Rec'd by: _____

Cemetery Name: _____

Date/Time Requestor would like to visit the Cemetery:

Name of Requestor: _____

Address of Requestor: _____

City/State/Zip: _____

Contact Phone Number/Email:

Special Conditions/Needs (i.e., handicaps) that require accommodations in getting to the cemetery:

Those requesting cemetery access are not required to answer the following questions. However, the questions are designed to assist the park in establishing historical records for each cemetery.

1. What is your reason for visiting this cemetery?
☐ Visit grave of relative ☐ Genealogy Research
☐ Decorate Grave ☐ Other (see paragraph below)

Descendants wanting to add, repair or replace headstones, erect fencing, plant or cut vegetation on lands managed by the National Park Service need to contact the Superintendent's Office at Big South Fork NRRRA Headquarters with their plans. The Superintendent will then decide on how NPS can best meet those concerns. A Special Use Permit will be **required**.

2. Do you have information on this cemetery that would assist the park in building its historical records, i.e., provide information regarding the date the cemetery was established; names or dates of burials that are not recorded; or any information associated with burials within this or any other cemetery located in the Park.
3. May the park contact you regarding your historical knowledge of the cemetery?

<i>NPS USE ONLY</i>
