Center Panels-7th-14th Streets:

To protect the turf areas, it is strongly encouraged that structures be placed on the Mall’s hardscape areas where it would not impact the turf. The NPS may allow under permit the use of turf areas, however, if the structure and its equipment use the turf protection measures as detailed throughout this permit. All structures must minimize all points that come in contact with the turf.

All structures must be able to withstand a minimum wind gust of 90 mph.

All structures must follow the guidelines below and adhere to National Fire Protection Association codes.

Any temporary structure exceeding over 500 square feet require the submission of engineered drawings stamped by a structural engineer licensed in the United States. Drawings should include tent support lines identified by flagging.

Structures on the turf should be on a raiser with as few points as possible touching the turf. Each point that does touch the turf should have Enkamat Flatback 8 or equal product and plywood pads under all points as outlined:

Each screw jack should have a wooden pad and two layers of Enkamat Flatback \(^1\) or equal product, eighteen inches square (18”x18”)
Concrete pads should have four (4) layers of Enkamat Flatback or equal product
Under each concrete tower pad two (2) layers of plywood

All screws and fasteners used in the construction of structures should be policed during the build and retained during removal. Screws and fasteners should be made of a non-aluminum metal, enabling a post-event magnet sweep to ensure all pieces are removed from the site.

**Tents:** To protect the turf, tents should be located on hardscape surfaces including gravel, asphalt, concrete, granite, wood, etc. tents and other similar structures must be secured using cement blocks and/or water-filled ballast tanks. No stakes are permitted on hardscape surfaces.

Non-freezing, no-staining liquid approved by the NPS (water treated with bio-degradable antifreeze) in plastic containers shall be used as weighing elements. No sand bags are permitted for this purpose.

At takedown, all water filled ballast tanks must be pumped to the nearest catch basin (located within the curbs) or to the area drains located throughout the hardscape. Tanks may not be drained into the turf or pumped in gravel areas. This prevents creation of muddy puddles and soft areas in the turf and also limits runoff of gravel into area drains.
Footnote 8 Enkamat Flatback is a unique product designed for turf grass protection. Enkamat’s tightly interwoven flat upper layer can withstand the weight of thousands of people and staging equipment. Enkamat is a three-dimensional geomatrix of highly resilient, nylon monofilaments with are fused where they intersect. Ninety percent (90%) of the geomatrix is open space which allows for air and rain to pass freely through to the turf below. Enkamat comes in standard sizes of 39’x150’ and 15’x150’ and can be cut onsite into any shape or size.

If approval is granted by NPS, no tent stakes may penetrate the ground surface by more than 18 inches. Use of stakes longer than this requires coordination through the Chief of Facility Management, National Mall & Memorial Parks, at (202) 245-4685.

Tents must be constructed of fire retardant material. A certificate of fire retardant material must be provided as confirmation to the NPS.

Tents should be placed at least 5 to 10 feet apart.

Stages, Lighting, and Audio & AV Towers:

Stages, lighting trusses, video walls/screens and any scaffold towers used to support them must be constructed to conform to architectural plans stamped by a licensed structural engineer. Permittee is responsible for installing a barricade, bike rack and/or fencing around all lighting, audio and AV towers to secure them from the general public.

If authorized by permit stages may only have skirting on the audience-facing area and only during the event, to allow maximum light and air to reach the turf, thereby limiting damage.

Fencing:

Any fencing or other physical barriers planned for the event must be shown on the site plan and called out by type.

Fencing must be designed in such a way that it does not prevent safe egress from the event.

Fencing located on turf areas may not be staked into the ground unless authorized by permit. If authorized, stakes must be no longer than eighteen inches (18”) driven into the ground. Stakes must avoid all underground pipes and fixtures. In the event chain linked fencing is used, security barbed wire is prohibited.

Concrete barriers (such as jersey barriers) are permitted only on hardscape areas.

Tree protection fencing may be required as a condition of the permit.

Evening Work:

Evening work may be conducted for both load in and load out periods with prior permission by the Superintendent. For work conducted during evening hours a portable lighting system is required. In addition all motor vehicles including golf cart(s) must have lights. Generally night work is not allowed after 10:00 pm and prior to 6:00 am.
SPECIFIC CONDITIONS FOR USE OF MALL-CENTER PANELS 4TH TO 7TH STREETS:

**Structures on Turf Panels:** To protect the turf, neither structures nor parking or operation of equipment is permitted on turf panels. Event vehicles of any kind (delivery, cranes, forklifts, golf carts, trailers, exhibit trailers, etc.) are not allowed on turf or surrounding curbs. To accommodate use for the Presidential Inaugural Ceremonies and to protect against compaction and plant damage, turf protection, the use of matting that holds itself and any added loads such as foot traffic, above the crown of the grass blades, and does not sink into the ground is required.

For winter events that risk the chance of frozen turf, an open back flooring system should be used with a minimum underside open space of two inches (2") and support feet that will not cut into frozen turf. **The placement of pedestrian surfacing/flooring system in this area is limited to no more than three (3) days inclusive of set up and takes down, unless otherwise approved by the NPS.**

Turf protection flooring must be light weight, able to be carried and set in place without vehicular assistance.

Products such as Terraplas, or equal, must be ADA-compliant, with interlocking mats that are translucent and allow UV light to pass through to the grass below and perforated or ribbed to allow for ventilation and some moisture access to the turf below. The use of plywood for this purpose is strictly prohibited. Specific material used must be approved in advance by NPS.

No carpet or other obstructions to turf covering holes will be allowed.

The renovated turf areas between 4th and 7th Streets may require pre-event preparation and/or post-event restoration. PIC will be responsible for costs incurred by the NPS associated with the 57th Presidential Inaugural Ceremonies.

Depending upon the level of damages caused by these events, resodding may be required. To maximize the recovery efforts involved, work will not be performed until the spring of 2013.

**Structures on Tree Panels:** To minimize soil compaction and to protect the continued health of the trees, neither structures nor parking or operation of equipment, is permitted within any tree canopy (root zone) area or in any of the Tree Panels. This includes but is not limited to stages, booths, audio/visual towers, tents and lighting. As a condition of the permit, the Permittee may be required to install tree-protection fencing.

**Gravel Walkways:** To protect the resources, stages, stands and other facilities approved for placement on the gravel walkways between 4th and 14th Streets, must be supported by 3/4 inch plywood or similar material. **Material to be used must be approved in advance by NPS.**
Crate Storage and Bone Yards on the Mall:

Crate storage, bone yards and staging areas may never be located within the tree panels and turf panels; they must be located on hardscape areas or off-site.

Bone yards may not be located on Madison or Jefferson Drives.

Staging areas for pallets must be designated for set up and take down only. Off-site preparation and construction in bone yards is strongly encouraged. On-site staging areas are to be used for no more than two (2) days; staging and storage requiring lengths of greater than two (2) days must occur off-site.

Site Access – The Mall, 4th-14th Streets:

Commercial vehicle access to the National Mall, gravel walks/sidewalks for set-up, event, and tear down will be allowed on a reasonable basis to be monitored by NPS/USPP. Permittee is responsible for contacting Sgt. Jim Murphy, United States Park Police, (202) 610-7092, to acquire vehicle access passes for any commercial vehicles to access the Mall from the gravel walks.

Access onto the gravel walks will be from 4th Street and 7th Street. Logistical vehicles entering/exit ing the Mall are not permitted to enter/exit sidewalks from Madison Drive nor Jefferson Drive.

Extreme caution must be exercised when driving on the gravel walks/sidewalks. Pedestrian access must be maintained at all times, however, if for safety reasons, an area has to be temporarily closed to the public, the PIC will make their request to NPS for approval.

Except when being driven on established public vehicular roadways: Logistical equipment and vehicles, including gas and electric carts, must not exceed 5-mph. All trucks with a GVW of over 7500 pounds, and equipment such as bucket trucks, platform lifts, forklifts, and cranes, must be accompanied by a walking spotter when moving or operating in an area accessible to the public.

Vehicles must have headlights on while in motion. All individuals operating Golf Carts on NPS property must have a Valid Driver’s License. All Golf Carts operating after dusk, must have fixed and/or portable illumination.

No vehicle shall obstruct or interfere with the Martz Express transportation service which utilizes Jefferson Drive, between 14th and 12th Streets.

Temporary interlocking protective material supports shall be installed in turf panels for the ingress and egress of all vehicles/units or heavy equipment by the Permittee.

Parking of Permittee(s) employee’s or subcontractors private vehicles for conduct of this permit’s activities, in tree panels and/or on turf or walkway areas is prohibited.
The PIC must receive prior, written approval from the NPS/USPP if traffic is to be blocked at any time during preparation for, during the course of, and after a special event or demonstration (at any location in the immediate vicinity of the National Mall). If District of Columbia streets are to be blocked, the appropriate authorities must be notified as well.

**Emergency Access:**

All pathways and roadways must remain open and unobstructed. A minimum twenty foot (20') drive aisle must remain open at all times for emergency vehicle egress. No temporary or permanent structures may be located within the egress lane. The egress drive aisle must be called out on the site plan.

**Submittal Requirements:** A plan of how the site will be approached and how traffic will be controlled is required for logistical vehicles that are delivering and/or removing temporary equipment and supplies. In this submittal, information documenting the path of vehicular traffic in and around the roadways of the National Mall during preparation for, during the course of, and after all activities associated with the Presidential Inaugural, is required. Rules and regulations for District of Columbia streets also shall be observed. Signs directing vehicular and pedestrian traffic shall be furnished, with text and locations of signs indicated on the plan.

Deliveries and removal of materials shall occur so as to not adversely affect daily operations of NPS Concessioners and Museums in and around the National Mall. No deliveries shall be made after hours without prior, written approval from the NPS.

**Parking:**

The south curb of Madison drive, between 7th and 12th Streets, will be used for satellite and microwave vehicles. Media production trailer(s) will be parked on the gravel pad/Panel #8. There is no parking permitted on Jefferson Drive. All other parking needs must be coordinated with the National Park Service Inaugural Team and the United States Park Police.

Guest Services, Inc. will place refrigerator truck(s) and dry goods truck(s) next to each of their concessions stands/tents on the south curb of Madison Drive. See locations on attached diagram.

**Portable Toilets/Comfort facilities:**

The PIC is responsible for providing sufficient portable restrooms to accommodate the anticipated crowd within the permitted areas. The NPS recommended ratios are one (1) unit per three hundred (300) people; twenty percent (20%) of the total must be ADA accessible. Upon completion of the restroom placement, PIC must secure the restrooms until ready to use on the event day(s). The PIC must provide a plan to the NPS regarding servicing these restrooms throughout the event.
Electricity and Generator Usage:

No electricity available on site. The PIC may provide own gasoline and/or solar powered generator(s) to provide power for tents, trailers, video and sound, towers and lighting. Generators will be installed in accordance with the site plan, D.C. Fire Department guidelines, and safely installed per manufacturer requirements. The fueling/refueling of gasoline powered generators on parkland is prohibited*. The storage of additional fuel is prohibited.

At a minimum, for hand carted generators, 1” professional outdoor grade plywood, or similar material must be placed underneath the generator to protect the underlying surfaces from potential weight and vibration damage and fluid leakage. Generators must be encased with a secondary drip containment unit.

Tow plant generator(s) must have an internal secondary drip containment unit and/or placed in containment troughs and be fenced in or closed in with bike rack.

All wires must be covered by mats and/or yellow jackets to prevent tripping hazards. The cord must be in good condition, of sufficient gauge to accommodate the electrical load of equipment and must be properly grounded.

All cables, power lines, etc. shall be run in an orderly manner and contained in matted yellow jackets that provide for safety and accessibility. No power lines/phone lines can be strung between trees.

A Fire extinguisher must be within 15 feet of generator(s).

*Refueling of generators: Refueling of the gasoline generators will be permitted pursuant to the following conditions:

Refueling will only be allowed on dates and times agreed upon in advance with the NPS—generally, (05:00 a.m.-08:00 a.m. and 10:00 p.m.-12:00 a.m. (midnight)).

The following materials must be placed on the ground during refueling:

Plastic tarp
Absorbent material on top of tarp
Drip pan under fueling nozzle
Spill containment material or absorbent booms or pads must be stored at each generator location
55-gallon drum labeled hazardous material must be placed alongside of each generator. Should spillage occur the absorbent material must be placed in these barrels.
Contractor will be responsible for removing the barrels off of park property
Contractor will be responsible for any damage to the park’s resources as a result of the refueling.
In case of spill please contact DC Fire and Emergency Medical Services at 911 and National Mall & Memorial Parks’ Chief of Maintenance at (202) 359-1551.
The storage of fuel on parkland, in trailers, next to generators and at other NPS locations is strictly prohibited.

**Propane Use:**

The use of propane shall be limited to one approved 60-pound container per appliance unless otherwise approved in advance by the NPS.

The connections to propane containers shall be made, tested and repaired prior to opening of the event. The changing of propane containers while the event is open to the public is strictly prohibited.

The storage of additional propane containers on the site, including parked vehicles, trailers, etc. is strictly prohibited.

Propane containers on site shall be secured from falling or being knocked over. Placing the container in a milk crate is recommended. In addition, ground surface must be level.

**Concessions:**

The sale of food or merchandise must be provided only within the framework of the Concessions Policy Act (Public Law 105-391) and any Concession Contracts issued under the Act. The NPS concessioner, Guest Services, Inc. will provide food and merchandise sales as part of the Swearing-In Ceremony and Parade viewing. All logistics associated with this operation, will be coordinated with Mr. Gordy Kito, NPS Concession Specialist, (202) 245-4675.

