### **Canaveral National Seashore Record of Decision is Released**

Canaveral National Seashore Superintendent Myrna Palfrey has announced the release of the Record of Decision for the Final General Management Plan and Environmental Impact Statement for Canaveral National Seashore. This plan represents involvement from our park communities, members of the public, state agencies of Florida, other agencies and partners, and the National Park Service. The Record of Decision presents the decision by the National Park Service to select and implement Alternative B from the Final General Management Plan and Environmental Impact Statement. Under this alternative, the national seashore would be managed to preserve and enhance the natural and historic landscape features associated with the national seashore's eastern Florida coastal barrier island system. Emphasis would be placed on retaining the national seashore's relatively undeveloped character, providing uncrowded experiences, and enhancing educational opportunities and programs for visitors.

A copy of the record of decision can be found at: [www.parkplanning.nps.gov/canagmp](http://www.parkplanning.nps.gov/canagmp)

You may also contact the national seashore at the physical address or phone number below to obtain a copy.

Your input was instrumental in the planning process and we look forward to implementing the plan with your support and collaboration.
