Ref. Big Cypress - Secondary ORV Trail Closures

Superintendent Ramos:

Even though we do not agree to the closure of any ORV trails, primary or secondary we make the following request:

Considering the time and effort extended by the ORVAC and members of the public to develop the grossly inadequate ORV trail system we have today, We certainly think it would be in order for those folks to have a say in which secondary trails will be consider for closure.

One prime example being that Myself, Franklin Adams and Bill Clark walked the Peckel trail in the heat of summer [Bill almost had a heat stroke] in order to get that trail opened.

Prior to any secondary trails being closed, I for one will look forward to going in the field with NPS and be directly involved in determining which secondary trails do not qualify under the description of secondary trails in the Plan and need to be considered for closure.

Your Thoughts.

Lyle McCandless
