A. INTRODUCTION

1. Superintendent's Compendium Described

The Superintendent's Compendium is the summary of park specific rules implemented under 36 Code of Federal Regulations (36 CFR). It serves as public notice, identifies areas closed for public use, provides a list of activities requiring either a special use permit or reservation, and elaborates on public use and resource protection regulations pertaining specifically to the administration of the park. The Superintendent's Compendium does not repeat regulations found in 36 CFR and other United States Code and CFR Titles, which are enforced without further elaboration at the park level.

The regulations contained in 36 CFR, Parts 1-7, are the basic mechanism used by the National Park Service (NPS) to preserve and protect the natural and cultural resources of the park and to protect visitors and property within the park. Parts 1 through 6 are general regulations applicable to all areas of the National Park system, and Part 7 contains special regulations specific to individual parks. Each of these Parts has many sections and subsections articulating specific provisions. Within some of these Part 1-7 sections and subsections, the Superintendent is granted discretionary authority to develop local rules to be responsive to the needs of a specific park resource or activity, park plan, program, and/or special needs of the general public.

As an example, 36 CFR 1.5(a) *Closures and Public Use Limits* provides the Superintendent certain discretion in allowing or disallowing certain activities. The authority granted by the Section, however, requires the Superintendent to comply with the Administrative Procedures Act (6 USC Section 551), which requires public notice on actions with major impact on visitor use patterns, park resources or those that are highly controversial in nature.

Another example is 36 CFR 1.6 *Permits*, which allows the Superintendent to require a permit for certain uses and activities in the park. This Section, however, requires that a list of activities needing a permit (and a fee schedule for the various types of permits) be maintained by the park.

A final example is 36 CFR 2.1(c) (1) *Preservation of Natural, Cultural and Archeological Resources*, which provides the Superintendent the authority to designate certain fruits, nuts, berries or unoccupied seashells which may be gathered by hand for personal use or consumption. This activity can occur, however, only if a written determination shows that the allowed activity does not adversely affect park wildlife, the reproductive potential of a plant species, or otherwise adversely affect park resources.

This Compendium should be used in conjunction with Title 36 CFR, Parts 1-7, to more fully understand the regulations governing the use and enjoyment of all the areas of the national Park

System.

The CFR is also available on the Internet at:

2. Laws and Policies Allowing the Superintendent to Develop This Compendium

The National Park Service (NPS) is granted broad statutory authority under 16 United States Code (U.S.C.) Section 1 *et seq.* (Organic Act of 1916, as amended) to "...regulate the use of the Federal areas known as national parks, monuments, and reservations...by such means and measures as conform to the fundamental purposes of the said parks...which purpose is to conserve the scenery and the natural and historic objects and the wildlife therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment for future generations" (16 U.S.C. Section 1). In addition, the NPS Organic Act allows the NPS, through the Secretary of the Interior, to "make and publish such rules and regulations as he may deem necessary or proper for the use and management of the parks, monuments, and reservations under the jurisdiction of the National Park Service" (16 U.S.C. Section 3).

In 1970, Congress amended the NPS Organic Act to clarify its intentions as to the overall mission of the NPS. Through the General Authorities Act of 1970 (16 U.S.C. Sections 1a1-1a8), Congress brought all areas administered by the NPS into one National Park System and directed the NPS to manage all areas under its administration consistent with the Organic Act of 1916.

In 1978, Congress amended the General Authorities Act of 1970 and reasserted System-wide the high standard of protection defined in the original Organic Act by stating "Congress further reaffirms, declares, and directs that the promotion and regulation of the various areas of the National Park System, as defined by Section 1 of this Title, shall be consistent with and founded in the purpose established by Section 1 of this Title, to the common benefit of all people of the United States."

16 U.S.C. Section 1c defines the National Park System as "...any areas of land and water now or hereafter administered by the Secretary of the Interior through the National Park Service for park, monument, historic, parkway, recreational, or other purposes."

In addition to the above statutory authority, the Superintendent is guided by established NPS policy as found in the *NPS Management Policies* (2006). The Superintendent is also guided by more specific policies promulgated by the Director, National Park Service, in the form of Director's Orders. As stated in the Management Policies, the primary responsibility of the NPS is to protect and preserve our national natural and cultural resources while providing for the enjoyment of these resources by visitor and other users, as long as use does not impair specific park resources or overall visitor experience. The appropriateness of any particular visitor use or recreational experience is resource-based and will vary from park to park; therefore, a use or activity that is appropriate in one park area may not be appropriate in another. The Superintendent is directed to analyze overall park use and determine if any particular use is appropriate. Where conflict arises between use and resource protection, where the Superintendent has a reasonable basis to believe a resource is or would become impaired, than that Superintendent is obliged to place limitations on public use.

