Wrangell-St. Elias

Yukon-Charley Rivers

2013 Summer Field Calendar

Caribou

WRST Mentasta Herd: Post calving survey June 19 - 20, flying between Dadina River and Upper Copper River, Judy Putera

WRST Mentasta Herd: Composition survey, late August/early September, Judy Putera

WRST Chisana Herd: Population census, early October, in cooperation with ADF&G and Yukon Dept. of Environment

Climate

WRST: Climate and snow station maintenance on seven sites, June 18 - 21, Ken Hill (NPS) and Dan Kenney (NRCS)

DENA: Climate and snow station maintenance at four sites, June 18, Pam Sousanes (NPS), Trey Simmons (NPS), and Daniel Fisher (NRCS)

YUCH: Climate station maintenance at two sites, July 23 - 24, Pam Sousanes and Ken Hill

DENA: Climate station installation and maintenance at at five sites, August 12 - 14, Pam Sousanes, Ken Hill, and Nadine Reitman (DENA)

DENA: Site evaluation for proposed NOAA Climate Reference Network Station, August 15 - 16, Pam Sousanes, Ken Hill, Rick Thoman (NWS), Rocky Bilotta (NOAA)

Golden Eagles

DENA: Nest occupancy and success surveys, July 1 - 31, Carol McIntyre, Mark Paulson, and Jason Reppert

Passerine Birds

WRST (Nabesna Rd): Roadside surveys, May 30 - June 8, June 10 - 20 (Carol McIntyre and Jason Reppert)

YUCH: River surveys, June 12 - 25 (Mark Paulson and Jeremy Mizel)

DENA: Surveys June 1 - 30

Peregrine Falcons

YUCH: Nest occupancy survey, May 30 - June 8, Melanie Flamme

YUCH: Productivity surveys, July 5 - 25, Melanie Flamme

Permafrost

DENA: Soil temp. probes throughout active layer to be installed with new RAWs at Wigand Creek, August 12 - 14

DENA: Carbon flux, thermal parameter monitoring at 8-mile Lake, ongoing, U. Florida partners, Dave Schirokauer

DENA: Collecting water samples for carbon isotope analysis, active layer depth measurement, 2 - 3 sites in Toklat Basin, mid-August, Dave Schirokauer

Shallow Lakes

DENA: water monitoring, acoustic wood frog monitoring, June 19 - 26 and July 28 - August 2, Amy Larsen, Heidi Kristenson

Small Mammals

DENA: density and population monitoring, August 12 - 19, Melanie Flamme and volunteers

Streams and Rivers

DENA: stream sampling, June 13 - 19, July 2 - 9, August 1 - 9, Trey Simmons

WRST: stream sampling, July 15 - 19 (McCarthy Rd), July 27 - 31 (helicopter-based), August 11 - 16 (Nabesna Rd), Trey Simmons

WRST: Fish survey in Samovar Hills, August 27 - 31, Trey Simmons

YUCH: Site reconnaissance and stream sampling, Yukon River, August 19 - 24, Trey Simmons

Tetlin NWR: Stream gage maintenance, July 22 - 24, Trey Simmons

Vegetation

YUCH: minigridd sampling for species composition and structure via river and helicopter access, June 6 - September 6 (crews working 10 days on, four days off), Carl Roland

Wolves

YUCH: two - three radio tracking flights to locate denning packs, throughout June, John Burch

DENA: Tracking, July, Bridget Borg