On January 19, 2013, GSI will operate a food and beverage concession stand inside a tent in support of the National Day of Service. **See attached map for location.**

On January 21, 2013, GSI will operate the existing food kiosks on the Mall as well as two (3) portable food/beverage stands. **See attached map for location(s)**

**Alcoholic Beverages:**

The possession and consumption of alcoholic beverages is generally prohibited, except as authorized by an official permit issued by the Superintendent, or in Superintendent-designated park areas located adjacent to concession facilities authorized to sell alcohol.

**Glass Bottles:**

No glass bottles and/or containers are permitted on parkland
First Aid/Medical Services:

The PIC is responsible for providing First Aid services on-site. Per PIC’s request, the NPS will coordinate First Aid services for the Swearing-In and Parade viewing. The NPS adheres to the District of Columbia Department of Fire & Emergency Medical Services guidelines established according to the number of people anticipated at an event. The following guidelines, established according to the number of people anticipated at an event, will ensure that appropriate medical coverage is provided throughout the event:

- 1-1,999: The Permittee may rely on 911
- 2,000 – 9,999: The Permittee should have a fixed First Aid site with certified/licensed personnel, who will remain on site throughout the event.
- 10,000 – 20,000: The Permittee should have one fixed First Aid site with certified/licensed personnel who will remain on site throughout the event and a Basic Life Support Ambulance (licensed in the District of Columbia) who will transport patients to an appropriate medical facility.
- 20,000 – 30,000: The Permittee should have one fixed First Aid site with certified/licensed personnel who will remain on site throughout the event, a licensed Basic Life Support Ambulance and a Licensed Advanced Life Support Unit (D. C. Fire & EMS has the only certificate of need to provide on-scene paramedic services in the District of Columbia).
- 30,000 – 50,000: The Permittee should have two fixed First Aid sites with certified/licensed personnel who will remain on site throughout the event, two Basic Life Support Units and one Advanced Life Support Unit (both licensed in the District of Columbia).
- 50,000 – 60,000: The Permittee should have two fixed First Aid sites with certified/licensed personnel who will remain on site throughout the event, two Basic Life Support Units and two Advanced Life Support Units (both licensed in the District of Columbia).
- Events exceeding 60,000 participants: The Permittee is required to have emergency medical services personnel from D. C. Fire & EMS as well as the Department of Health on site for the appropriate provision of first aid and/or emergency medical services.

To accommodate the health and medical needs of visitors participating in the 57th Presidential Inauguration, National Park Service employees will work closely with Emergency Medical Service personnel from federal government agencies, city government agencies, and local volunteer organizations to provide care to ill and/or injured visitors.

It is estimated that NPS EMS personnel will treat approximately 500 visitors with significant symptoms and transport approximately 30 visitors to area hospitals.
MEDICAL TENTS:

The NPS will staff seven medical tents in the event area:

One between 3rd and 4th Streets
Two between 4th and 7th Streets
Three between 7th and 12th Streets
One in Lafayette Park

MEDICAL PERSONNEL:

Each tent will be staffed with the following personnel:

One NPS employee to provide visitor services and logistical needs for the providers.
Two NPS EMTs/First Responders/Paramedics.
Three Public Health Service Doctors/Nurses/Paramedics.
Up to Six volunteer EMTs/First Responders. These volunteers will also provide roving around the tent area.
There will also be approximately 20 NPS EMT's/First Responders/Paramedics roving the Parade Route during the event.

OPERATIONAL PERIOD:

Medical tents will operate from 0630 - 1600, or until the event area is clear of visitors.

LEVEL OF CARE:

The medical tents will operate with Advanced Life Support (ALS) and Basic Life Support (BLS) capabilities. All providers will be working under the direction of NPS Medical Advisor Dr. William Rogers. EMS personnel will provide medical care to visitors appropriate to their level of training and in compliance with NPS medical protocols.

All patient care will be provided under the "treat and release" system. Patients requiring advanced medical care will be transported by DC Fire & EMS to local hospitals.

ASSETS:

The NPS will supply each tent with all medical and logistical equipment needed during the event:

Each tent will be supplied with jump bags, oxygen tanks, AEDs, and other medical supplies. Public Health Service will supply all pharmaceuticals. Extra medical supplies will be stored on site for quick resupply.
Each tent will have cots, tables, chairs, portable toilet, pod for storage, heater, and generator. Fencing will be placed around the tent. Staging of the tent and logistical supplies will begin five days before the event.

COMMUNICATIONS:

All EMS personnel will be provided with hand held radios. EMS Dispatch will operate under one repeated channel for the event. All medical and logistical support will be communicated over the designated EMS channel. Other channels will be provided as back-up if necessary.

Each roving team will also carry strobe lights or orange flags into the field to help alert other providers to their location in the crowd. Each tent will have a bull horn to make announcements to the public.

TRANSPORT:

NPS EMS Dispatchers will be stationed in the Medical Command Center to facilitate all dispatch calls. DC Fire & EMS personnel will provide all ambulance transport within the event area.

Roving teams will use medical gators, liters, wheelchairs, or stretchers to assist moving patients from the medical tents to waiting ambulances.

USPP will coordinate all helicopter transports within the event area.

Reunification:

Permittee must provide a reunification tent/trailer for lost persons. The reunification tent/trailer location will be determined, based upon the site plan, by the Permit Management Specialist and the United States Park Police Events Sargent. A power supply must be proved for a land line.

Security:

Permittee is responsible for providing UNARMED security for any equipment left on parkland overnight. Equipment cannot be left unattended at any time. Permittee may contact Sgt. Jim Murphy, United States Park Police, 202-610-7092, to request police personnel to provide the security.

Camping:

Pursuant to 36 C.F.R. 7.96(i), camping is prohibited. Camping is defined as the use of the park land for living accommodation purposes such as sleeping activities, or making preparation to sleep (including the laying down or bedding for the purpose of sleeping), or storing personal belongings, or making any fire, or using any tents or shelter or other structure or vehicle for sleeping or doing any digging or earth breaking or carrying on cooking activities.
The above-listed activities constitute camping when it reasonably appears, in light of all the circumstances that the participants, in conducting these activities, are in fact using the area as a living accommodation regardless of the intent of the participants or the nature of any other activities in which they may also be engaging.

**Site Clean-up:**

Permittee is responsible for removing all trash and debris resulting from this permitted activity immediately following the conclusion of this activity each date. Any cost incurred by the National Park Service as a result of trash removal will be borne by the person in charge.

The PIC is responsible for all site clean-up associated with all Presidential Inaugural activities held on the National Mall. All trash and debris shall be cleared from the grounds of the National Mall immediately after the conclusion of the Swearing-In and Parade viewing activities.

PIC has made arrangements with the NPS and a private contractor for the collection and removal of all trash and debris associated with this permitted event. This plan also includes a recycling component. Trash receptacles must be placed on hard, paved surfaces and must not overflow with trash or debris.

**Sales/Solicitation:**

Special attention is drawn to item #4, last page of this permit concerning fees collected and donations solicited on parkland. No merchandise may be sold or offered for sale except for message bearing books, newspapers, leaflets, pamphlets, buttons and bumper stickers. Sales areas can be no larger than 6' wide by 15' long by 6' high, and can have only one table 2 1/2 ' by 8', or 4' by 4'. See attached regulations.

**COMMERCIAL ADVERTISING/SIGNS AND BANNERS**

NPS regulations generally prohibit Federal parkland from being used for business solicitation or for the advertisement or promotion of commercial brands, products, and services. As such, no commercial notices and advertisements shall be placed, posted or distributed at the event. Further, no structures representing commercial products, or models or replications of commercial products or merchandise may be displayed.

Further consistent with long-standing NPS policy now under Public Law 108-108, Title I, § 145, special event permits will expressly prohibit the erection, placement, or use of structures and signs bearing commercial advertising. However, a permit may be issued that authorizes the recognition of sponsors of special events, if the National Park Service determines that the size and form of the recognition is consistent with the special nature and sanctity of the National Mall or any other requested park area, and if the lettering or design identifying the sponsor is no larger than one-third the size of the lettering or design identifying the special event. Further, to the maximum extent practicable for such special events, public use of and access to the National Mall and other parkland is not restricted.
The Permittee shall submit a sign plan for NPS review and approval. Any request seeking NPS approval for sponsor recognition must be submitted to the NPS at least 30 days prior to the proposed event, and depicted on the sign plan. If approved by the National Park Service, sponsor recognition will be authorized within the terms of the special event permit. Authorized sponsor recognition must be in keeping with the NPS policy, regulations, and law, and be appropriate to the scale and theme of the special event. Further, the overall size, number, and design of any signs or banners shall be appropriate to the park setting and the lettering or design identifying the sponsor must be no larger than one-third the size of the lettering or design identifying the special event. Signs and banners may not be affixed to existing trees or other NPS facilities or structures.

Federal parkland may not be used for promotions or advertisement of commercial brands, products, companies or services. The role of donors and/or sponsors of special events and/or activities may be recognized; however, the method of recognition must be in keeping with National Park Service policy and regulations appropriate to the scale and theme of the event and must be approved in advance.

Only signs and/or banners specifically identifying and/or announcing the event or portion of the event are permitted. Commercial sponsors may be recognized on these same banners by letters and/or logos not to exceed one-third the height and width of the primary lettering identifying the event.

Distribution or give-away of any commercial product is limited to only those that may be consumed on the event site such as juices or popcorn. Soliciting personal information such as names, addresses, telephone numbers, zip codes, etc., or any other information, which may be used for future solicitation, or marketing purposes is strictly prohibited.

Cameras, equipment, crew, and participants in this filming may not be situated on sidewalks, paths, or roadways that prohibit the passage of pedestrians and/or vehicles. No equipment may be attached and/or affixed to any plant materials (i.e. trees and shrubs) or structures. Running cables thru trees is prohibited.

No exclusive use of the area is permitted and the area must remain open to the general public at all times. This filming may in no way impede or prevent public access to the area.
Parking is permitted in designated parking spaces only. No parking spaces may be reserved. All public spaces are available only on a first come, first use basis. No reserved parking for "crew vehicles" is permitted. Crew vehicles must park in available public parking spaces.

Support vehicles/production trailers for the filming may park on the Mall gravel walkways as indicated by the attached site plan. SEE ENCLOSED MAP

No electrical service is available. The use of a portable generator, to be provided by the Permittee, is permitted. Plywood or a similar material must be placed beneath the generator to protect the turf.

Cabling across entrances and handicapped accessible ramps must be ADA approved and cannot impair or prevent access. All cables must be covered to prevent tripping hazards.

**Marshals/Volunteers:**

The PIC is responsible for providing marshals/volunteers to assist with maintaining good public order, visitor information and way-finding. Prior to January 19, 2013, P.I C. must provide a color copy of Marshals identification to the National park Service and United States Park Police. Marshals should be aware of their responsibilities and should have received earlier from the PIC adequate training and instructions as to their duties and responsibilities. To help assist your participants, Marshals should be aware of the authorized permit area, the location of nearby Metro stations, first aid stations, water and toilets. Marshals should be knowledgeable of the NPS permit conditions and be able to communicate with the PIC, and if necessary with the United States Park Police officers or National Park Service rangers if they think they observe a problem. While Marshals may NOT act as police, they can work with and help maintain order among your participants, explain to non-participants that a particular area may be under permit, and should be able to immediately alert their supervisor(s), and if necessary United States Park Police officers or National Park Service rangers if they observe a problem. To assist you on-site, there should also be nearby a Park Police or Park Ranger.

**Access to Inaugural Permit Areas**

Please note that it is widely expected that unprecedented numbers of people may seek to be on the National Mall to observe the Inaugural Swearing-In Ceremony and Parade. So it is expected that closed streets, the Mall gravel walks and the sidewalks on January 21, 2013 will be very crowded as people come to observe the events. As such, Marshalls should pay close attention to escorting to and maintaining ADA accessible locations that have been established on the National Mall for persons with disabilities.

**Accessibility:**

The Americans with Disabilities Act (ADA) applies to temporary services, programs, and activities. Temporary facilities and structures must comply with the ADA Standards.
Policies and operations for the event must meet the nondiscrimination requirements of the ADA, including, but not limited to provision of accessible parking, routes through site, food service, toilet, facilities, and assembly seating.

The PIC is responsible for providing auxiliary aids and services as requested. PIC is responsible for providing promotional material explaining how the public can request a particular auxiliary aid or service and be informed of when specific auxiliary aids and services may be available for all Presidential Inaugural Ceremonies held on parkland.

Service animals, as defined by the Americans with Disabilities Act (ADA), are permitted under proper supervision. The ADA defines a service animal as any guide dog, signal dog, or other animal individually trained to provide assistance to an individual with a disability. If they meet this definition, animals are considered service animals under the ADA regardless of whether they have been licensed or certified by a state or local government.

The PIC must consider elements of accessibility when designing the layout of the event. Potential items for inclusion are:

- Addition of temporary curb ramps where needed to provide an accessible route
- Location of structures and tents along an accessible route
- Provision of auxiliary aids and services
- Provision of and an accessible route from transit stops to the event location
- Provision of tactile braille signage
- Provision of portable wheelchair lifts to access stages or other elevated areas.

Adverse Weather Policy:

When there is a threat to public health or safety, the Superintendent and/or his/her designee, may close the National Mall or an event being held there for such duration as determined necessary to ensure the safety and wellbeing of the public. Such situations have occasionally occurred in the past where park areas have been closed due to severe weather warning of heavy snow and thunderstorms with lighting and high winds. Where an area is ordered closed due to a weather-related public safety threat, pursuant to 36 CFR 2.32(2) people must comply with official directions to leave the closed area and relocate to safer sheltered locations.

