

Biodiversity University Official Transcript

Name _____

School _____

Grade Level _____

Required Coursework (complete either A OR B below)

A. Accelerated Online Credit

Three required courses may be completed online and transferred to Biodiversity University with approval of your instructor. Coursework is located at:

www.nationalgeographic.com/field/projects/bioblitz/education/

- BD101 - Making & Recording Observations
- BD102 - Identifying Species
- BD103 - Mapping Information

Certification: I certify that the student named on this transcript has completed the three required courses above on the National Geographic website.

Teacher's Signature

B. On-campus Credit

Three required courses can be completed on-campus. Have your professor stamp your transcript as you complete each course.

BD101 - Making/Recording Observations

CREDIT

Additional Credits

You will receive a stamp in each box on this page for every credit you earn. Additional Credits can be earned in the following ways:

- **Partner Booth Activities** - Specially marked partner booths at both Convoy Point and Elliott Key will offer hands-on learning courses that will earn one credit per activity. Some will be easier than others...kind of like Basketweaving and Organic Chemistry. One credit per course.
- **Field Experiences** - Attendance at educational presentations or lectures (but not musical performances) will be worth 2 credits each.
- **Study Abroad** - Students who go out on a boat to do field surveys will be awarded 4 credits per survey.

Additional credits beyond a total of 16 will be considered "Lifelong Learning" and receive no additional benefit.

B.B.A.

Bachelor of
Biodiversity Awareness
