Buffalo National River News Release

Release Date: 6/18/15
Contact: Caven Clark, Public Information Officer 870/365-2790

Park Plans for Possible Flooding at Tyler Bend Campground

Although most of the immediate damage and anticipated threats appear to be concentrated in the Newton County portion of Buffalo National River, the park is taking steps in view of a high probability of flooding at Tyler Bend Campground off Highway 65 in Searcy County. Park Maintenance has removed electrical assets in the flood plain at Tyler Bend.

Until the threat passes, the pavilion restroom and group site restrooms will be closed. Also closed are the group sites and walk-in campsites. The “peanut loop” on higher ground will remain open with functioning restrooms and water. If river levels rise above the 33 foot level at the Highway 65 bridge further closures may be necessary. These closures will include the remaining restrooms and campsites in the TB campground.

For current information and status of closures please call the Tyler Bend Visitor Center at 870/439-2502.