Closing or canceling a Presidential Inaugural Ceremony event is a last resort. However, while most events will be held despite the weather, the PIC is responsible for providing updated information in the event schedules and drop-off points may change. If a snow emergency is declared, programs may be closed early or canceled.

The Permittee agrees to save and hold harmless the United States of America, and its agents and employees, from any and all claims, damages, suits at law or equity, of whatever kind or nature, for damages to or loss of property, or injury or death to persons resulting directly or indirectly from, or attributable to the Permittee or its participants (service providers) in conjunction with activities authorized by this permit.
The Permittee agrees to save and hold harmless the United States of America, and its agents and employees, from any and all claims, damages, suits at law or equity, of whatever kind or nature, for damages to or loss of property, or injury or death to persons resulting directly or indirectly from, or attributable to the Permittee or its participants (service providers) in conjunction with activities authorized by this permit.

**Event Security and Public Safety:**

NPS Permits Management Specialist and/or Event Monitors may be assigned for on-site supervision each day of the event. In addition, U.S. Park Police officers may also be assigned to provide for public safety. All reasonable instructions given by authorized NPS or U.S. Park Police personnel must be obeyed promptly. Failure to comply with all the terms and conditions of the special event permit may constitute grounds for revocation of the permit and immediate termination of the event and/or citation against the violator.

Beginning with event set-up, and continuing throughout the permit term until tear-down is completed, the Permittee is responsible for ensuring that no equipment or materials are left unattended at any time, including overnight. This can be accomplished by providing qualified persons from the Permittee’s organization, by contracting with a commercial security firm, or by making prior arrangements with the U.S. Park Police for their services.

The Permittee is responsible for additional safety and crowd management and selecting a contract security company to provide 24-hour security of equipment for the event, from installation through load out. Security personnel can be assigned to security posts at VIP access points and exhibit areas. This can also include office, program, and storage areas. Be advised no armed security is allowed at any time.

All services, including, but not limited to, VIP access control, VIP protection, and overnight security rounds, must be provided by employees of licensed, incorporated security companies. All other security functions must be provided by the U. S. Park Police. Contracted security firms must meet the following criteria:

- **All security personnel must be unarmed.**
- Contractor must provide appropriate insurance.
- All contracted security personnel must possess a current District of Columbia Security Guard License.
- All contracted security personnel must wear proper uniforms, and identification, and display a professional and courteous attitude.
- Contractor must have the ability to supply additional personnel as required.
- Contractor must attend scheduled briefing and operational meetings.
- Contractor must abide by all relevant laws and rules of conduct.

Security fencing and crowd control measures must be shown on the site plan.
Credentials:

All staff, volunteers and vendors involved in the construction and teardown of the temporary structures and all event components must have some form of identification. The credentials will identify the person by name and category and include any event logo. Colored copies of all credentials will be provided to the NPS Permits Management Specialist and U.S. Park Police in advance of the construction, event and tear-down.

Relevant credentials to include:

- Press
- VIP
- Artist
- Security
- Production Staff
- All Access

Additional Permits: Permittee is responsible for contacting the Metropolitan Police Department, (202) 671-6522, to obtain the necessary approval and/or paperwork for the use of city streets.

</table>
3. All laws, rules and regulations applicable to the area covered by this permit remain in effect.

4. No fee may be collected, donation solicited, or commercial activity conducted. No items may be sold or offered for sale except for books, newspapers, leaflets, pamphlets, buttons and bumper stickers which contain a message related to your demonstration or special event. No other merchandise may be sold or offered for sale. A stand or structure used for the sale of permitted items may not exceed one table per site, which may be no larger than 2 1/2 feet by 8 feet or 4 feet by 4 feet. The dimensions of the sales site may not exceed 6 feet wide by 15 feet long by 6 feet high.

5. The area should be left in substantially the same condition as it was prior to the activities authorized herein, and all litter shall be placed in the trash containers provided.

6. This permit is applicable only for the use of the area designated above, and during the times designated above, or in any area as may hereafter be designated by the United States Park Police.

7. The use of sound amplification equipment, other than hand-portable sound amplification equipment to be used for crowd control purposes only, is prohibited on the White House Sidewalk (South 1600 Pennsylvania Avenue, NW, sidewalk between East Executive Avenue and West Executive Avenue). All sound amplification equipment shall be limited so that it will not unreasonably disturb nonparticipating persons in, or in the vicinity of, the area.

8. The National Park Service reserves the right to immediately revoke this permit at any time should it reasonably appear that the public gathering presents a clear and present danger to the public safety, good order or health, or if any conditions of this permit are violated.

INAUGURAL CEREMONIES PERMIT

PERMIT NUMBER 13-3 (AMENDMENT B) DATE: 01/18/13

(TRAILERS, VIDEO SCREENS, SOUND TOWERS, MEDIA STANDS, FIRST AID TENTS,
VOLUNTEER AND CONCESSION TENTS, PARADE PARTICIPANTS AND
REUNIFICATION TENTS, GENERATORS, PORTABLE RESTROOMS, DUMPSTERS,
RECYCLING CONTAINERS, VEHICLE AND PEDESTRIAN GROUND PROTECTION -
INSTALLATION AND REMOVAL)

In accordance with the Presidential Inaugural Ceremonies Act and National Park Service
regulations, permission is granted for the following:

Person(s) and/or Organization(s): PRESIDENTIAL INAUGURAL COMMITTEE
Date(s): 01/18/13 To: 02/08/13
Time: Starting: 12:01 A.M. Ending: 11:59 P.M.

Location(s): NATIONAL MALL BETWEEN 4TH AND 14TH STREETS, MADISON AND
JEFFERSON DRIVES AND THEIR EXTERIOR ADJACENT SIDEWALKS, AND
WASHINGTON MONUMENT GROUNDS

Purpose(s) TEMPORARY STRUCTURES AND FACILITIES PLACEMENT FOR 57TH
PRESIDENTIAL INAUGURAL CEREMONIES – TO INCLUDE THE NATIONAL DAY
OF SERVICE, PUBLIC SWEARING-IN CEREMONY AND PARADE VIEWING

Anticipated Number of Participants: (500-500,000±)

Person(s) in Charge: David Cusack, Inaugural Executive Director

Address(es): 330 C Street, SW, Washington, D.C. 20201

Telephone Nos. Day: 202-640-1538

This permit is granted subject to the following conditions and may be amended by the National
Park Service to reflect changes to conditions.

This permit authorizes the construction and/or placement of trailers, tents, video screens, sound
towers, media platforms and portable toilets, in support of the Presidential Inaugural National
Day of Service, the Swearing-In Ceremony and Parade, in viewing areas on the National Mall,
between 4th and 14th Streets.
Based on the size and scope of this event, PIC will provide the NPS with a cost recovery deposit in the form of an irrevocable letter of credit or cash deposit in the amount of $800,000, which must be received by January 18, 2013, for all activities held on National Park land associated with the National Day of Service, the Swearing-In Ceremony and Parade viewing on the National Mall and its environs.

This cost recovery deposit will be used to cover costs of restoration and rehabilitation of NPS resources and any unbudgeted National Park Service operating costs. If unbudgeted costs exceed the amount of the cost recovery deposit, a bill of collection will be issued seeking additional monies to satisfy the costs incurred by the National Park Service. In the event that the costs are less than the estimated costs, monies will be refunded to the PIC.

The Permittee agrees to be fully responsible for the management, performance, use and safety within the permit area involved in this authorization until the work is completed, inspected, and accepted. The Permittee hereby agrees to accept responsibility and assume liability for any and all tort claims arising from the actions or omissions of its representatives or employees directly or indirectly connected with the work performed, the maintenance of, or the use of this facility to the greatest extent permitted by law. To the extent that the work is performed by non-Governmental persons or organizations, the Permittee shall require such persons or organizations to:

a. Procure public and employee liability insurance from responsible companies with a minimum limitation of $2,000,000 per person for any one claim and an aggregate limit of $5,000,000 for any number of claims arising from any one incident. The United States of America shall be named as an additional insured on all such policies. The permit number will be included on said policy. All such policies shall specify that the insured shall have no right of subrogation against the United States for payments of any premiums or deductibles, thereunder, and such insurance policies shall be obtained by, be for the account of, and be at the insured's sole risk.

b. Pay the United States the full value of any damages to the lands or other property of the United States caused by any omission or activity in connection with this permit.

c. Indemnify, save and hold harmless and defend the United States against all fines, claims, damages, losses, judgments and expenses arising out of, or from any omission or activity in connection with this permit.

Permission for placement of the trailers, video screens, sound towers, media platforms, tents, generators and portable toilets, is granted based on the attached layout diagram for all areas referenced in this permit.
GENERAL CONDITIONS:

Permittee and all participants authorized therein must comply with all of the conditions of this permit and with all reasonable directions of the National Park Service and United States Park Police personnel.

All sidewalks, walkways, and roadways must remain unobstructed during the construction activities to allow for the reasonable use of these areas by pedestrians, vehicles, and other park visitors.

Prior to beginning construction or placement of all facilities, PIC's contractors or agents will contact Ms. Robbin Owen, Deputy Inaugural Coordinator or Leonard Lee, Assistant Deputy Inaugural Coordinator, (202) 359-1459 to coordinate specific logistical requirements. Permittee and its representatives will follow instructions provided by these individuals with regard to accessing park property and will take all precautions to protect park resources.

All requests, correspondence and meetings with the National Park Service pertaining to this permit shall be scheduled by the Permittee only. All contractors, subcontractors or consultants must channel their requests through the recognized representatives of the Permittee, who in turn will contact the National Park Service.

The Permittee shall insure that all logistical equipment/structures placed on park property adhere to all applicable codes, standards, and regulations including but not limited to BOCA, OSHA, USPHS, and ADA, covering requirements including but not limited to safe construction practices and grounding of generators.

All activities pursuant to this permit shall be in compliance with the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252; 42 U.S.C. 2000d ed seg.); Title V, Section 504 of the Rehabilitation Act of 1973 (87 Stat. 394; 29 U.S.C. 794); the Age Discrimination Act of 1975 (89 Stat. 728; 42 U.S.C. 6101 et seg.); and with all other Federal laws and regulations prohibiting discrimination on grounds of race, color, national origin, handicap, religion, or sex in employment and in providing facilities and services to the public. Nothing in advertising for employees shall be done which will prevent those covered by these laws from qualifying for employment.

The Permittee shall require all employees and/or contractors to exercise all normal and reasonable safety precautions and to protect park visitors and property. Suitable devices such as barricades, fences, lanterns, etc. necessary for employee and public safety, shall be provided and adequately maintained. Such devices require the concurrence of the NPS Deputy Inaugural Coordinator or designated representative.

Throughout the course of this permit, the P.I.C., its contractors and agents are responsible for taking all necessary precautions to minimize resource damage throughout the permitted area. In addition, Permittee must supervise their contractors and employees during set-up and teardown to assure that there is no damage to park resources.
No wires or cables are to be attached to trees or other vegetation or flown aerially. Any wires or cables required in support of permitted activities must be run on the ground, in troughs or yellow jackets, to prevent tripping hazards. Troughs covering pedestrian walkways must be ADA compliant.

All laws, rules and regulations applicable to the area covered by this permit remain in effect.

The Permittee shall be responsible for the cost and repairs to any structures, facilities, roadways, sidewalks, infrastructures, sod, soils, or landscape vegetation on park land damaged by the work authorized under this permit.

The area must be left in substantially the same condition as it was prior to the activities authorized herein, and all litter shall be placed in the trash containers provided.

This permit is applicable only for the use of the areas designated above, and during the times designated above. All trailers, video screens, sound towers, media stands, tents, generators and portable toilets, constructed or placed under this permit will be removed prior to February 9, 2013.

The National Park Service reserves the right to immediately revoke this permit at any time should it reasonably appear that the activity presents a clear and present danger to the public safety, good order or health, or if any conditions of this permit are violated.

A copy of this permit shall be available on site for inspection by National Park Service and United States Park Police personnel.

All proposed amendments or additions to this permit and all proposed locations of vehicles, equipment, storage, installations of any kind, areas of activity, work and power plans shall be submitted to the NPS for prior written approval prior to the installation of facilities. These proposals shall be in map or diagram form suitable for on the ground inspection.

Permittee will provide an on-site coordinator to be accessible to the National Park Service and the United States Park Police personnel at all times during construction or set-up activities and during dismantling of facilities post-event.

All staff, volunteers and vendors involved in the construction and teardown of the temporary structures must have some form of identification. The credentials will identify the person by name and category and include any event logo. Colored copies of all credentials will be provided to NPS and USPP in advance of the construction.

Due to the exceptional time and weather constraints associated with this permit and the complexity of multiple contractors bringing materials and equipment to park land, special attention is assigned to the requirement that the Permittee will at all times provide an on-site coordinator to be accessible to National Park Service and United States Park Police personnel during construction or set-up activities and during dismantling of facilities post-event.
SPECIFIC CONDITIONS FOR TRAILERS, MIDIA STANDS, VIDEO SCREENS, TENTS, GENERATORS AND PORTABLE TOILETS, ON THE NATIONAL MALL:

The P.L.C. is required to meet OSHA guidelines regarding employee/subcontractor work schedules. No employee/subcontractor is to work no more than 10 hours within a 24 hour period. Any work required beyond the 10-hour limitation will need to be requested to the NPS in advance for review and approval by the Superintendent, National Mall and Memorial Parks.

All trailers and other temporary structures, must be at least (5) feet from ADA accessible ramps and must not block pedestrian access along the sidewalks and gravel walks.

All trailers and other temporary structures must be erected to allow access to building entrances and/or driveways at all times.

All portable toilets must be placed in groups of (5) or less, with a (6') clearance between each group.