3. Consistency of This Compendium with Applicable Federal Law and Requirements

The Superintendent's Compendium is not considered a significant rule requiring review by the Office of Management and Budget under Executive Order 12866. In addition, this Compendium will not have a significant economic effect on a number of small entities nor impose a significant cost on any local, state or tribal government or private organization, and therefore does not fall under the requirements of either the Regulatory Flexibility Act or the Unfunded Mandates Reform Act.

The actions and requirements described in this Compendium are found to be categorically excluded from further compliance with the procedural requirements of the National Environmental Policy Act (NEPA) in Department of the Interior (DOI) Guidelines 516 DM 6 and as such, an Environmental Assessment will not be prepared.

4. Development of the Requirements of the Superintendent's Compendium

As outlined above, the NPS has broad authority and responsibility to determine what types of uses and activities are appropriate in any particular National Park System area. The requirements of the Superintendent's Compendium are developed through an analysis and determination process. The decision criteria used during this process are:

- Is there use or activity consistent with the NPS Organic Act and NPS policy?
- Is the use or activity consistent and compatible with the park's enabling legislation, management objectives, and corresponding management plans?
- Will the use or activity damage the park's protected natural and cultural resources and other protected values?
- Will the use or activity disturb or be in conflict with wildlife, vegetation, and environmental protection actions and values?
- Will the use or activity conflict with or be incompatible with traditional park uses and activities?
- Will the use or activity compromise employee or public safety?

5. Applicability of the Compendium

The rules contained in this Compendium apply to all persons entering, using, visiting or otherwise present on Federally owned lands, including submerged lands, and waters administered by the NPS within the legislative boundaries of the park. This includes all waters subject to the jurisdiction of the United States, including all navigable waters.

6. Enforcement of Compendium Requirements

NPS Law Enforcement Park Rangers enforce the requirements of the United State Code, 36 CFR, and this Superintendent's Compendium.

7. Penalties for Not Adhering to the Compendium Requirements

A person who violates any provision of the regulations found in 36 CFR, Parts 1-7, or provisions of this Compendium, is subject to a fine as provided by law (18 U.S.C. 3571) up to \$5,000 for individuals and \$10,000 for organizations, or by imprisonment not exceeding six months (18 U.S.C. 3559), or both, and shall be adjudged to pay all court costs associated with any court proceedings. You may receive a list of fines associated with any particular provision by contacting the Chief Ranger at the park address found below.

8. Comments on the Compendium

The Compendium is reviewed annually and revised as necessary. The park welcomes

comments about its program and activities at any time.

9. Effective Date of the Superintendent Compendium

The Superintendent's Compendium is effective on the approval date listed on the first page of this document, and remains in effect until revised for a period up to one year.

10. Additional Information

Some of the terms used in this Compendium may have specific meaning defined in 36 CFR 1.4 *Definitions*.

11. Availability

Copies of the Compendium are available at 290 Broadway New York, New York 10007. It may also be found at www.nps.gov/afbg.

B. SUPERINTENDENT'S COMPENDIUM

In accordance with regulations and the delegated authority provided in Title 36, Code of Federal Regulations ("36 CFR"), Chapter 1, Parts 1-7, authorized by Title 16 United States Code, Section 3, the following provisions apply to all lands and waters administered by the National Park Service, within the boundaries of African Burial Ground National Monument. Unless otherwise stated, these regulatory provisions apply in addition to the requirements contained in 36 CFR, Chapter 1, Parts 1-7.

Written determinations, which explain the reasoning behind the Superintendent's use of discretionary authority, as required by Section 1.5(c), appear in this document identified by italicized print.

