4 - Monumental Memories submitted by NPS VIP Mark Sampson. "Here is a photograph taken soon after we moved to San Diego from Garden Grove, California in 1966. That's Mom in the back row. Pictured are my brothers Jon, me, Bob, Bill and Doug with my sisters Eileen, Anne, and Kathy. Judging by the age of the youngest one, we're thinking about 4 years old, that would place the photo at c. 1968. The JRC statue is the original sandstone version, this might very well have been our first trip to CNM after moving here.

5 - Monumental Memories submitted by NPS VIP Dan Wieder. " This photo is from July of 2001 and shows the Wieder family on vacation. From left, Rachel, Lisa, Becky and Dan. Cabrillo National Monument and especially the tide pools have been and always will be our favorite place to go. We have spent many hours at the Monument. Dan and Becky got engaged at the tide pools and often brought their daughters to Cabrillo on each family visit back to San Diego. Dan and Becky have now returned to live in Point Loma and are volunteers at the park.

It was especially wonderful to relax with the view of the coastline, feeling the warm winds blow, and then to stand beside a hero – the 14 ft. high white sculpture glowing in the sunshine, cross atop, and to quietly think of a man, and his mission which deserves much honor. Thanks so much for adding to our wonderful March break experience in San Diego California!”

Best location in the world - Pacific Ocean at our feet, San Diego Bay behind us, right next to the Old Lighthouse, Cabrillo's adventurous spirit in the air. Best friends & family, best memories, the beginning of a great marriage that's going strong 17+ years later. Wish you could have been there!"

3 - Monumental Memories submitted by Catherine Madden. "I was at Cabrillo National Monument on July 2, 2014. My friend and I were visiting San Diego for a week and decided to spend the day at the national park. I have been visiting national parks all my life, and I was eager to add this park to my National Park Passport book. I only have one more region to go until all are represented! We spent the morning at the visitor center exploring the shop and walking around the exhibit, monument, and lighthouse. After a quick lunch on the bench at the start of the Bayside Trail, we hiked the entire loop. What gorgeous views that trail has! Even though it was very foggy/cloudy that day, the pictures still turned out great. The afternoon was spent down at the tidal pools, where we explored the cliffs and inlets.

4- Monumental Memories submitted by Isable Hernandez. "These two pictures are of my dear mother Jessie Samaro who will turn 95 in December 2013. She went to visit the Cabrillo National Monument for my birthday on 6/1/2009."

1 – Monumental Memories submitted by visitor Jill W. Dec 16, 2012. This was my first time at Cabrillo National Monument and the view was breathtaking. I took this picture of my grandson as he was using binoculars to look at Coronado Island and the boats in the water.

3 – Monumental Memories submitted by visitor Jill W. Dec 16, 2012. The tide pools were a fascinating place for my grandchildren to explore. They spent a wonderful afternoon looking closely at the many living creatures in several wonderful tide pools. It sure is a lot different experience than what I am familiar with in Wisconsin in December! Wonderful day!

1 & 2- Monumental Memories submitted by Janet Potts. I have been privileged to come to San Diego on business for the last 8 years. For four of those years, my husband, Jeff, was able to tag along. It became our tradition to head straight to Cabrillo from the airport. How we loved to drive along that high cliff above the tide pools! One we reached the bottom, Jeff couldn't wait to go stand on "his" rock. Out of all the places we had been in this world, this particular spot was high on his list of favorites. One year during low tide, I just happened to look up from the shoreline to notice that no one else was around. I snapped this picture, which I thought was quite striking with the sunbeams behind him. Like so many busy moms, I put away the disc that housed the picture and didn't print any of them. Sadly, Jeff passed away in 2010. While going through digital pictures for his memorial service, I found this treasure. Later, I had this etched on his grave stone. You can almost see an angel in the clouds behind him. Jeff will forever be standing on his rock!

3 - Monumental Memories submitted by Matt Romocki and Sandy Bowers. Married at Cabrillo NM on December 23, 1999. "It was a beautiful day and a great memory we continue to share."

1 & 2- Monumental Memories submitted by NPS VIP Suzanne Summers. The photos were taken the day that President Kennedy was shot November 22, 1963 (50 years ago this year). I was a student at San Diego State College, classes were canceled after the news so my roommate and I, with our boyfriends drove out to Cabrillo National Monument, trying to comprehend what had just happened. It was a place we went often. The pictures were taken by Michael U. Evans (my boyfriend)

Their passion and professionalism greatly enhanced my experience by allowing me to get a glimpse of what it might have been like serving duty at the base."

Monumental Memories submitted by Patty Roder. "One of our favorite memories from the many hours we've spent at Cabrillo National Monument includes the time we were walking the Bay Side trail and saw the aircraft carrier, the USS Ronald Reagan (CVN-76), coming into San Diego bay. Seeing the nuclear-powered supercarrier up close was very impressive. We take all of our out-of-town visitors to Cabrillo National Park. The photo is of my son and I (Patty & Andy Roder, Point Loma residents) enjoying the view of downtown San Diego and surrounding mountains on a clear day with Virginia cousins, Mary and Christopher Byron (December 2010).

We got married on April 26 of this year and when we started dating, Cabrillo was our favorite place to go on dates. Also, I found Cabrillo Monument very meaningful to me because I'm from Guatemala and if I'm not mistaken Cabrillo was coming from Guatemala, after he helped Pedro de Alvarado to conquer the land, when he discovered San Diego."