The PIC is responsible for having its contractor secure all media stands while not in use. Trailers and restrooms must be locked while not in use and generators, light and sound towers must be secured by bike rack and/or fencing. The PIC and/or its contractor will be required to provide unarmed 24-hour security to monitor all equipment and structures daily.

All metal parts, or fiberglass-like structural components, of facilities shall be separated from masonry or ground with not less than one foot square of 3/4" inch unpainted plywood and/or heavy duty interlocking plastic material.

The Permittee shall be responsible for any injuries and/or damage to government property occurring as a result of this permitted activity, including stains created by installing the above facilities. Any stains created shall be removed at the expense of the Permittee. To avoid or minimize any potential damage, it is recommended that galvanized steel or pre-painted components be used. If on-site painting is required, the sidewalks and plaza areas must be properly protected.

Trailers, media stands, tents and other temporary structures, shall not be erected on/or over plants, planters, trees, tree wells, steps or statues.

All trash, debris, and litter resulting from activities of this permit shall not be allowed to accumulate and shall be bagged and placed on or next to trash receptacles or removed from the site.

The Permittee and all exhibitors may not load in any materials prior to the predetermined load in period.
Resource Protection:

Pursuant to 36 CFR 7.96(g)(5)(vi)(C), 2.31(a)(2),(3) the destruction, defacement, damaging, alteration, or removal of park resources or facilities is prohibited. No item, including signs or banners, may be attached to park trees, plantings, benches, statues, walls, fences, or other park property.

To protect the resources, stages, stands and other facilities approved for placement on the grass center panels and gravel walkways between 7th and 14th Streets, must be supported by 3/4 inch plywood or similar material. Material to be used must be approved in advance by NPS.

Digging or trenching is prohibited on parkland in conjunction with a special event.

Throughout the course of this permit, the PIC will require its employees/volunteers, and contractors, to exercise special care and attention to protect the resources of the National Mall and its environs. In addition, the PIC must supervise their contractors and employees during set-up and teardown to assure that there is no damage to park resources. C3 Presents, have been identified as the PIC production representative.

Landscape:

Lawn, trees, shrubs, and the irrigation system, curbs, electric conduits, and water mains located within the National Mall permit area, shall be protected from adverse impacts associated with event activities.

Heavy Equipment Near Trees and Shrubs: Prior to construction activity, the NPS must approve the use of any heavy equipment (crane, backhoe, etc.) placed under or near trees or shrubs. Please note that approval for this type of activity is rare. If approval is granted, the permit holder must comply with a number of regulations. These include (but are not limited to) the application of 6" to 8" inches of wood chips (shredded or chipped hardwood, with particles not to exceed 1/2 x 6 inches, with uniform texture free from soil, stones, weeds, sticks, clay, or other materials undesirable for the intended or injurious to growth), on top of geotextile fabric. On top of the wood chips, a metal plate, or other rigid plates designed for this purpose (Duradeck or approved equivalent), shall be placed to distribute the load. Equipment must remain on top of the plate.

Turf Protection: For the purpose of protection, any area not paved shall be treated as lawn. No heavy equipment (cranes, backhoes, etc.), vehicles or stock piling of materials is permitted on turf areas without the approval of the NPS. Limited activity of this sort may only take place with prior, written approval from the NPS, in defined areas and with load spreading techniques.

The temporary covering of turf for events allows for pedestrian walkways, temporary flooring, structure, support, and vehicle access, with special permission from NPS.
Permittee is encouraged to secure products such as Terraplas, Terratile and Matrax LD or equal that is ADA-compliant, interlocking mats that are translucent and allow UV light to pass through to the grass below. The products must either be perforated or ribbed, allowing for ventilation and some moisture access to the turf below. Material to be used must be approved in advance by NPS.

**Vehicular access to turf areas between 7th & 14th Streets, will only be permitted per conditions listed below:**

Driving directly on all turf and tree panels is prohibited. Vehicles, forklifts, frontend loaders, or any other heavy duty equipment, moving heavy equipment on turf in this area must be supported by some form of heavy duty plastic material that clicks or snaps together to avoid movement of material and tripping hazards. The temporary interlocking protective material supports shall be installed in (treed panels if permitted), over plazas, walkways, and turf areas for the ingress and egress of all vehicles/units or heavy equipment by the PIC. Material to be used must be approved in advance by NPS.

Temporary turf cover materials used for vehicular travel (load-in and load-out) should be removed as soon as possible to prevent damage to turf.

Display vehicles, stored equipment, materials, etc., on turf or walkway areas shall be supported by 3/4 inch plywood or temporary interlocking protective material heavy enough to support the wheels and jacks of all vehicles/mobile units.

Parking of Permittee(s) employee’s or subcontractors private vehicles for conduct of this permit’s activities, in tree panels and/or on turf or walkway areas is prohibited.

**Site Furnishings:**

Permittee may not move or otherwise harm existing site furnishings, including but not limited to posts and chains, benches, waste receptacles, and drinking fountains. No attachments may be made to, pass through, or be affixed to existing site furnishings.

Additional temporary site furnishings may be provided by the Permittee; however, these furnishings must meet the guidelines set forth in this document. No permanent installation of site furnishings is permitted.

**Hard Surfaces:**

Temporary protection of all hard surfaces affected by the construction or erection of staging elements, sound towers, camera equipment, cranes, lighting structures, miscellaneous equipment, or scaffolding must be provided. All protective pads or cushioning devices shall be non-staining.

**Oil Or Hydraulic Fluid Leaks:** Temporary protection of hard surfaces shall be used where motorized vehicles are operating to avoid oil and/or hydraulic fluid leaks. Should a leak of this type occur, the permit holder shall be held liable for clean-up, at no expense to the NPS.
Structures-Center Panels-7th-14th Streets:

To protect the turf areas, it is strongly encouraged that structures be placed on the Mall’s hardscape areas where it would not impact the turf. The NPS may allow under permit the use of turf areas, however, if the structure and its equipment use the turf protection measures as detailed throughout this permit. All structures must minimize all points that come in contact with the turf.

All structures must be able to withstand a minimum wind gust of 90 mph.

All structures must follow the guidelines below and adhere to National Fire Protection Association codes.

Any temporary structure exceeding over 500 square feet require the submission of engineered drawings stamped by a structural engineer licensed in the United States. Drawings should include tent support lines identified by flagging.

Structures on the turf should be on a raiser with as few points as possible touching the turf. Each point that does touch the turf should have Enkamat Flatback 8 or equal product and plywood pads under all points as outlined:

Each screw jack should have a wooden pad and two layers of Enkamat Flatback1 or equal product, eighteen inches square (18”x18”)
Concrete pads should have four (4) layers of Enkamat Flatback or equal product
Under each concrete tower pad two (2) layers of plywood

All screws and fasteners used in the construction of structures should be policied during the build and retained during removal. Screws and fasteners should be made of a non-aluminum metal, enabling a post-event magnet sweep to ensure all pieces are removed from the site.

Tents: To protect the turf, tents should be located on hardscape surfaces including gravel, asphalt, concrete, granite, wood, etc. tents and other similar structures must be secured using cement blocks and/or water-filled ballast tanks. No stakes are permitted on hardscape surfaces.

Non-freezing, no-staining liquid approved by the NPS (water treated with bio-degradable antifreeze) in plastic containers shall be used as weighing elements. No sand bags are permitted for this purpose.

At takedown, all water filled ballast tanks must be pumped to the nearest catch basin (located within the curbs) or to the area drains located throughout the hardscape. Tanks may not be drained into the turf or pumped in gravel areas. This prevents creation of muddy puddles and soft areas in the turf and also limits runoff of gravel into area drains.
Footnote 1 Enkamat Flatback is a unique product designed for turf grass protection. Enkamat's tightly interwoven flat upper layer can withstand the weight of thousands of people and staging equipment. Enkamat is a three-dimensional geomatrix of highly resilient, nylon mono filaments with are fused where they intersect. Ninety percent (90%) of the geomatrix is open space which allows for air and rain to pass freely through to the turf below. Enkamat comes in standard sizes of 39”x150’ and 15’x150’ and can be cut onsite into any shape or size.

If approval is granted by NPS, no tent stakes may penetrate the ground surface by more than 18 inches. Use of stakes longer than this requires coordination through the Chief of Facility Management, National Mall & Memorial Parks, at (202) 245-4685.

Tents must be constructed of fire retardant material. A certificate of fire retardant material must be provided as confirmation to the NPS.

Tents should be placed at least 5 to 10 feet apart.

Stages, Lighting, and Audio & AV Towers:

Stages, lighting trusses, video walls/screens and any scaffold towers used to support them must be constructed to conform to architectural plans stamped by a licensed structural engineer. Permittee is responsible for installing a barricade, bike rack and/or fencing around all lighting, audio and AV towers to secure them from the general public.

If authorized by permit stages may only have skirting on the audience-facing area and only during the event, to allow maximum light and air to reach the turf, thereby limiting damage.

Fencing:

Any fencing or other physical barriers planned for the event must be shown on the site plan and called out by type.

Fencing must be designed in such a way that it does not prevent safe egress from the event.

Fencing located on turf areas may not be staked into the ground unless authorized by permit. If authorized, stakes must be no longer than eighteen inches (18”) driven into the ground. Stakes must avoid all underground pipes and fixtures. In the event chain linked fencing is used, security barbed wire is prohibited.

Concrete barriers (such as jersey barriers) are permitted only on hardscape areas.

Tree protection fencing may be required as a condition of the permit.

Evening Work:

Evening work may be conducted for both load in and load out periods with prior permission by the Superintendent. For work conducted during evening hours a portable lighting system is required. In addition all motor vehicles including golf cart(s) must have lights. Generally night work is not allowed after 10:00 pm and prior to 6:00 am.
SPECIFIC CONDITIONS FOR USE OF MALL-CENTER PANELS 4TH TO 7TH STREETS:

**Structures on Turf Panels:** To protect the turf, neither structures nor parking or operation of equipment is permitted on turf panels. Event vehicles of any kind (delivery, cranes, forklifts, golf carts, trailers, exhibit trailers, etc.) are not allowed on turf or surrounding curbs. To accommodate use for the Presidential Inaugural Ceremonies and to protect against compaction and plant damage, turf protection, the use of matting that holds itself and any added loads such as foot traffic, above the crown of the grass blades, and does not sink into the ground is required.

For winter events that risk the chance of frozen turf, an open back flooring system should be used with a minimum underside open space of two inches (2") and support feet that will not cut into frozen turf. The placement of pedestrian surfacing/flooring system in this area is limited to no more than three (3) days inclusive of set up and takes down, unless otherwise approved by the NPS.

Turf protection flooring must be light weight, able to be carried and set in place without vehicular assistance.

Products such as Terraplas, or equal, must be ADA-compliant, with interlocking mats that are translucent and allow UV light to pass through to the grass below and perforated or ribbed to allow for ventilation and some moisture access to the turf below. The use of plywood for this purpose is strictly prohibited. Specific material used must be approved in advance by NPS.

No carpet or other obstructions to turf covering holes will be allowed.

Water filled ballast tanks may not be used on the turf panel.

Driving stakes and/or grounding rods into the turf is prohibited without the approval of the NPS. Where approved, stakes/ground rods must avoid the “No Staking Zone”, which is a ten foot (10’) zone located on either side of the center irrigation line that runs in the center of the turf panel and a ten foot (10’) area adjacent to inside of the granite curbs that surround the turf panel.

**Planting strips, along the 3rd and 4th Street edges of the turf panel, are no staking zones**

The renovated turf areas between 4th and 7th Streets may require pre-event preparation and/or post-event restoration. PIC will be responsible for costs incurred by the NPS associated with the 57th Presidential Inaugural Ceremonies.

Depending upon the level of damages caused by these events, resodding may be required. To maximize the recovery efforts involved, work will not be performed until the spring of 2013.

**Structures on Tree Panels:** To minimize soil compaction and to protect the continued health of the trees, neither structures nor parking or operation of equipment, is permitted within any tree canopy (root zone) area or in any of the Tree Panels. This includes but is not limited to stages, booths, audio/visual towers, tents and lighting. As a condition of the permit, the Permittee may be required to install tree-protection fencing.
**Gravel Walkways:** To protect the resources, stages, stands and other facilities approved for placement on the gravel walkways between 4<sup>th</sup> and 14<sup>th</sup> Streets, must be supported by 3/4 inch plywood or similar material. *Material to be used must be approved in advance by NPS.*

**Crate Storage and Bone Yards on the Mall:**

Crate storage, bone yards and staging areas may never be located within the tree panels and turf panels; they must be located on hardscape areas or off-site.

Bone yards may not be located on Madison or Jefferson Drives.

Staging areas for pallets must be designated for set up and take down only. Off-site preparation and construction in bone yards is strongly encouraged. On-site staging areas are to be used for no more than two (2) days; staging and storage requiring lengths of greater than two (2) days must occur off-site.

**Site Access – The Mall, 4<sup>th</sup>-14<sup>th</sup> Streets:**

Commercial vehicle access to the National Mall, gravel walks/sidewalks for set-up, event, and tear down will be allowed on a reasonable basis to be monitored by NPS/USPP. Permittee is responsible for contacting Sgt. Jim Murphy, United States Park Police, (202) 610-7092, to acquire vehicle access passes for any commercial vehicles to access the Mall from the gravel walks.

Access onto the gravel walks will be from 4<sup>th</sup> Street and 7<sup>th</sup> Street. Logistical vehicles entering/exiting the Mall are not permitted to enter/exit sidewalks from Madison Drive nor Jefferson Drive. Note: No vehicle access from 7<sup>th</sup> Street on Friday, January 25, 2013 between the hours of 6:00 a.m.-06:00 p.m., due to the March for Life First amendment demonstration on the National Mall at 7<sup>th</sup> Street. A new traffic pattern will be established for load-out during this day and time.