I. 36 CFR §1.5 – VISITING HOURS, PUBLIC USE LIMITS, CLOSURES, AND AREA DESIGNATIONS FOR SPECIFIC USE OR ACTIVITIES

(a)(1) The following visiting hours and public use limits are established for all or for the listed portions of the park, and the following closures are established for all or a portion of the park to all public use or to a certain use or activity:

Visiting Hours:

- The National Monument is open as scheduled and posted at the building and/or through press releases and the park public website www.nps.gov/afbg
- The African Burial Ground Visitor Center is open Tuesday through Saturday from 10:00 a.m. to 4:00 p.m. The Visitor Center is closed Sunday and Monday.
- African Burial Ground National Monument outdoor grounds open (weather permitting):
 - from 10:00 a.m. to 4:00 p.m. Tuesday through Saturday.
 - The African Burial Ground National Monument outdoor grounds are closed (except for special events) Sunday through Saturday, from November through March.

- The Visitor Center and Monument grounds are also closed on the following designated federal holiday(s): Independence Day, Thanksgiving Day, Columbus Day, Christmas Day and New Year's Day.
- The park superintendent may close park facilities due to severe weather or emergencies on an as needed basis. These closures will be posted at the site and/or on the public park website, www.nps.gov/afbg

These visiting hours were determined to be in the best interests of the park and are necessary for the

proper management of the park. All portions of the park will be closed when it is necessary to protect the public from unsafe conditions or to protect the park resources from irreversible damage.

Public Use Limits:

- No parcel, container, package, bundle or other property shall be placed or stored on or along any park fence, hand railing, structure or barrier.
- Personal property larger than 22 inches by 14 inches by 9 inches is prohibited in the Park area. This restriction is based on the generally accepted airline carry-on standards.
- Items, including signs and pictures, cannot be attached to or otherwise left on park structures, including trees, except by permit. See also 36 CFR § 2.1.
- No signs or placards shall be permitted in the park area except those made of cardboard, poster board, plastic or cloth having dimensions no greater than three feet in width, four feet in length and one quarter inch in thickness. No supports shall be permitted for signs or placards.

- The pouring of "libations" of any kind within the Monument grounds requires a permit in advance.
- Bicycles and other items are prohibited from being attached to the fence and any other objects within the NPS property.
- Unmanned Aircrafts

These conditions have been established to protect park resources, ensure visitor safety, and promote the peaceful enjoyment of the park which is located in a congested, heavily trafficked, urban setting. Additionally, these conditions are designed to achieve the park's objective of commemorating the thousands of free and enslaved Africans buried at this site.

Closures:

Unmanned aircrafts: Launching, landing, or operating an unmanned aircraft from or on lands and waters administered by the National Park Service within the boundaries of African Burial Ground National Monument is prohibited except as approved in writing by the superintendent.

Definition: The term "unmanned aircraft" means a device that is used or intended to be used for flight in the air without the possibility of direct human intervention from within or on the device, and the associated operational elements and components that are required for the pilot or system operator in command to operate or control the device (such as cameras, sensors, communication links.) This term includes all types of devices that meet this definition (e.g. model airplanes, quadcopters, drones) that are used for any purpose, including for recreation or commerce.

E-Bikes: There are no park roads, landscape, steps, landings and pedestrian walkways or parking areas open to E-Bikes use by the general public within African Burial Ground National Monument and E-Bikes use is therefore prohibited.

Definition: An E-Bike is a two- or three-wheeled cycle with fully operable pedals and an electric motor of less than 750 watts (1 h.p.) that provides propulsion assistance. Use of E-Bikes after taking into consideration public health and safety, natural and cultural resource protection, and other management activities and objectives.

This restriction is after taking into consideration public health and safety, natural and cultural resource protection, and other management activities and objectives.

- The building is closed between 5:00 p.m. and 8:00 a.m., except by permit. When necessary to protect park visitors from unsafe conditions or to protect park resources, all or portions of the park will be closed on a temporary basis. Signs will be posted to announce such temporary closures.
- The park is designated as closed to the following activities, for which a permit will not be issued:
- Camping - Camping is defined by 36 CFR 1.4(a) as the erecting of a tent or shelter or natural or synthetic material, preparing a sleeping bag or other bedding material for use, parking of a motor vehicle, motor home or trailer, or mooring of a vessel for the apparent purpose of overnight occupancy
- Audio Disturbances - Quiet hours for the exterior of the building are in place from 8:00 p.m. to 9:00 a.m.
- Residing on Federal Lands
- Memorialization
- Construction of Buildings
- Scattering of cremated human remains
- Demonstrations of more than 25 people. See 36 CFR § 2.51 of this document for more information.
- Launching, landing, or operating an unmanned aircraft from or on lands and waters administered by the National Park Service within the boundaries of Theodore Roosevelt National Historic Site is prohibited except as approved in writing by the superintendent.
- Aircraft
- Snowmobiles
- Skating, Skateboards and similar coasting vehicles
- Use of Motor Vehicles
- Unmanned Aircrafts
- Bicycles
- E-Bikes

Carrying Capacity: Superintendents are also authorized to modify, impose, or reimpose occupancy restrictions at any level relative to normal occupancy as appropriate. Such changes should be implemented and enforced by issuing administrative orders under 36 C.F.R. § 1.5; notifying the public of the specific restrictions, limitations, closures, etc.

