

Herb Gedney: Over the years I have been in touch with four of my Aleutian squadron mates. Now they are gone but I have great pictures and memories to fall back on when I dig through the old photo album. One I actually made myself from wood while I was stationed there in the Aleutians. It all stays with you somewhat: the good, the bad, you remember. We were young, we handled it.

Thank you for letting me share my thoughts and memories that I had in Alaska with you.