*Extreme* caution must be exercised when driving on the gravel walks/sidewalks. Pedestrian access must be maintained at all times, however, if for safety reasons, an area has to be temporarily closed to the public, the PIC will make their request to NPS for approval.

Except when being driven on established public vehicular roadways: Logistical equipment and vehicles, including gas and electric carts, must not exceed 5-mph. All trucks with a GVW of over 7500 pounds, and equipment such as bucket trucks, platform lifts, forklifts, and cranes, must be accompanied by a walking spotter when moving or operating in an area accessible to the public.

Vehicles must have headlights on while in motion. All individuals operating Golf Carts on NPS property must have a Valid Driver's License. All Golf Carts operating after dusk, must have fixed and/or portable illumination.
No vehicle shall obstruct or interfere with the Martz Express transportation service which utilizes Jefferson Drive, between 14th and 12th Streets.

Temporary interlocking protective material supports shall be installed in turf panels for the ingress and egress of all vehicles/units or heavy equipment by the Permittee.

Parking of Permittee(s) employee’s or subcontractors private vehicles for conduct of this permit’s activities, in tree panels and/or on turf or walkway areas is prohibited.

The PIC must receive prior, written approval from the NPS/USPP if traffic is to be blocked at any time during preparation for, during the course of, and after a special event or demonstration (at any location in the immediate vicinity of the National Mall). If District of Columbia streets are to be blocked, the appropriate authorities must be notified as well.

**Emergency Access:**

All pathways and roadways must remain open and unobstructed. A minimum twenty foot (20') drive aisle must remain open at all times for emergency vehicle egress. No temporary or permanent structures may be located within the egress lane. The egress drive aisle must be called out on the site plan.

**Submittal Requirements:** A plan of how the site will be approached and how traffic will be controlled is required for logistical vehicles that are delivering and/or removing temporary equipment and supplies. In this submittal, information documenting the path of vehicular traffic in and around the roadways of the National Mall during preparation for, during the course of, and after all activities associated with the Presidential Inaugural, is required. Rules and regulations for District of Columbia streets also shall be observed. Signs directing vehicular and pedestrian traffic shall be furnished, with text and locations of signs indicated on the plan.

Deliveries and removal of materials shall occur so as to not adversely affect daily operations of NPS Concessioners and Museums in and around the National Mall. No deliveries shall be made after hours without prior, written approval from the NPS.

**Parking:**

The south curb of Madison drive, between 7th and 12th Streets, will be used for satellite and microwave vehicles. The south curb of Madison Drive, between 12th and 14th Streets, will be used for PIC staff and production vehicles. Media production trailer(s) will be parked on the gravel pad/Panel #8. There is no parking permitted on Jefferson Drive on January 21, 2013. All other parking needs must be coordinated with the National Park Service Inaugural Team and the United States Park Police.

Guest Services, Inc. will place refrigerator truck(s) and dry goods truck(s) next to each of their concessions stands/tents on the south curb of Madison Drive. See locations on attached diagram.
Portable Toilets/Comfort facilities:

The PIC is responsible for providing sufficient portable restrooms to accommodate the anticipated crowd within the permitted areas. The NPS recommended ratios are one (1) unit per three hundred (300) people; twenty percent (20%) of the total must be ADA accessible. Upon completion of the restroom placement, PIC must secure the restrooms until ready to use on the event day(s). The PIC must provide a plan to the NPS regarding servicing these restrooms throughout the event.

Electricity and Generator Usage:

No electricity available on site. The PIC may provide own gasoline and/or solar powered generator(s) to provide power for tents, trailers, video and sound, towers and lighting. Generators will be installed in accordance with the site plan, D.C. Fire Department guidelines, and safely installed per manufacturer requirements. The fueling/refueling of gasoline powered generators on parkland is prohibited*. The storage of additional fuel is prohibited.

At a minimum, for hand carted generators, 1” professional outdoor grade plywood, or similar material must be placed underneath the generator to protect the underlying surfaces from potential weight and vibration damage and fluid leakage. Generators must be encased with a secondary drip containment unit.

Tow plant generator(s) must have an internal secondary drip containment unit and/or placed in containment troughs and be fenced in or closed in with bike rack.

All wires must be covered by mats and/or yellow jackets to prevent tripping hazards. The cord must be in good condition, of sufficient gauge to accommodate the electrical load of equipment and must be properly grounded.

All cables, power lines, etc. shall be run in an orderly manner and contained in matted yellow jackets that provide for safety and accessibility. No power lines/phone lines can be strung between trees.

A Fire extinguisher must be within 15 feet of generator(s).

*Refueling of generators: Refueling of the gasoline generators will be permitted pursuant to the following conditions:

Refueling will only be allowed on dates and times agreed upon in advance with the NPS—generally, (05:00 a.m.-08:00 a.m. and 10:00 p.m.-12:00 a.m. (midnight).

The following materials must be placed on the ground during refueling:

Plastic tarp
Absorbent material on top of tarp
Drip pan under fueling nozzle
Spill containment material or absorbent booms or pads must be stored at each generator location. 55-gallon drum labeled hazardous material must be placed alongside of each generator. Should spillage occur the absorbent material must be placed in these barrels.
Contractor will be responsible for removing the barrels off of park property.
Contractor will be responsible for any damage to the park’s resources as a result of the refueling.
In case of spill please contact DC Fire and Emergency Medical Services at 911 and National Mall & Memorial Parks’ Chief of Maintenance at (202) 359-1551.

The storage of fuel on parkland, in trailers, next to generators and at other NPS locations is strictly prohibited.

Propane Use:

The use of propane shall be limited to one approved 60-pound container per appliance unless otherwise approved in advance by the NPS.

The connections to propane containers shall be made, tested and repaired prior to opening of the event. The changing of propane containers while the event is open to the public is strictly prohibited.

The storage of additional propane containers on the site, including parked vehicles, trailers, etc. is strictly prohibited.

Propane containers on site shall be secured from falling or being knocked over. Placing the container in a milk crate is recommended. In addition, ground surface must be level.

Concessions:

The sale of food or merchandise must be provided only within the framework of the Concessions Policy Act (Public Law 105-391) and any Concession Contracts issued under the Act. The NPS concessioner, Guest Services, Inc. will provide food and merchandise sales as part of the Swearing-In Ceremony and Parade viewing. All logistics associated with this operation, will be coordinated with Mr. Gordy Kito, NPS Concession Specialist, (202) 245-4675.

On January, 19, 2013, GSI will operate a food and beverage concession stand inside a tent in support of the National Day of Service. See attached map for location.

On January 21, 2013, GSI will operate the existing food kiosks on the Mall as well as two (3) portable food/beverage stands. See attached map for location(s)

Alcoholic Beverages:

The possession and consumption of alcoholic beverages is generally prohibited, except as authorized by an official permit issued by the Superintendent, or in Superintendent-designated park areas located adjacent to concession facilities authorized to sell alcohol.
Glass Bottles:

No glass bottles and/or containers are permitted on parkland

First Aid/Medical Services:

The PIC is responsible for providing First Aid services on-site. Per PIC’s request, the NPS will coordinate First Aid services for the Swearing-In and Parade viewing. The NPS adheres to the District of Columbia Department of Fire & Emergency Medical Services guidelines established according to the number of people anticipated at an event. The following guidelines, established according to the number of people anticipated at an event, will ensure that appropriate medical coverage is provided throughout the event:

- 1-1,999: The Permittee may rely on 911
- 2,000 – 9,999: The Permittee should have a fixed First Aid site with certified/licensed personnel, who will remain on site throughout the event.
- 10,000 – 20,000: The Permittee should have one fixed First Aid site with certified/licensed personnel who will remain on site throughout the event and a Basic Life Support Ambulance (licensed in the District of Columbia) who will transport patients to an appropriate medical facility.
- 20,000 – 30,000: The Permittee should have one fixed First Aid site with certified/licensed personnel who will remain on site throughout the event, a licensed Basic Life Support Ambulance and a Licensed Advanced Life Support Unit (D. C. Fire & EMS has the only certificate of need to provide on-scene paramedic services in the District of Columbia).
- 30,000 – 50,000: The Permittee should have two fixed First Aid sites with certified/licensed personnel who will remain on site throughout the event, two Basic Life Support Units and one Advanced Life Support Unit (both licensed in the District of Columbia).
- 50,000 – 60,000: The Permittee should have two fixed First Aid sites with certified/licensed personnel who will remain on site throughout the event, two Basic Life Support Units and two Advanced Life Support Units (both licensed in the District of Columbia).
- Events exceeding 60,000 participants: The Permittee is required to have emergency medical services personnel from D. C. Fire & EMS as well as the Department of Health on site for the appropriate provision of first aid and/or emergency medical services.

To accommodate the health and medical needs of visitors participating in the 57th Presidential Inauguration, National Park Service employees will work closely with Emergency Medical Service personnel from federal government agencies, city government agencies, and local volunteer organizations to provide care to ill and/or injured visitors.

It is estimated that NPS EMS personnel will treat approximately 500 visitors with significant symptoms and transport approximately 30 visitors to area hospitals.
**MEDICAL TENTS:**

The NPS will staff seven medical tents in the event area:

- One between 3rd and 4th Streets
- Two between 4th and 7th Streets
- Three between 7th and 12th Streets
- One in Lafayette Park

**MEDICAL PERSONNEL:**

Each tent will be staffed with the following personnel:

- One NPS employee to provide visitor services and logistical needs for the providers.
- Two NPS EMTs/First Responders/Paramedics.
- Three Public Health Service Doctors/Nurses/Paramedics.
- Up to Six volunteer EMTs/First Responders. These volunteers will also provide roving around the tent area.
- There will also be approximately 20 NPS EMT's/First Responders/Paramedics roving the Parade Route during the event.

**OPERATIONAL PERIOD:**

Medical tents will operate from 0630 - 1600, or until the event area is clear of visitors.

**LEVEL OF CARE:**

The medical tents will operate with Advanced Life Support (ALS) and Basic Life Support (BLS) capabilities. All providers will be working under the direction of NPS Medical Advisor Dr. William Rogers. EMS personnel will provide medical care to visitors appropriate to their level of training and in compliance with NPS medical protocols.

All patient care will be provided under the "treat and release" system. Patients requiring advanced medical care will be transported by DC Fire & EMS to local hospitals.

**ASSETS:**

The NPS will supply each tent with all medical and logistical equipment needed during the event:
Each tent will be supplied with jump bags, oxygen tanks, AEDs, and other medical supplies. Public Health Service will supply all pharmaceuticals. Extra medical supplies will be stored on site for quick resupply.

Each tent will have cots, tables, chairs, portable toilet, pod for storage, heater, and generator. Fencing will be placed around the tent. Staging of the tent and logistical supplies will begin five days before the event.

**COMMUNICATIONS:**

All EMS personnel will be provided with hand held radios. EMS Dispatch will operate under one repeated channel for the event. All medical and logistical support will be communicated over the designated EMS channel. Other channels will be provided as back-up if necessary.

Each roving team will also carry strobe lights or orange flags into the field to help alert other providers to their location in the crowd. Each tent will have a bull horn to make announcements to the public.

**TRANSPORT:**

NPS EMS Dispatchers will be stationed in the Medical Command Center to facilitate all dispatch calls. DC Fire & EMS personnel will provide all ambulance transport within the event area.

Roving teams will use medical gators, liters, wheelchairs, or stretchers to assist moving patients from the medical tents to waiting ambulances.

USPP will coordinate all helicopter transports within the event area.

**Reunification:**

Permittee must provide a reunification tent/trailer for lost persons. The reunification tent/trailer location will be determined, based upon the site plan, by the Permit Management Specialist and the United States Park Police Events Sargent. A power supply must be proved for a land line.

**Security:**

Permittee is responsible for providing UNARMED security for any equipment left on parkland overnight. Equipment cannot be left unattended at any time. Permittee may contact Sgt. Jim Murphy, United States Park Police, 202-610-7092, to request police personnel to provide the security.
Camping:

Pursuant to 36 C.F.R. 7.96(i), camping is prohibited. Camping is defined as the use of the park land for living accommodation purposes such as sleeping activities, or making preparation to sleep (including the laying down or bedding for the purpose of sleeping), or storing personal belongings, or making any fire, or using any tents or shelter or other structure or vehicle for sleeping or doing any digging or earth breaking or carrying on cooking activities.

The above-listed activities constitute camping when it reasonably appears, in light of all the circumstances that the participants, in conducting these activities, are in fact using the area as a living accommodation regardless of the intent of the participants or the nature of any other activities in which they may also be engaging.

Site Clean-up:

Permittee is responsible for removing all trash and debris resulting from this permitted activity immediately following the conclusion of this activity each date. Any cost incurred by the National Park Service as a result of trash removal will be borne by the person in charge.

The PIC is responsible for all site clean-up associated with all Presidential Inaugural activities held on the National Mall. All trash and debris shall be cleared from the grounds of the National Mall immediately after the conclusion of the Swearing-In and Parade viewing activities.

PIC has made arrangements with the NPS and a private contractor for the collection and removal of all trash and debris associated with this permitted event. This plan also includes a recycling component. Trash receptacles must be placed on hard, paved surfaces and must not overflow with trash or debris.

Sales/Solicitation:

Special attention is drawn to item #4, last page of this permit concerning fees collected and donations solicited on parkland. No merchandise may be sold or offered for sale except for message bearing books, newspapers, leaflets, pamphlets, buttons and bumper stickers. Sales areas can be no larger than 6' wide by 15' long by 6' high, and can have only one table 2½' by 8', or 4' by 4'. See attached regulations.

