

# BRYCE CANYON NATIONAL PARK

The National Park Service is conducting a study to prepare a multimodal transportation plan in order to understand existing transportation problems within Bryce Canyon National Park as well as to determine appropriate solutions.

## We invite you to join us for a **Public Open House**

**NOVEMBER 15, 2011**

**4:00 TO 7:00 P.M.**

A BRIEF PRESENTATION WILL  
BEGIN AT 5:30 P.M.

**RUBY'S INN**

26 SOUTH MAIN  
BRYCE CANYON CITY, UT

Public comment will be accepted from  
November 15, 2011 through December 15, 2011.

# Bryce Canyon

National Park Service  
U.S. Department of the Interior

Bryce Canyon National Park

## Dear Friend of Bryce Canyon National Park:

The National Park Service is preparing an Environmental Assessment (EA) for a Multimodal Transportation Plan (Plan). This project will enable the park to plan for current and future traffic solutions in an integrated context.

Through the course of the planning process, the project team will identify transportation-related issues, gather input from park users and the surrounding communities, and recommend solutions to transportation management within the park. The first step is to gain a clear understanding of existing concerns and issues that should be considered in developing appropriate solutions (the second step). From a set of proposed solutions, park management can determine where, when and how to make strategic transportation investments.

The transportation plan will explore a range of potential solutions, from shaping visitor demand in new ways to changes in park operation. The desired outcomes of the Plan include:

- Reducing traffic congestion and parking shortages
- Increasing safety
- Eliminating or minimizing resource conflicts
- Improving the visitor experience
- Improving connectivity for all modes of transportation, including public transportation, private vehicles, tour buses, pedestrians and bicycles
- Improving park operational efficiency

The public is invited to attend an **Open House** to identify issues and provide information to the NPS that should be considered in development of the Plan. The Open House will be held on **Tuesday, November 15, 2011** from 4 – 7 p.m. at the Ruby's Inn Conference Room (26 South Main Street, Bryce Canyon City, UT). Project representatives will provide a brief presentation at 5:30 p.m. to explain the need for the Plan and how other parks in the National Park system are using innovative transportation solutions to manage increased visitation.

An open comment period will begin on November 15, 2011. Those wishing to provide comments should submit them in writing as soon as possible, but no later than December 15, 2011 to: <http://parkplanning.nps.gov/brca>, to [brca\\_information@nps.gov](mailto:brca_information@nps.gov), or to Bryce Canyon National Park, P.O. Box 640201, Bryce, UT 84764.

Respondents should include their name, address and email to be added to the mailing list for more information about this project. Remember that unless requested otherwise, a list of all those that comment during public review periods, including their addresses, is available upon request.

Thank you in advance and we look forward to seeing you at the Public Open House!
