National Preserve

Campgrounds

Enjoy the crackling of a campfire and sleep under the stars at Big Cypress National Preserve. With eight different campgrounds and approximately 200 sites to choose from, options are plentiful. And that's not even mentioning backcountry camping. Below is a list of useful things to know when camping at Big Cypress.

Reservations & Fees

Reservations are required for all designated campgrounds within Big Cypress National Preserve. Campgrounds fill up fast during the winter months, so plan ahead by making your reservation early and have a back-up plan, just in case.

Reservations for camping are made through www.recreation.gov. You may also call 877-444-6777 for assistance. Big Cypress charges a camping fee for all sites per night. Please view the table below for campground-specific fees.

Pets

Pets must be on a leash no longer than six feet. For their safety, use caution when walking pets around ponds. Please keep Big Cypress clean by picking up after your pet. Pets are not permitted in the backcountry, on trails, or on boardwalks. Car temperatures rise quickly in the sun, even on cool days. Your pet can easily die of heat exhaustion. If you are leaving a pet in a car, crack the windows as much as possible and leave water to drink.

Do not leave pets in the car at all when temperatures are above 68 degrees, even with the windows cracked.

While at Your Campsite

Camp only in designated sites. All vehicles (including trailers and motorcycles) must remain on pavement or designated areas, do not put any vehicle on grass or behind parking barriers, rock or otherwise. Do not move parking barriers. No digging or trenching is allowed at campsites.

Campfires must be attended at all times. Small campfires are allowed at designated camping sites. All fires shall be completely extinguished prior to the user leaving the campsite. Only dead wood lying on the ground may be collected as fuel for campfires within the national preserve.

Be considerate of your fellow campers by observing quiet hours from 10:00 pm to 6:00 am. Generator use is permitted in designated areas between the hours of 6:00 am to 10:00 pm.

Idling vehicle engines are considered generators.

Considering Backcountry Camping? Things to Know Before You Go

- A free permit is required and can be filled out online. They are also located at backcountry trailheads and at both visitor centers. Permits take only a few minutes to complete.
- Depending on when you camp water may not be available. Be prepared by bringing more than you need. Dehydration can occur quickly.
- Pack it in-pack it out. Keep YOUR national preserve cleaner than how you found it for others to enjoy.
- It is always a good idea to file an itinerary with family and friends. Let them know where you are traveling to, and when you will return. It is also a good idea to carry a Personal Locator Beacon, if possible. These can be activated in the event of an emergency.
- Visitors must be a minimum of 1/2 mile away from any roadway to camp in the backcountry.

Food Storage

Big Cypress is renowned for its wildlife, and wildlife viewing is a favorite of many visitors. Help protect them by not attracting wildlife, including black bears, to your campsite due to improperly stored food. Bears can visit any time of day.

Never leave food items unsecured or unattended, day or night. Improperly stored or unattended food items will result in a violation notice. "Food items" include food, drinks, toiletries, cosmetics, pet food and bowls, and odoriferous attractants. Garbage, including empty cans and food wrappers, must be stored or disposed of in trash or recycling receptacles.

If you have food at your campsite, ensure that it is either locked in your vehicle, kept in a sealed and durable container that cannot be easily opened.

Length of Stay

No person, party, or organization shall be permitted to camp in designated areas for more than the total maximum number of days as follows:

- January 1 to April 30 10 days maximum
- May 1 to December 31 14 days maximum

The maximum length of stay for any camping activity within the national preserve is 180 days in a 12-month period.

Once the daily limit has been reached for each time period, no person, party, or organization may use another designated area for the remainder of that season

Emergencies & Security

In case of emergency dial 9-1-1, or National Park Service Dispatch at: 800-788-0511.

The nearest hospitals are:

NCH North Naples Hospital 11190 Health Park
Boulevard
Naples, FL 34110