COMMERCIAL ADVERTISING/SIGNS AND BANNERS

NPS regulations generally prohibit Federal parkland from being used for business solicitation or for the advertisement or promotion of commercial brands, products, and services. As such, no commercial notices and advertisements shall be placed, posted or distributed at the event. Further, no structures representing commercial products, or models or replications of commercial products or merchandise may be displayed.

Further consistent with long-standing NPS policy now under Public Law 108-108, Title I, § 145,
special event permits will expressly prohibit the erection, placement, or use of structures and signs bearing commercial advertising. However, a permit may be issued that authorizes the recognition of sponsors of special events, if the National Park Service determines that the size and form of the recognition is consistent with the special nature and sanctity of the National Mall or any other requested park area, and if the lettering or design identifying the sponsor is no larger than one-third the size of the lettering or design identifying the special event. Further, to the maximum extent practicable for such special events, public use of and access to the National Mall and other parkland is not restricted.

The Permittee shall submit a sign plan for NPS review and approval. Any request seeking NPS approval for sponsor recognition must be submitted to the NPS at least 30 days prior to the proposed event, and depicted on the sign plan. If approved by the National Park Service, sponsor recognition will be authorized within the terms of the special event permit. Authorized sponsor recognition must be in keeping with the NPS policy, regulations, and law, and be appropriate to the scale and theme of the special event. Further, the overall size, number, and design of any signs or banners shall be appropriate to the park setting and the lettering or design identifying the sponsor must be no larger than one-third the size of the lettering or design identifying the special event. Signs and banners may not be affixed to existing trees or other NPS facilities or structures.

Federal parkland may not be used for promotions or advertisement of commercial brands, products, companies or services. The role of donors and/or sponsors of special events and/or activities may be recognized; however, the method of recognition must be in keeping with National Park Service policy and regulations appropriate to the scale and theme of the event and must be approved in advance.

Only signs and/or banners specifically identifying and/or announcing the event or portion of the event are permitted. Commercial sponsors may be recognized on these same banners by letters and/or logos not to exceed one-third the height and width of the primary lettering identifying the event.

Distribution or give-away of any commercial product is limited to only those that may be consumed on the event site such as juices or popcorn. Soliciting personal information such as names, addresses, telephone numbers, zip codes, etc., or any other information, which may be used for future solicitation, or marketing purposes is strictly prohibited.

Cameras, equipment, crew, and participants in this filming may not be situated on sidewalks, paths, or roadways that prohibit the passage of pedestrians and/or vehicles. No equipment may be attached and/or affixed to any plant materials (i.e. trees and shrubs) or structures. Running cables thru trees is prohibited.

No exclusive use of the area is permitted and the area must remain open to the general public at all times. This filming may in no way impede or prevent public access to the area.

Parking is permitted in designated parking spaces only. No parking spaces may be reserved. All public spaces are available only on a first come, first use basis. No reserved parking for “crew vehicles” is permitted. Crew vehicles must park in available public parking spaces.

Support vehicles/production trailers for the filming may park on the Mall gravel walkways as indicated by the attached site plan. SEE ENCLOSED MAP

No electrical service is available. The use of a portable generator, to be provided by the Permittee, is permitted. Plywood or a similar material must be placed beneath the generator to protect the turf.

Cabling across entrances and handicapped accessible ramps must be ADA approved and cannot impair or prevent access. All cables must be covered to prevent tripping hazards.

**Marshals/Volunteers:**

The PIC is responsible for providing marshals/volunteers to assist with maintaining good public order, visitor information and way-finding. Prior to January 19, 2013, P.I. C. must provide a color copy of Marshals identification to the National park Service and United States Park Police. Marshals should be aware of their responsibilities and should have received earlier from the PIC adequate training and instructions as to their duties and responsibilities. To help assist your participants, Marshals should be aware of the authorized permit area, the location of nearby Metro stations, first aid stations, water and toilets. Marshals should be knowledgeable of the NPS permit conditions and be able to communicate with the PIC, and if necessary with the United States Park Police officers or National Park Service rangers if they think they observe a problem. While Marshals may NOT act as police, they can work with and help maintain order among your participants, explain to non-participants that a particular area may be under permit, and should be able to immediately alert their supervisor(s), and if necessary United States Park Police officers or National Park Service rangers if they observe a problem. To assist you on-site, there should also be nearby a Park Police or Park Ranger.

**Access to Inaugural Permit Areas**

Please note that it is widely expected that unprecedented numbers of people may seek to be on the National Mall to observe the Inaugural Swearing-In Ceremony and Parade. So it is expected that closed streets, the Mall gravel walks and the sidewalks on January 21, 2013 will be very crowded as people come to observe the events.
As such, Marshalls should pay close attention to escorting to and maintaining ADA accessible locations that have been established on the National Mall for persons with disabilities.

**Accessibility:**

The Americans with Disabilities Act (ADA) applies to temporary services, programs, and activities. Temporary facilities and structures must comply with the ADA Standards.

Policies and operations for the event must meet the nondiscrimination requirements of the ADA, including, but not limited to provision of accessible parking, routes through site, food service, toilet, facilities, and assembly seating.

The PIC is responsible for providing auxiliary aids and services as requested. PIC is responsible for providing promotional material explaining how the public can request a particular auxiliary aid or service and be informed of when specific auxiliary aids and services may be available for all Presidential Inaugural Ceremonies held on parkland.

Service animals, as defined by the Americans with Disabilities Act (ADA), are permitted under proper supervision. The ADA defines a service animal as any guide dog, signal dog, or other animal individually trained to provide assistance to an individual with a disability. If they meet this definition, animals are considered service animals under the ADA regardless of whether they have been licensed or certified by a state or local government.

The PIC must consider elements of accessibility when designing the layout of the event. Potential items for inclusion are:

- Addition of temporary curb ramps where needed to provide an accessible route
- Location of structures and tents along an accessible route
- Provision of auxiliary aids and services
- Provision of and an accessible route from transit stops to the event location
- Provision of tactile braille signage
- Provision of portable wheelchair lifts to access stages or other elevated areas.

**Adverse Weather Policy:**

When there is a threat to public health or safety, the Superintendent and/or his/her designee, may close the National Mall or an event being held there for such duration as determined necessary to ensure the safety and wellbeing of the public. Such situations have occasionally occurred in the past where park areas have been closed due to severe weather warning of heavy snow and thunderstorms with lightning and high winds. Where an area is ordered closed due to a weather-related public safety threat, pursuant to 36 CFR 2.32(2) people must comply with official directions to leave the closed area and relocate to safer sheltered locations.

**Note:** PIC High Wind action Plan Crew Manager is Zack Smolenack (570) 313-8231.
Closing or canceling a Presidential Inaugural Ceremony event is a last resort. However, while most events will be held despite the weather, the PIC is responsible for providing updated information in the event schedules and drop-off points may change. If a snow emergency is declared, programs may be closed early or canceled.

The Permittee agrees to save and hold harmless the United States of America, and its agents and employees, from any and all claims, damages, suits at law or equity, of whatever kind or nature, for damages to or loss of property, or injury or death to persons resulting directly or indirectly from, or attributable to the Permittee or its participants (service providers) in conjunction with activities authorized by this permit.

The Permittee agrees to save and hold harmless the United States of America, and its agents and employees, from any and all claims, damages, suits at law or equity, of whatever kind or nature, for damages to or loss of property, or injury or death to persons resulting directly or indirectly from, or attributable to the Permittee or its participants (service providers) in conjunction with activities authorized by this permit.

**Event Security and Public Safety:**

NPS Permits Management Specialist and/or Event Monitors may be assigned for on-site supervision each day of the event. In addition, U.S. Park Police officers may also be assigned to provide for public safety. All reasonable instructions given by authorized NPS or U.S. Park Police personnel must be obeyed promptly. Failure to comply with all the terms and conditions of the special event permit may constitute grounds for revocation of the permit and immediate termination of the event and/or citation against the violator.

Beginning with event set-up, and continuing throughout the permit term until tear-down is completed, the Permittee is responsible for ensuring that no equipment or materials are left unattended at any time, including overnight. This can be accomplished by providing qualified persons from the Permittee’s organization, by contracting with a commercial security firm, or by making prior arrangements with the U.S. Park Police for their services.

The Permittee is responsible for additional safety and crowd management and selecting a contract security company to provide 24-hour security of equipment for the event, from installation through load out. Security personnel can be assigned to security posts at VIP access points and exhibit areas. This can also include office, program, and storage areas. Be advised no armed security is allowed at any time.

All services, including, but not limited to, VIP access control, VIP protection, and overnight security rounds, must be provided by employees of licensed, incorporated security companies. All other security functions must be provided by the U.S. Park Police. Contracted security firms must meet the following criteria:
• All security personnel must be unarmed.
• Contractor must provide appropriate insurance.
• All contracted security personnel must possess a current District of Columbia Security Guard License.
• All contracted security personnel must wear proper uniforms, and identification, and display a professional and courteous attitude.
• Contractor must have the ability to supply additional personnel as required.
• Contractor must attend scheduled briefing and operational meetings.
• Contractor must abide by all relevant laws and rules of conduct.

Security fencing and crowd control measures must be shown on the site plan.

Credentials:

All staff, volunteers and vendors involved in the construction and teardown of the temporary structures and all event components must have some form of identification. The credentials will identify the person by name and category and include any event logo. Colored copies of all credentials will be provided to the NPS Permits Management Specialist and U.S. Park Police in advance of the construction, event and tear-down.

Relevant credentials to include:

• Press
• VIP
• Artist
• Security
• Production Staff
• All Access

Additional Permits: Permittee is responsible for contacting the Metropolitan Police Department, (202) 671-6522, to obtain the necessary approval and/or paperwork for the use of city streets.

3. All laws, rules and regulations applicable to the area covered by this permit remain in effect.

4. No fee may be collected, donation solicited, or commercial activity conducted. No items may be sold or offered for sale except for books, newspapers, leaflets, pamphlets, buttons and bumper stickers which contain a message related to your demonstration or special event. No other merchandise may be sold or offered for sale. A stand or structure used for the sale of permitted items may not exceed one table per site, which may be no larger than 2 1/2 feet by 8 feet or 4 feet by 4 feet. The dimensions of the sales site may not exceed 6 feet wide by 15 feet long by 6 feet high.

5. The area should be left in substantially the same condition as it was prior to the activities authorized herein, and all litter shall be placed in the trash containers provided.

6. This permit is applicable only for the use of the area designated above, and during the times designated above, or in any area as may hereafter be designated by the United States Park Police.

7. The use of sound amplification equipment, other than hand-portable sound amplification equipment to be used for crowd control purposes only, is prohibited on the White House Sidewalk (South 1600 Pennsylvania Avenue, NW, sidewalk between East Executive Avenue and West Executive Avenue). All sound amplification equipment shall be limited so that it will not unreasonably disturb nonparticipating persons in, or in the vicinity of, the area.

8. The National Park Service reserves the right to immediately revoke this permit at any time should it reasonably appear that the public gathering presents a clear and present danger to the public safety, good order or health, or if any conditions of this permit are violated.

PUBLIC GATHERING PERMIT

Date: January 2, 2013

In accordance with Park Regulations as contained in C.F.R., Title 36, Chapter 1, Section 7.96, permission is granted to conduct a public gathering to the following:

Person(s) and/or Organization(s): Presidential Inaugural Committee 2013 (PIC)

Date(s): 01/02/2013 To: 01/05/2013
Time: Starting: 12:01 am Ending: 11:59 pm
Location(s): National Mall - Panels #3, #18 & #19, Between 12th & 14th Streets

Purpose(s): STAGING AND EVENT SETUP FOR THE PRESIDENTIAL INAUGURATION.

Anticipated Number of Participants: 500000
Person(s) in Charge: KATHYRN MINOR
Address(es): 330 C Street SW, Washington, DC 20230
Telephone Nos. Day: 202-607-6768

This permit is granted subject to the following conditions:

1. Permittee and all participants authorized therein must comply with all of the conditions of this permit and with all reasonable directions of the United States Park Police.

2. All sidewalks, walkways, and roadways must remain unobstructed to allow for the reasonable use of these areas by pedestrians, vehicles and other park visitors.

PERMITTEE IS RESPONSIBLE FOR READING AND ADHERING TO THE ATTACHED ADDITIONAL CONDITIONS.
Additional Conditions
Permit #13-449
Presidential Inaugural Committee
National Mall – Panels #3, #18, & #19, Between 12th & 14th Streets
January 2-5, 2013 (12:01 a.m.-11:59 p.m.)

The Presidential Inaugural Committee is provided a regulatory preference for the use of the National Mall between 14th and 1st Streets, January 6 through January 30. At their request, this permit is being issued to facilitate changes in time lines associated with a change in the use of temporary structure(s).

This permit authorizes the construction and/or placement of a tent, portable toilets, fencing, flooring and a production staging area, in support of the Presidential Inaugural National Day of Service, the Swearing-In Ceremony and Parade, between 12th and 14th Streets.

This permit is being issued to the PIC with the provision to allow the installation of a tent, portable toilets, fencing, flooring and a production staging area, prior to PIC fulfilling its obligation of providing the National Parks Service with a cost recovery deposit, in the form of an irrevocable letter of credit or cash deposit and certificate of insurance prior to the start of any Presidential Inaugural Ceremonies activities held on National Park land.

Permission for construction and/or placement of support structures listed above is granted based on the attached layout diagram for all areas referenced in this permit.