The following capacity limits are set as a maximum. However, lower numbers may be determined to be necessary on a case-by-case basis depending on the nature of the activity, the arrangement and size of supporting infrastructure (stage, chairs, etc.) and other factors:

Normal Operations: The number of visitors in the following indoor locations may not exceed the maximum occupancy identified for each location.

Indoor Location	Maximum Occupancy
Main Foyer in Front of Information Desk	8
Movie Theatre: Floor Area (not accounting for chairs), and # chairs bolted to ground.	36
Multi-purpose Room (floor area only)	32

Exhibit Floor Area	61
Bookstore Floor Area	19
GSA Rotunda Area (Lobby)	TBD by GSA
Outdoor Memorial	40

36 CFR 1.5(a)(2) - Designate Areas for a specific use or activity or impose conditions or restrictions on a use or activity.

Filming, still photography, and audio recording activity may require a permit, consistent with 54 U.S.C. 100905.

o Filming, still photography, and audio recording activity that occurs in closed areas, requires exclusive use of a site or area, or involves a set or staging equipment other than handheld equipment (such as a tripod, monopod, and handheld lighting equipment) requires a permit, unless the activity is affiliated with an activity or event that has been allowed under a written authorization, such as a special use permit.

o Filming, still photography, and audio recording that involves more than eight individuals requires a permit, unless the NPS has specifically notified an individual or group that a permit is not required, or if the activity is affiliated with an activity or event that has been allowed under a written authorization, such as a special use permit.

o If a permit is required for the reasons stated above, or if the NPS otherwise determines and then notifies an individual or group that a permit is required for a filming, still photography, or audio recording activity, then engaging in that activity without a permit is prohibited. Violating a term or condition of a permit issued by the NPS for a filming, still photography, or audio recording activity is prohibited, and may result in the suspension or revocation of the permit, in addition to any penalties that may apply under 36 CFR 1.3.

Federal law at 54 U.S.C. 100905 states that permits and fees are not required for filming, still photography, or audio recording in park areas if certain requirements are met. These requirements address various topics, including, but not limited to, group size, location, equipment, potential impacts to resources and visitors, and the likelihood that the NPS will incur related administrative costs. If any of these requirements are not met, the law allows the Secretary of the Interior, acting through the NPS, to require a permit for the subject activity. Permit requirements are imposed by the superintendent under discretionary authority provided by 36 CFR 1.5(a)(2), which allows the superintendent to impose conditions or restrictions on a use or activity, consistent with applicable legislation, to implement management responsibilities. The general regulations for permits in 36 CFR 1.6 do not apply to permits issued for filming, still photography, and audio recording, which instead are governed by the statutory provisions in 54 U.S.C. 100905. The imposition of permit requirements, on a case-by-case basis, for filming, still photography, or audio recording does not require rulemaking under 36 CFR 1.5(b). Requiring a permit with reasonable terms and conditions in accordance with statutory requirements at 54 U.S.C. 100905 is not highly controversial, will not result in a significant alteration in the public use pattern of the System unit, will not adversely affect the System unit's natural, aesthetic, scenic or cultural values, or require a long-term or significant modification in the resource management objectives of the System unit, because the permit requirement is limited in time and scope to the specific activities authorized by the permit, which contain terms and conditions that protect the values, resources, and visitors of the System unit, and implements federal law.

II. 36 CFR §1.6 – ACTIVITIES THAT REQUIRE A PERMIT

The following is a compilation of those activities for which a permit from the superintendent is required:

These conditions are designed to ensure that the park area can be safely travelled without obstructions to walkways that could result in injury and to facilitate the proper management of the park area which is located in a congested, heavily trafficked, urban setting. These conditions are necessary to achieve the Park 's objectives of protecting the safety of visitors and the occupants of the facility whicl¹ the monument shares.