The Permittee agrees to be fully responsible for the management, performance, use and safety within the permit area involved in this authorization until the work is completed, inspected, and accepted. The Permittee hereby agrees to accept responsibility and assume liability for any and all tort claims arising from the actions or omissions of its representatives or employees directly or indirectly connected with the work performed, the maintenance of, or the use of this facility to the greatest extent permitted by law. To the extent that the work is performed by non-Governmental persons or organizations, the Permittee shall require such persons or organizations to:

a. Procure public and employee liability insurance from responsible companies with a minimum limitation of $2,000,000 per person for any one claim and an aggregate limit of $5,000,000 for any number of claims arising from any one incident. The United States of America shall be named as an additional insured on all such policies. The permit number will be included on said policy. All such policies shall specify that the insured shall have no right of subrogation against the United States for payments of any premiums or deductibles, thereunder, and such insurance policies shall be obtained by, be for the account of, and be at the insured’s sole risk.

b. Pay the United States the full value of any damages to the lands or other property of the United States caused by any omission or activity in connection with this permit.

c. Indemnify, save and hold harmless and defend the United States against all fines, claims, damages, losses, judgments and expenses arising out of, or from any omission or activity in connection with this permit.
General Conditions

Permittee and all participants authorized therein must comply with all of the conditions of this permit and with all reasonable directions of the National Park Service and United States Park Police personnel.

All sidewalks, walkways, and roadways must remain unobstructed during the construction activities to allow for the reasonable use of these areas by pedestrians, vehicles, and other park visitors.

Prior to beginning construction or placement of all facilities, PIC's contractors or agents will contact Ms. Robbin Owen, Deputy Inaugural Coordinator or Leonard Lee, Assistant Deputy Inaugural Coordinator, (202) 691-2352 to coordinate specific logistical requirements. Permittee and its representatives will follow instructions provided by these individuals with regard to accessing park property and will take all precautions to protect park resources.

All requests, correspondence and meetings with the National Park Service pertaining to this permit shall be scheduled by the Permittee only. All contractors, subcontractors or consultants must channel their requests through the recognized representatives of the Permittee, who in turn will contact the National Park Service.

The Permittee shall ensure that all logistical equipment/structures placed on park property adhere to all applicable codes, standards, and regulations including but not limited to BOCA, OSHA, USPHS, and ADA, covering requirements including but not limited to safe construction practices and grounding of generators.

All activities pursuant to this permit shall be in compliance with the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252; 42 U.S.C. 200d ed seg.); Title V, Section 504 of the Rehabilitation Act of 1973 (87 Stat. 394; 29 U.S.C. 794); the Age Discrimination Act of 1975 (89 Stat. 728; 42 U.S.C. 6101 et seg.); and with all other Federal laws and regulations prohibiting discrimination on grounds of race, color, national origin, handicap, religion, or sex in employment and in providing facilities and services to the public. Nothing in advertising for employees shall be done which will prevent those covered by these laws from qualifying for employment.

The Permittee shall require all employees and/or contractors to exercise all normal and reasonable safety precautions and to protect park visitors and property. Suitable devices such as barricades, fences, lanterns, etc. necessary for employee and public safety, shall be provided and adequately maintained. Such devices require the concurrence of the NPS Deputy Inaugural Coordinator or designated representative.
Additional Conditions
Permit #13-449
Presidential Inaugural Committee
National Mall – Panels #3, #18, & #19, Between 12th & 14th Streets
January 2-5, 2013 (12:01 a.m.-11:59 p.m.)

Throughout the course of this permit, the P.I.C., its contractors and agents are responsible for taking all necessary precautions to minimize resource damage throughout the permitted area. In addition, Permittee must supervise their contractors and employees during set-up and teardown to assure that there is no damage to park resources.

No wires or cables are to be attached to trees or other vegetation or flown aerially. Any wires or cables required in support of permitted activities must be run on the ground, in troughs or yellow jackets, to prevent tripping hazards. Troughs covering pedestrian walkways must be ADA compliant.

All laws, rules and regulations applicable to the area covered by this permit remain in effect.

The Permittee shall be responsible for the cost and repairs to any structures, facilities, roadways, sidewalks, infrastructures, sod, soils, or landscape vegetation on park land damaged by the work authorized under this permit.

The area must be left in substantially the same condition as it was prior to the activities authorized herein, and all litter shall be placed in the trash containers provided.

This permit is applicable only for the use of the areas designated above, and during the times designated above.

The National Park Service reserves the right to immediately revoke this permit at any time should it reasonably appear that the activity presents a clear and present danger to the public safety, good order or health, or if any conditions of this permit are violated.

A copy of this permit shall be available on site for inspection by National Park Service and United States Park Police personnel.

All proposed amendments or additions to this permit and all proposed locations of vehicles, equipment, storage, installations of any kind, areas of activity, work and power plans shall be submitted to the NPS for prior written approval prior to the installation of facilities. These proposals shall be in map or diagram form suitable for on the ground inspection.

Permittee will provide an on-site coordinator to be accessible to the National Park Service and the United States Park Police personnel at all times during construction or set-up activities and during dismantling of facilities post-event.

All staff, volunteers and vendors involved in the construction and teardown of the temporary structures must have some form of identification. The credentials will identify the person by name and category and include any event logo. Colored copies of all credentials will be provided to NPS and USPP in advance of the construction.
Additional Conditions
Permit #13-449
Presidential Inaugural Committee
National Mall – Panels #3, #18, & #19, Between 12th & 14th Streets
January 2-5, 2013 (12:01 a.m.-11:59 p.m.)

Due to the exceptional time and weather constraints associated with this permit and the complexity of multiple contractors bringing materials and equipment to park land, special attention is assigned to the requirement that the Permittee will at all times provide an on-site coordinator to be accessible to National Park Service and United States Park Police personnel during construction or set-up activities and during dismantling of facilities post-event.

SPECIFIC CONDITIONS FOR CONSTRUCTION AND/OR PLACEMENT OF TRAILERS, TENTS, GENERATORS AND PORTABLE TOILETS, ON THE NATIONAL MALL:

The P.I.C. is required to meet OSHA guidelines regarding employee/subcontractor work schedules. No employee/subcontractor is to work no more than 10 hours within a 24 hour period. Any work required beyond the 10-hour limitation will need to be requested to the NPS in advance for review and approval by the Superintendent, National Mall and Memorial Parks.

All trailers and other temporary structures, must be at least (5) feet from ADA accessible ramps and must not block pedestrian access along the sidewalks and gravel walks.

All trailers and other temporary structures must be erected to allow access to building entrances and/or driveways at all times.

All portable toilets must be placed in groups of (5) or less, with a (6') clearance between each group.

The PIC is responsible for having its contractor secure all media stands while not in use. Trailers and restrooms must be locked while not in use and generators, light and sound towers must be secured by bike rack and/or fencing. The PIC and/or its contractor will be required to provide unarmed 24-hour security to monitor all equipment and structures daily.

All metal parts, or fiberglass-like structural components, of facilities shall be separated from masonry or ground with not less than one foot square of 3/4" inch unpainted plywood and/or heavy duty interlocking plastic material.

The Permittee shall be responsible for any injuries and/or damage to government property occurring as a result of this permitted activity, including stains created by installing the above facilities. Any stains created shall be removed at the expense of the Permittee. To avoid or minimize any potential damage, it is recommended that galvanized steel or pre-painted components be used. If on-site painting is required, the sidewalks and plaza areas must be properly protected.
Additional Conditions
Permit #13-449
Presidential Inaugural Committee
National Mall – Panels #3, #18, & #19, Between 12th & 14th Streets
January 2-5, 2013 (12:01 a.m.-11:59 p.m.)

Trailers, tents and other temporary structures, shall not be erected on/or over plants, planters, trees, tree wells, steps or statues.

All trash, debris, and litter resulting from activities of this permit shall not be allowed to accumulate and shall be bagged and placed on or next to trash receptacles or removed from the site.

The Permittee and all exhibitors may not load in any materials prior to the predetermined load in period.

Resource Protection:

Pursuant to 36 CFR 7.96(g)(5)(vi)(C), 2.31(a)(2),(3) the destruction, defacement, damaging, alteration, or removal of park resources or facilities is prohibited. No item, including signs or banners, may be attached to park trees, plantings, benches, statues, walls, fences, or other park property.

To protect the resources, stages, stands and other facilities approved for placement on the grass panels and gravel walkways between 7th and 14th Streets, must be supported by 3/4 inch plywood. Material to be used must be approved in advance by NPS.

Digging or trenching is prohibited on parkland in conjunction with a special event.

Throughout the course of this permit, the PIC will require its employees/volunteers, and contractors, to exercise special care and attention to protect the resources of the National Mall and its environs. In addition, the PIC must supervise their contractors and employees during set-up and teardown to assure that there is no damage to park resources. C3 Presents have been identified as the PIC production representative.

Landscape:

Lawn, trees, shrubs, and the irrigation system, electric conduits, and water mains located within the National Mall permit area, shall be protected from adverse impacts associated with event activities.

Heavy Equipment Near Trees and Shrub: Prior to construction activity, the NPS must approve the use of any heavy equipment (crane, back hoe, etc.) placed under or near trees or shrubs. Please note that approval for this type of activity is rare. If approval is granted, the permit holder must comply with a number of regulations.
Additional Conditions
Permit #13-449
Presidential Inaugural Committee
National Mall—Panels #3, #18, & #19, Between 12th & 14th Streets
January 2-5, 2013 (12:01 a.m.-11:59 p.m.)

These include (but are not limited to) the application of 6" to 8" inches of wood chips (shredded or chipped hardwood, with particles not to exceed 1/2 x 6 inches, with uniform texture free from soil, stones, weeds, sticks, clay, or other materials undesirable for the intended or injurious to growth), on top of geotextile fabric. On top of the wood chips, a metal plate, or other rigid plates designed for this purpose (Duradeck or approved equivalent), shall be placed to distribute the load. Equipment must remain on top of the plate.

**Turf Protection:** For the purpose of protection, any area not paved shall be treated as lawn. No heavy equipment (cranes, backhoes, etc.), vehicles or stock piling of materials is permitted on turf areas without the approval of the NPS. Limited activity of this sort may only take place with prior, written approval from the NPS, in defined areas and with load spreading techniques.

**Vehicular access to turf areas between 12th & 14th Streets, will only be permitted per conditions listed below:**

Driving directly on all turf and tree panels is prohibited. Vehicles, forklifts, frontend loaders, or any other heavy duty equipment, moving heavy equipment on turf in this area must be supported by some form of heavy duty plastic material that clicks or snaps together to avoid movement of material and tripping hazards. The temporary interlocking protective material supports shall be installed in (treed panels if permitted), over plazas, walkways, and turf areas for the ingress and egress of all vehicles/units or heavy equipment by the PIC. **Material to be used must be approved in advance by NPS**

Temporary turf cover materials used for vehicular travel (load-in and load-out) should be removed as soon as possible to prevent damage to turf.

Display vehicles, stored equipment, materials, etc., on turf or walkway areas shall be supported by 3/4 inch plywood or temporary interlocking protective material heavy enough to support the wheels and jacks of all vehicles/mobile units.

Parking of Permittee(s) employee’s or subcontractors private vehicles for conduct of this permit’s activities, in tree panels and/or on turf or walkway areas is prohibited.

**Site Furnishings:**

Permittee may not move or otherwise harm existing site furnishings, including but not limited to posts and chains, benches, waste receptacles, and drinking fountains. No attachments may be made to, pass through, or be affixed to existing site furnishings.

Additional temporary site furnishings may be provided by the Permittee; however, these furnishings must meet the guidelines set forth in this document. No permanent installation of site furnishings is permitted.
Additional Conditions
Permit #13-449
Presidential Inaugural Committee
National Mall – Panels #3, #18, & #19, Between 12th & 14th Streets
January 2-5, 2013 (12:01 a.m.-11:59 p.m.)

**Hard Surfaces:**

Temporary protection of all hard surfaces affected by the construction or erection of staging
elements, sound towers, camera equipment, cranes, lighting structures, miscellaneous equipment,
or large crowds, must be provided. All protective pads or cushioning devices shall be non-
staining.

**Oil Or Hydraulic Fluid Leaks:** Temporary protection of hard surfaces shall be used where
motorized vehicles are operating to avoid oil and/or hydraulic fluid leaks. Should a leak of this
type occur, the permit holder shall be held liable for clean-up, at no expense to the NPS.

**Structures-Center Panels-12th-14th Streets:**

To protect the turf areas, it is strongly encouraged that structures be placed on the Mall’s
hardscape areas where it would not impact the turf. The NPS may allow under permit the use of
turf areas, however, if the structure and its equipment use the turf protection measures as detailed
throughout this permit. All structures must minimize all points that come in contact with the turf.

All structures must follow the guidelines below and adhere to National Fire Protection
Association codes.

Any temporary structure exceeding over 500 square feet require the submission of engineered
drawings stamped by a structural engineer licensed in the United States. Drawings should
include tent support lines identified by flagging.

Structures on the turf should be on a raiser with as few points as possible touching the turf. Each
point that does touch the turf should have Enkamat Flatback 8 or equal product and plywood
pads under all points as outlined:

Each screw jack should have a wooden pad and two layers of Enkamat Flatback or equal
product, eighteen inches square (18”x18”). Concrete pads should have four (4) layers of
Enkamat Flatback or equal product. Under each concrete tower pad two (2) layers of plywood.

All screws and fasteners used in the construction of structures should be policed during the build
and retained during removal. Screws and fasteners should be made of a non-aluminum metal,
ensuring a post-event magnet sweep to ensure all pieces are removed from the site.

**Tents:** To protect the turf, tents should be located on hardscape surfaces including gravel,
asphalt, concrete; granite etc. Unless approved by NPS, tents and other similar structures must be
secured using water-filled ballast tanks. No stakes are permitted on hardscape surfaces.
Additional Conditions
Permit #13-449
Presidential Inaugural Committee
National Mall – Panels #3, #18, & #19, Between 12th & 14th Streets
January 2-5, 2013 (12:01 a.m.-11:59 p.m.)

Non-freezing, no-staining liquid approved by the NPS (water treated with bio-degradable antifreeze) in plastic containers shall be used as weighing elements. No sand bags are permitted for this purpose.

Tents must be constructed of fire retardant material. A certificate of fire retardant material must be provided as confirmation to the NPS.

Tents should be placed at least 5 to 10 feet apart.

At takedown, all water filled ballast tanks must be pumped to the nearest catch basin (located within the curbs) or to the area drains located throughout the hardscape. Tanks may not be drained into the turf or pumped in gravel areas. This prevents creation of muddy puddles and soft areas in the turf and also limits runoff of gravel into area drains.

**Fencing:**

Any fencing or other physical barriers planned for the event must be shown on the site plan and called out by type.

Fencing must be designed in such a way that it does not prevent safe egress from the event.

Fencing located on turf areas may not be staked into the ground unless authorized by permit. If authorized, stakes must be no longer than eighteen inches (18") driven into the ground. Stakes must avoid all underground pipes and fixtures.

In the event chain linked fencing is used, security barbed wire is prohibited.

Concrete barriers (such as jersey barriers) are permitted only on hardscape areas.

Tree protection fencing may be required as a condition of the permit.

**Evening Work:**

Evening work may be conducted for both load in and load out periods with prior permission by the Superintendent. For work conducted during evening hours a portable lighting system is required. In addition all motor vehicles including golf cart(s) must have lights. Generally night work is not allowed after 10:00 pm and prior to 6:00 am.
Additional Conditions
Permit #13-449
Presidential Inaugural Committee
National Mall – Panels #3, #18, & #19, Between 12th & 14th Streets
January 2-5, 2013 (12:01 a.m.-11:59 p.m.)

Crate Storage and Bone Yards on the Mall:

Crate storage, bone yards and staging areas may never be located within the tree panels; they must be located on hardscape areas or off-site. Panels #3 and #40 may be used for this purpose with NPS approval and proper resource protection.

Bone yards may not be located on Madison or Jefferson Drives.

Staging areas for pallets must be designated for set up and take down only. Off-site preparation and construction in bone yards is strongly encouraged. On-site staging areas are to be used for no more than two (2) days; staging and storage requiring lengths of greater than two (2) days must occur off-site.

Site Access – The Mall, 12th-14th Streets:

Commercial vehicle access to the National Mall, gravel walks/sidewalks for set-up, event, and tear down will be allowed on a reasonable basis to be monitored by NPS/USPP. Permittee is responsible for contacting Sgt. Jim Murphy, United States Park Police, (202) 610-7092, to acquire vehicle access passes for any commercial vehicles to access the Mall from the gravel walks.

Access onto the gravel walks will be from 7th Street. Logistical vehicles entering/exit ing the Mall are not permitted to enter/exit sidewalks from Madison Drive nor Jefferson Drive.

Extreme caution must be exercised when driving on the gravel walks. Pedestrian access must be maintained at all times, however, if for safety reasons, an area has to be temporarily closed to the public, the PIC will make their request to NPS for approval.

Except when being driven on established public vehicular roadways: Logistical equipment and vehicles, including gas and electric carts, must not exceed 5-mph. All trucks with a GVW of over 7500 pounds, and equipment such as bucket trucks, platform lifts, forklifts, and cranes, must be accompanied by a walking spotter when moving or operating in an area accessible to the public.

Vehicles must have headlights on while in motion. All individuals operating Golf Carts on NPS property must have a Valid Driver’s License. All Golf Carts operating after dusk, must have fixed and/or portable illumination.

No vehicle shall obstruct or interfere with the Martz Express transportation service which utilizes Jefferson Drive, between 14th and 12th Streets.
Additional Conditions
Permit #13-449
Presidential Inaugural Committee
National Mall – Panels #3, #18, & #19, Between 12th & 14th Streets
January 2-5, 2013 (12:01 a.m.-11:59 p.m.)

Temporary interlocking protective material supports shall be installed in turf panels for the ingress and egress of all vehicles/units or heavy equipment by the Permittee.

Parking of Permittee(s) employee’s or subcontractors private vehicles for conduct of this permit's activities, in tree panels and/or on turf or walkway areas is prohibited.

The PIC must receive prior, written approval from the NPS if traffic is to be blocked at any time during preparation for, during the course of, and after a special event or demonstration (at any location in the immediate vicinity of the National Mall). If District of Columbia streets are to be blocked, the appropriate authorities must be notified as well.

Emergency Access:

All pathways and roadways must remain open and unobstructed. A minimum twenty foot (20’) drive aisle must remain open at all times for emergency vehicle egress. No temporary or permanent structures may be located within the egress lane. The egress drive aisle must be called out on the site plan.

Deliveries and removal of materials shall occur so as to not adversely affect daily operations of NPS Concessioners and Museums in and around the National Mall. No deliveries shall be made after hours without prior, written approval from the NPS.

Submittal Requirements: A plan of how the site will be approached and how traffic will be controlled is required for logistical vehicles that are delivering and/or removing temporary equipment and supplies. In this submittal, information documenting the path of vehicular traffic in and around the roadways of the National Mall during preparation for, during the course of, and after all activities associated with the Presidential Inaugural, is required. Rules and regulations for District of Columbia streets also shall be observed. Signs directing vehicular and pedestrian traffic shall be furnished, with text and locations of signs indicated on the plan.

Parking:

The PIC is responsible for coordinating parking requests for parking logistical vehicles on Madison and/or Jefferson Drives with NPS Presidential Inaugural Committee members, Ms. Robbin Owen and/or Mr. Leonard. D. Lee.
Additional Conditions
Permit #13-449
Presidential Inaugural Committee
National Mall – Panels #3, #18, & #19, Between 12th & 14th Streets
January 2-5, 2013 (12:01 a.m.-11:59 p.m.)

Portable Toilets/Comfort facilities:

The PIC is responsible for providing sufficient portable restrooms to accommodate the anticipated crowd within the permitted areas. The NPS recommended ratios are one (1) unit per three hundred (300) people; twenty percent (20%) of the total must be ADA accessible. Upon completion of the restroom placement, PIC must secure the restrooms until ready to use on the event day(s). The PIC must provide a plan to the NPS regarding servicing these restrooms throughout the event.

Electricity and Generator Usage:

No electricity available on site. The PIC may provide own gasoline and/or solar powered generator(s) to provide power for tents, trailers, video and sound, towers and lighting. Generators will be installed in accordance with the site plan, D.C. Fire Department guidelines, and safely installed per manufacturer requirements. The fueling/refueling of gasoline powered generators on parkland is prohibited*. The storage of additional fuel is prohibited. ¾” Plywood or similar material must be placed underneath the generator to protect the turf/gravel areas.

All wires must be covered by mats and/or yellow jackets to prevent tripping hazards. The cord must be in good condition, of sufficient gauge to accommodate the electrical load of equipment and must be properly grounded.

All cables, power lines, etc. shall be run in an orderly manner and contained in matted yellow jackets that provide for safety and accessibility. No power lines/phone lines can be strung between trees.

*Refueling of generators: Pursuant to NPS approval, refueling of gasoline generators will be permitted pursuant to the following conditions:

Refueling will only be allowed on dates and times agreed upon in advance with the NPS.

The following materials must be placed on the ground during refueling:

Plastic tarp
Absorbent material on top of tarp
Drip pan under fueling nozzle
Spill containment material or absorbent booms or pads must be stored at each generator location 55-gallon drum labeled hazardous material must be placed alongside of each generator. Should spillage occur the absorbent material must be placed in these barrels.

Contractor will be responsible for removing the barrels off of park property
Contractor will be responsible for any damage to the park’s resources as a result of the refueling. In case of spill please contact DC Fire and Emergency Medical Services at 911 and National Mall & Memorial Parks’ Chief of Maintenance at (202) 359-1551.
Additional Conditions
Permit #13-449
Presidential Inaugural Committee
National Mall – Panels #3, #18, & #19, Between 12th & 14th Streets
January 2-5, 2013 (12:01 a.m.-11:59 p.m.)

The storage of fuel on parkland, in trailers, next to generators and at other NPS locations is strictly prohibited

Propane Use:

The use of propane shall be limited to one approved 60-pound container per appliance unless otherwise approved in advance by the NPS.

The connections to propane containers shall be made, tested and repaired prior to opening of the event. The changing of propane containers while the event is open to the public is strictly prohibited.

The storage of additional propane containers on the site, including parked vehicles, trailers, etc. is strictly prohibited.

Propane containers on site shall be secured from falling or being knocked over. Placing the container in a milk crate is recommended. In addition, ground surface must be level.

Glass Bottles:

No glass bottles and/or containers are permitted on parkland

Security:

Permittee is responsible for providing UNARMED security for any equipment left on parkland overnight. Equipment cannot be left unattended at any time. Permittee may contact Sgt. Jim Murphy, United States Park Police, 202-610-7092, to request police personnel to provide the security.

Camping:

Pursuant to 36 C.F.R. 7.96(i), camping is prohibited. Camping is defined as the use of the park land for living accommodation purposes such as sleeping activities, or making preparation to sleep (including the laying down or bedding for the purpose of sleeping), or storing personal belongings, or making any fire, or using any tents or shelter or other structure or vehicle for sleeping or doing any digging or earth breaking or carrying on cooking activities. The above-listed activities constitute camping when it reasonably appears, in light of all the circumstances that the participants, in conducting these activities, are in fact using the area as a living accommodation regardless of the intent of the participants or the nature of any other activities in which they may also be engaging.
Additional Conditions
Permit #13-449
Presidential Inaugural Committee
National Mall – Panels #3, #18, & #19, Between 12\textsuperscript{th} & 14\textsuperscript{th} Streets
January 2-5, 2013 (12:01 a.m.-11:59 p.m.)

Site Clean-up:

Permittee is responsible for removing all trash and debris resulting from this permitted activity immediately following the conclusion of this activity each date. Any cost incurred by the National Park Service as a result of trash removal will be borne by the person in charge.

Additional Permits: Permittee is responsible for contacting the Metropolitan Police Department, (202) 671-6522, to obtain the necessary approval and/or paperwork for the use of city streets.

The Permittee agrees to save and hold harmless the United States of America, and its agents and employees, from any and all claims, damages, suits at law or equity, of whatever kind or nature, for damages to or loss of property, or injury or death to persons resulting directly or indirectly from, or attributable to the Permittee or its participants (service providers) in conjunction with activities authorized by this permit.

Attachments: See site plan, time line and production staff listing attached.

A COPY OF THIS PERMIT MUST BE ON-SITE WHILE OPERATING UNDER THE AUTHORITY GRANTED.
## 2013 Inaugural Build / Strike Schedule
### The National Mall

**as of 12/28/2012**

### Wednesday, January 2
- **Heavy equipment delivered**
  - **Delivered by:** SUNBELT
  - **Time:** 7:00am-6:00pm
  - **Trucks:** 4

### Thursday, January 3
- **Parade participant tent flooring install**
  - **Vendor:** CLASSIC
  - **Time:** 7:00am-6:00pm
  - **Trucks:** 4
- **Ground protection for C3 Village install**
  - **Vendor:** EPS
  - **Time:** 9:00am-4:00pm
  - **Trucks:** 2
- **Production portolets delivered**
  - **Vendor:** UNITED
  - **Time:** 10:00am-11:00am
  - **Trucks:** 1

### Friday, January 4
- **Parade participant tent flooring install**
  - **Vendor:** CLASSIC
  - **Time:** 7:00am-6:00pm
  - **Trucks:** 4
- **Fencing for C3 Village installed**
  - **Vendor:** NATIONAL
  - **Time:** 10:00am-4:00pm
  - **Trucks:** 2

### Saturday, January 5
- **Parade participant tent install**
  - **Vendor:** CLASSIC
  - **Time:** 7:00am-6:00pm
  - **Trucks:** 4
- **Ground protection for PP tent E/W install**
  - **Vendor:** EPS
  - **Time:** 9:00am-6:00pm
  - **Trucks:** 3

</table>
3. All laws, rules and regulations applicable to the area covered by this permit remain in effect.

4. No fee may be collected, donation solicited, or commercial activity conducted. No items may be sold or offered for sale except for books, newspapers, leaflets, pamphlets, buttons and bumper stickers which contain a message related to your demonstration or special event. No other merchandise may be sold or offered for sale. A stand or structure used for the sale of permitted items may not exceed one table per site, which may be no larger than 2 1/2 feet by 8 feet or 4 feet by 4 feet. The dimensions of the sales site may not exceed 6 feet wide by 15 feet long by 6 feet high.

5. The area should be left in substantially the same condition as it was prior to the activities authorized herein, and all litter shall be placed in the trash containers provided.

6. This permit is applicable only for the use of the area designated above, and during the times designated above, or in any area as may hereafter be designated by the United States Park Police.

7. The use of sound amplification equipment, other than hand-portable sound amplification equipment to be used for crowd control purposes only, is prohibited on the White House Sidewalk (South 1600 Pennsylvania Avenue, NW, sidewalk between East Executive Avenue and West Executive Avenue). All sound amplification equipment shall be limited so that it will not unreasonably disturb nonparticipating persons in, or in the vicinity of, the area.

8. The National Park Service reserves the right to immediately revoke this permit at any time should it reasonably appear that the public gathering presents a clear and present danger to the public safety, good order or health, or if any conditions of this permit are violated.

Steve Whitesell
Regional Director
National Capital Region
